Politics of Female Genital Cutting (FGC), Human Rights and the Sierra Leone State Tom Obara Bosire, 2014-08-26 Politics of Female Genital Cutting FGC Human Rights and the Sierra Leone State The Case of Bondo Secret Society provides a comprehensive analysis of contemporary post war Sierra Leone politics through ethnographic examination of key cultural institutions like the Bondo society the law media and state actors The book discusses historical medical and socio cultural underpinnings of the Female Genital Cutting FGC practice among members of the Bondo society in Sierra Leone by pointing out inherent and apparent tensions of a secret society dedicated to the continuation of long established gender practices at the counter point of concerted international condemnation against the practice Drawing on ethnography the study highlights the complexity of FGC as practiced in Sierra Leone owing to the fact that it is interlaced in multifarious ways to politics cosmology community idioms of inclusion medical metaphors and the sociological vernacular of people that practice it In the Bondo society some women have access to considerable forms of powers which endear them to political actors in Sierra Leone On account of this and in a context of donor aid conditionality tied to efforts at ending FGC a stage is therefore set where the local political elite ambivalently attend to competing interests from FGC adherents and eradication proponents in the high stakes politics of legitimatizing power The book's subtle and nuanced view of power handy to members of the Bondo society however does not lead to a vindication of FGC but is an attempt to go beyond blunt condemnation of the practice in order to explore the cultural and socio political underpinnings that animate the practice

Understanding Circumcision George C. Denniston, Frederick Mansfield Hodges, Marilyn Fayre Milos, 2013-06-29 Every

year in the United States and the third world combined 13.3 million boys and 2 million girls are circumcised. Whether because of perceived medical, cultural, or religious necessity, most of these parents feel they have no alternative but to allow their children to undergo this surgery. Sparking intense debate, the circumcision of children is a highly controversial and complex phenomenon that touches a variety of sociological areas such as religious beliefs, identity issues, medical conceptualizations, fear, and superstition. The contributors to this volume comprise an international panel of experts in the fields of medicine, psychology, law, ethics, sociology, anthropology, history, theology, and politics. In 18 chapters, they discuss the history of circumcision, document the physical and psychological consequences of circumcision, present the latest anatomical discoveries about the male prepuce, analyze the role of circumcision in various traditions, reveal the medical industry's investment in the practice, describe current legislative efforts to protect children from circumcision, and outline effective, culturally sensitive methods that are being implemented today to safeguard the human rights of at-risk children. For its insights into this troubling aspect of culture, *Understanding Circumcision: A Multi-Disciplinary Approach to a Multi-Dimensional Problem* is a critically important contribution to the growing body of literature on this subject. **Morality, Violence, and Ritual Circumcision** Na'ama Carlin, 2022-11-30. This book uses the Jewish ritual of circumcision to consider how violent acts are embedded within entrenched moral discourses and offers a new perspective for thinking about violence. Intervening in contemporary debates on the Jewish ritual of circumcision, it departs from both the ordinary secular defences of circumcision for medical reasons and the criticisms that consider it an unethical violation of bodies that cannot consent. An examination of the intersection of violence and morality, this book rejects the binary logic on which popular debates on circumcision hinge, arguing that in some instances, violence can be a productive experience and can thus be considered beyond good and bad. Engaging with the works of Jacques Derrida, the author puts forward a framework of violence of ontology which is characterised as a violence that is related to existence, the violence of being which resists definition through binary oppositions. In so doing, the author contends that circumcision is in fact a form of generative violence that is leveraged for cultural purposes and inherent in the making of bodies. As such, this volume offers a compelling framework that investigates the relationship between bodies, identities, ethics, and violence and will therefore appeal to scholars of sociology, social theory, and religion with interests in the sociology of the body, ritual, and cultural studies. **The Routledge International Handbook of Harmful Cultural Practices** Maria Jaschok, U. H. Ruhina Jesmin, Tobe Levin von Gleichen, Comfort Momoh, 2023-12-04. This handbook looks at cross-cultural work on harmful cultural practices considered gendered forms of abuse of women. These include female genital mutilation (FGM), virginity testing, hymenoplasty, and genital cosmetic surgery. Bringing together comparative perspectives, intersectionality, and interdisciplinarity, it uses feminist methodology and mixed methods with ethnography of central importance to provide holistic, grounded theorizing within a framework of transformative research. Taking female genital mutilation, a topical, contested practice, and making it a heuristic

