Riggisberger Berichte 7:

Islam and Tibet – Interactions along the Musk Routes Anna Akasoy, 2016-12-14 The first encounters between the Islamic world and Tibet took place in the course of the expansion of the Abbasid Empire in the eighth century Military and political contacts went along with an increasing interest in the other side Cultural exchanges and the transmission of knowledge were facilitated by a trading network with musk constituting one of the main trading goods from the Himalayas largely through India From the thirteenth century onwards the spread of the Mongol Empire from the Western borders of Europe through Central Asia to China facilitated further exchanges The significance of these interactions has been long ignored in scholarship This volume represents a major contribution to the subject bringing together new studies by an interdisciplinary group of international scholars They explore for the first time the multi layered contacts between the Islamic world Central Asia and the Himalayas from the eighth century until the present day in a variety of fields including geography cartography art history medicine history of science and education literature hagiography archaeology and anthropology *Proceedings of the Tenth Seminar of the IATS, 2003. Blair, 2019-06-01 No detailed description available for Islamic Inscriptions *Studies in Byzantine, Islamic and Near Eastern Silk Weaving* Anna Muthesius, 2006-12-31 This volume complements Anna Muthesius two earlier ground breaking volumes in the field of silk as material culture *Studies in Byzantine and Islamic Silk Weaving* and *Studies in Silk in Byzantium* The publication highlights the fact that similar patterns of selection were at work in the acquisition of silks by secular and ecclesiastical bodies These patterns of selection were governed not only by fashions of the time but by access to international trade routes leading to the Great Silk Road linking the Near East to the Mediterranean The surviving silks prove that Mediterranean Near Eastern silk trade flourished continuously and for centuries prior to the thirteenth century contrary to what has previously widely been assumed It also highlights the crucial role of the Caucasian silk routes in accessing the Great Silk Road in the early period

and the contribution of Georgian and Armenian silk weaving after the thirteenth century Above all the book demonstrates how important it is to assess the impact of Near Eastern silk manufacture and distribution in relation to Byzantine and Islamic Mediterranean silk production and trade

Byzantine Silk on the Silk Roads Sarah E. Braddock Clarke, Ryoko Yamanaka Kondo, 2022-08-11 With over 200 color illustrations Byzantine Silk on the Silk Roads examines in detail the eclectic iconography of the Byzantine period and its impact on design and creativity today Through an examination of the extraordinary variety of designs in these captivating silks an international team of experts reveal that Byzantine culture was ever moving and open to diverse influences across the length of the Silk Road Commentaries from curators at key collections including the Museum of Arts Boston the Smithsonian Cooper Hewitt the V A and the Vatican reveal the spread of silk embroidery and designs from East to West and from West to East from China to Rome and from Constantinople to Korea Drawing on exclusive imagery from worldwide collections within museums churches and archives as case studies their analysis of these unique woven silks explores the relationship between color and power material culture and status and offers broader insight into Byzantine culture trade society and ceremony Byzantine Silk takes us on a journey from the past to the present too where Byzantine story telling and image making is revisited through color imagery and pattern in contemporary fashion collections Exploring Byzantine culture through a contemporary filter the book shows how the Byzantine era still influences textile and fashion designers today in their choices of materials and colors and their utilization of images and patterns acting as a unique source of inspiration to designers and creators in the 21st century
