Bulletin Ontario. Department of Agriculture, 1918 *Between Deflationism and Correspondence Theory* Matthew McGrath, 2014-01-21 McGrath argues for an original truth theory that combines elements of two well known philosophical theories deflationism and correspondence **Uses of Plants by the Hidatsa of the Northern Plains** Gilbert Livingston Wilson, Michael Scullin, 2014-07-01 In 1916 anthropologist Gilbert L. Wilson worked closely with Buffalo Bird Woman, a highly respected Hidatsa born in 1839 on the Fort Berthold Reservation in western North Dakota for a study of the Hidatsas' uses of local plants. What resulted was a treasure trove of ethnobotanical information that was buried for more than seventy-five years in Wilson's archives, now held jointly by the Minnesota Historical Society and the American Museum of Natural History in New York City. Wilson recorded Buffalo Bird Woman's insightful and vivid descriptions of how the nineteenth-century Hidatsa people had gathered, prepared and used the plants and wood in their local environment for food, medicine, smoking, fiber, fuel, dye, toys, rituals and construction. From courtship rituals that took place while gathering Juneberries to descriptions of how the women kept young boys from stealing wild plums as they prepared them for use to recipes for preparing and cooking local plants, *Uses of Plants by the Hidatsas of the Northern Plains* provides valuable details of Hidatsa daily life during the nineteenth century.
