Reconstructing Individualism Thomas C. Heller, Morton Sosna, David E. Wellbery, 1986 **Reconstructing Individualism** Thomas C. Heller, Morton Sosna, Christine Brooke-Rose, David E. Wellbery, 1986 Reconstructing Individualism, 1988 *Commerce Before Capitalism in Europe, 1300-1600* Martha C. Howell, 2010-04-12 Later generations have sometimes found such actions perplexing often dismissing them as evidence that business people of the late medieval and early modern worlds did not fully understand market rules **Hegel's 'Individuality'** Martin Donougho, 2023-08-31 This book explores an overlooked area in Hegel studies his use of individuality Individuality Hegel joined a lively conversation from Leibniz to Romanticism and beyond about this novel concept phenomenon Successive chapters track Hegel's engagement in such texts as the *Phenomenology of Spirit*, *Encyclopedia of the Sciences of Philosophy* and *Aesthetics* Hegel's system tends to follow a syllogistic logic universal particular singular but individuality departs from the norm The category enacts a certain pragmatics as against semantics or syntactics regarding tacit assumptions at work or implicit terms of address which requires active participation by a thinking subject charged with discerning individuality which bars resort to explicit rules The category reflexively implicates the user even in presuming an objective context Individuality should not be confused with individualism wholly distinct in origin Moreover Hegel's *Aesthetics* embraces a paradoxical anachronism Like art itself individuality emerged as an essentially modern category though one transferred to the past and to distant cultures

Anthropology and Autobiography Judith Okely, Helen Callaway, 1992-07-02 Anthropological writings by anthropologists in the field have long been a valuable tool to the profession But until now the theoretical implications of its use have not been fully explored *Anthropology and Autobiography* provides unique insights into the fieldwork autobiographical materials and or textual critiques of anthropologists many of whose ethnographies are already familiar It considers the role of the anthropologist as fieldworker and writer examining the ways in which nationality age gender and personal history influence the anthropologist's behavior towards the individuals he is observing This volume also contributes to debates about reflexivity and the political responsibility of the anthropologist who as a participant has traditionally made only stylized appearances in the academic text The contributors examine their work among peoples in Africa Japan the Caribbean Greece Shetland England indigenous Australia Indonesia and Sri Lanka Autobiography is developed alongside political intellectual and historical changes The anthropologists confront and examine issues of racism reciprocity and friendships *Anthropology and Autobiography* will appeal to anthropologists and social scientists interested in ethnographic approaches the self reflexivity qualitative methodology and the production of texts Literary Character Elizabeth Fowler, 2018-07-05 Chaucer introduces the characters of the Knight and the Prioress in the General Prologue to *The Canterbury Tales* Beginning with these familiar figures Elizabeth Fowler develops a new method of analyzing literary character She argues that words generate human figures in our reading minds by reference to paradigmatic cultural models of the person These models such

as the pilgrim the conqueror the maid the narrator originate in a variety of cultural spheres A concept Fowler terms the social person is the key to understanding both the literary details of specific characterizations and their indebtedness to history and culture Drawing on central texts of medieval and early modern England Fowler demonstrates that literary characters are created by assembling social persons from throughout culture Her perspective allows her to offer strikingly original readings of works by Chaucer Langland Skelton and Spenser and to reformulate and resolve several classic interpretive problems In so doing she reframes accepted notions of the process and the consequences of reading Developing insights from law theology economic thought and political philosophy Fowler's book replaces the traditional view of characters as autonomous individuals with an interpretive approach in which each character is seen as a battle of many archetypes According to Fowler the social person provides the template that enables authors to portray and readers to recognize the highly complex human figures that literature requires

Grace, Talent, and Merit Anthony J. La Vopa, 2002-06-27 Poor students experienced a kind of upward mobility that was not uncommon in old regime Europe They were also objects of controversy and as such they reveal the many dimensions of the issue of opening careers to talent At stake were socially and politically sensitive questions about the relative importance of nature and nurture of natural talent and birth in realizing human potential about the proper reconciliation of collective imperatives and individual freedom of hierarchical stability and progress about how national systems of education should be structured about the kind and degree of upward mobility the society and the culture needed and could tolerate This 1988 book shows how a cluster of familiar eighteenth century ideas about grace talent and merit shaped a formative social experience for men whose importance is still celebrated today as well as for members of the educated elite who were and have remained obscure