reference for related procedures makes the case for global action based on understanding the complexity of harmful cultural practices that are contextually differentiated and experienced in intersectional ways But because this phenomenon is enshrouded in matters of sensitivity and prejudice narratives of suffering are muted and even suppressed are dismissed as indigenous ritual or become ammunition for racist organizing Such conflicted and often opaque debates obstruct clear vision of the scale of both problem and solution Divided into six parts Discourses and Epistemological Fault Lines FGM and Related Patriarchal Inscriptions Gender and Genitalia Female Bodies and Body Politics Economics Law Medicine Public Health and Human Rights Placing Engagement Innovation Impact Care Words and Texts to Shatter Silence Comprised of 24 newly written chapters from experts around the world this book will be of interest to scholars and students of nursing social work and allied health more broadly as well as sociology gender studies and postcolonial studies

Female Circumcision Rogaia Mustafa Abusharaf, 2013-03-01 Bolokoli khifad tahara tahoor qudiin irua bondo kuruna negekorsigin and kene kene are a few of the terms used in local African languages to denote a set of cultural practices collectively known as female circumcision Practiced in many countries across Africa and Asia this ritual is hotly debated Supporters regard it as a central coming of age ritual that ensures chastity and promotes fertility Human rights groups denounce the procedure as barbaric It is estimated that between 100 million and 130 million girls and women today have undergone forms of this genital surgery Female Circumcision gathers together African activists to examine the issue within its various cultural and historical contexts the debates on circumcision regarding African refugee and immigrant populations in the United States and the human rights efforts to eradicate the practice This work brings African women's voices into the discussion foregrounds indigenous processes of social and cultural change and demonstrates the manifold linkages between respect for women's bodily integrity the empowerment of women and democratic modes of economic development This volume does not focus narrowly on female circumcision as a set of ritualized surgeries sanctioned by society Instead the contributors explore a chain of connecting issues and processes through which the practice is being transformed in local and transnational contexts The authors document shifts in local views to highlight processes of change and chronicle the efforts of diverse communities as agents in the process of cultural and social transformation

The Female Circumcision Controversy Ellen Gruenbaum, 2015-03-17 To the Western eye there is something jarringly incongruous even shocking about the image of a six year old girl being held down by loving relatives so that her genitals can be cut Yet two million girls experience this each year Most Westerners upon learning of the practice of female circumcision have responded with outrage those committed to improving the status of women have gone beyond outrage to action by creating various programs for eradicating the practice But few understand the real life complexities families face in deciding whether to follow the traditional practices or to take the risk of change In The Female Circumcision Controversy Ellen Gruenbaum points out that Western outrage and Western efforts to stop genital mutilation often provoke a strong backlash from people in the countries where the practice is common She looks at the

validity of Western arguments against the practice In doing so she explores both outsider and insider perspectives on female circumcision concentrating particularly on the complex attitudes of the individuals and groups who practice it and on indigenous efforts to end it Gruenbaum finds that the criticisms of outsiders are frequently simplistic and fail to appreciate the diversity of cultural contexts the complex meanings and the conflicting responses to change Drawing on over five years of fieldwork in Sudan where the most severe forms of genital surgery are common Gruenbaum shows that the practices of female circumcision are deeply embedded in Sudanese cultural traditions in religious moral and aesthetic values and in ideas about class ethnicity and gender Her research illuminates both the resistance to and the acceptance of change She shows that change is occurring as the result of economic and social developments the influences of Islamic activists the work of Sudanese health educators and the efforts of educated African women That does not mean that there is no role for outsiders Gruenbaum asserts and she offers suggestions for those who wish to help facilitate change By presenting specific cultural contexts and human experiences with a deep knowledge of the tremendous variation of the practice and meaning of female circumcision Gruenbaum provides an insightful analysis of the process of changing this complex highly debated practice

