Lucretius Iii De Rerum Natura Classical Texts Series:

De Rerum Natura IV Titus Lucretius Carus,1986 **Lucretius De Rerum Natura IV** Titus Lucretius Carus,1986 Book IV of Lucretius great philosophical poem deals mainly with the psychology of sensation and thought The heart of this book is a new text incorporating the latest scholarship on the text of Lucretius with a clear prose facing translation The commentary concentrates on the thought of the text relating it to other philosophers beside Epicurus and the poetry of the Latin placing the text in relation to Roman literature in general and attempting to demonstrate the poetic genius of Lucretius The introduction deals with the didactic tradition in ancient literature and Lucretius place in it the structure of De Rerum Natura the salient features of the philosophy of Epicurus and the transmission of the text **De Rerum Natura** Titus Lucretius Carus,2009 For a work written more than two thousand years ago in a society in many ways quite alien to our own Lucretius De Rerum Natura contains much of striking even startling contemporary relevance This is true above all of the fifth book which begins by putting a strong case against what it has recently become fashionable to call intelligent design and ends with an account of human evolution and the development of society in which the limitations of technological progress form a strong and occasionally explicit subtext Along the way the poet touches on many themes which may strike a chord with the twenty first century reader the fragility of our ecosystem the corruption of political life the futility of consumerism and the desirability of limiting our acquisitive instincts are all highly topical issues for us as for the poem s original audience Book V also offers a fascinating introduction to the world view of the upper class Roman of the first century BC This edition which complements existing Aris and Phillips commentaries on books 3 4 and 6 will help to make Lucretius urgent and impassioned argument and something of his remarkable poetic style accessible to a wider audience including those with little or no knowledge of Latin Both the translation and commentary aim to explain the scientific argument of the book as clearly as possible and to convey at least some impression of the poetic texture of Lucretius Latin Lucretius Philip de May,2009-05-14 What is the world made of How can we be happy What happens after death Drawing on the philosophical teachings of Epicurus Lucretius ambitiously seeks to answer these and other big questions in his masterful poem On the nature of things at the same time he coats his words in the honey of the Muses to make potentially difficult material more appealing to his readers This book offers a selection of key passages from the poem in addition it gives students insight into its artistic inventiveness provides a cultural and historical frame of reference and offers access to the Epicurean philosophy that underlies it **The Oxford encyclopedia of ancient Greece and Rome. - Vol. 1 - 7** Michael Gagarin,2010

through the ages The way in which they are communicated and spread is a topic which impacts our lives on a daily basis and is an important theme in current literature The ancient world is an ideal arena for the exploration of these issues being a closed period of human history that offers a secure resource for exploring the phenomenon Philip Hardie's *Rumour and Renown: Representations of Fama in Western Literature* Cambridge University Press 2012 is an authoritative work on this subject and the stimulus for this volume Continuing the on going discussion each one of the contributors examines further aspects of the issue in the work of Lucretius Cicero Virgil Ovid Manilius Juvenal and the Christian poet Prudentius The volume offers insights into the poets personal quest for acclaim and more importantly their awareness of the qualities of the phenomenon an awareness which on occasion led them to personify fame and glory Virgil's personification of Fama in Aeneid 4 was fame's most important personification influencing artists for centuries to come and it is this subject with which the volume concludes

De Rerum Natura III Titus Lucretius Carus, 1997 Lucretius poem for which Epicurean philosophy provided the inspiration attempts to explain the nature of the universe and its processes with the object of freeing mankind from religious fears The third book not only seeks to demonstrate that since the soul is mortal there can be no after life but also aims to reconcile the reader to the prospect of the end of his consciousness This edition incorporates a new text and prose translation and is designed to set the book in the context of the whole poem and of the Epicurean philosophical system to explain and elucidate its argument and at the same time to analyse some of the literary and artistic features which contribute to Lucretius poetic achievement and stature Latin text with facing page translation *Routledge Encyclopedia of Philosophy* Edward Craig, 1998 Volume five of a ten volume set which provides full and detailed coverage of all aspects of philosophy including information on how philosophy is practiced in different countries who the most influential philosophers were and what the basic concepts are

Encyclopedia of Classical Philosophy Donald J. Zeyl, 2013-10-23 The Encyclopedia of Classical Philosophy is a reference work on the philosophy of Greek and Roman antiquity It includes subjects and figures from the dawn of philosophy in Ionia in the 6th century BC to the demise of the Academy in Athens in the 6th century AD Scholarly study of the texts and philosophical thought of this period has been during the last half of the 20th century amazingly productive and has become increasingly sophisticated The 269 articles in the encyclopedia reflect this development While the majority of the articles are devoted to individual figures many of the articles are thematic surveys of broad areas such as epistemology ethics and political thought Some articles focus on particular concepts that evoked significant philosophical treatment by the ancients and have proved central to later thought Other articles treat fields that are no longer considered part of philosophy proper such as mathematics and science There are articles examining areas of intellectual or cultural

endeavour such as poetry or rhetoric or genres of philosophical expression such as dialogue and diatribe Still others describe the historical developments of philosophical schools and traditions The encyclopedia includes a chronology and guide to further reading Best Reference Source **Examples in algebra, by W.F. McMichael and R. Prowde-Smith. [With] Answers** William Fisher McMichael, 1879 **Euripides** Euripides, Frederick Apthorp Paley, 1880 *The Phoenissae of Euripides, with brief notes by F.A. Paley* Euripides, 1879 **Classics in Extremis** Edmund Richardson, 2018-12-13 Classics in Extremis reimagines classical reception Its contributors explore some of the most remarkable hard fought and unsettling claims ever made on the ancient world from the coal mines of England to the paradoxes of Borges from Victorian sexuality to the trenches of the First World War from American public school classrooms to contemporary right wing politics How does the reception of the ancient world change under impossible strain Its protagonists are marginal figures who resisted that definition in the strongest terms Contributors argue for a decentered model of classical reception where the marginal shapes the central as much as vice versa and where the most unlikely appropriations of antiquity often have the greatest impact What kind of distortions does the model of centre and margins produce How can marginal receptions be recovered most effectively Bringing together some of the leading scholars in the field Classics in Extremis moves beyond individual case studies to develop fresh methodologies and perspectives on the study of classical reception **Opera** Euripides, 1880