The Munchausen Complex Richard L. Matteoli, 2011-03 First Conquer Thyself Socialization of violence and abuse is often highly structured through the Munchausen Complex Munchausen Syndrome occurs when an individual harms themselves for attention and self glorification Munchausen Syndrome by Proxy is when an individual harms another usually under their care Attention and self glorification are achieved through their victim's subsequent medical treatment Munchausen Syndrome by Proxy is a crime with a victim Violence and abuse are often common in families passed down from one generation to the next and may be termed Transgenerational Munchausen Syndrome as these families expand and their habits are introduced into society Munchausen Syndrome in Collective Transmission occurs when such practices become an acceptable part of society often eventuating into full acculturation In this way societies attach themselves to self glorification with various explanations of justification A Mandated Report is required to be filed by health care legal social service and educational professionals who suspect child abuse as well as developers of film As socialized beings we are often unaware why we think what we think and why we do what we do Exploring beneath the surface we may discover we are not who we imagine we are Are our subtle perversions and aberrations so different from those of the ancients or other cultures we label primitive The author was under military orders not to discuss the subjects presented in this part's Mandated Report on child abuse to the social body for the last six years of his U S Navy career Censorship is strong when one questions social norms folkways and rituals that address issues of identity Internal interpersonal and professional conflicts arise **Sex in the Ancient World from A to Z** John Younger, 2004-10-07 Comprehensive reliable and eye opening this A to Z examines the sexual practices expressions and attitudes of the Greeks and Romans from Catullus and Caligula to orgies and obscenity to pederasty and prostitution Male and Female Circumcision Sami A. Aldeeb Abu-Sahlieh, 2012-11-24 This book presents the

religious medical social and legal debate among Jews Christians and Muslims around male and female circumcision If female circumcision today is the subject of a national and international campaign to ban it male circumcision is accepted and few would dare criticize it It is estimated wrongly less serious than female circumcision or with health benefits The author criticizes this myth maintained by the United Nations and the World Health Organization He demonstrates that the distinction between male and female circumcision is illusory both being an unjustifiable flagrant violation of bodily integrity This distinction is the main reason for the failure of the campaign against female circumcision We cannot guarantee the right to physical integrity of the girl if we deny this right to his brother The Author Sami A Aldeeb Abu Sahlieh Christian of Palestinian origin Swiss citizen Doctor in law Habilitated to direct researches Professor of universities CNU France Responsible for Arab and Islamic Law at the Swiss Institute of Comparative Law 1980 2009 Visiting professor in different French Italian and Swiss universities Director of the Centre of Arab and Islamic Law Author of many books including a French English and Italian translation of the Koran From Abraham to America Eric Silverman, 2006-07-27 Silverman's new book is a comprehensive overview of Jewish circumcision throughout history Beginning with Genesis the author traces paradoxes and tensions in biblical Jewish circumcision as seen both within Judaism and from the dominant non Jewish culture Topics include rabbinic literature early Christianity Medieval notions of menstruating Jewish men and the blood libel the relic of Christ's foreskin modern notions of the Jewish body and Jewish manhood and the current debate over Jewish and routine medical circumcision in America Religion in Gender-Based Violence, Immigration, and Human Rights Mary Nyangweso, Jacob K. Olupona, 2019-07-23 This book builds on work that examines the interactions between immigration and gender based violence to explore how both the justification and condemnation of violence in the name of religion further complicates our societal relationships Violence has been described as a universal challenge that is rooted in the social formation process As humans seek to exert power on the other conflict occurs Gender based violence immigration and religious values have often intersected where patriarchy based power is exerted on the other An international panel of contributors take a multidisciplinary approach to investigating three central themes Firstly the intersection between religion immigration domestic violence and human rights Secondly the possibility of collaboration between various social units for the protection of immigrants human rights Finally the need to integrate faith based initiatives and religious leaders into efforts to transform attitude formation and general social behavior This is a wide ranging and multi layered examination of the role of religion in gender based violence and immigration As such it will be of keen interest to academics working in religious studies gender studies politics and ethics A Bibliography of Islamic Criminal Law, Supplement Olaf Köndgen, 2024-07-15 The present work supplements the original volume of A Bibliography of Islamic Criminal Law the most extensive bibliography on Islamic criminal law ever compiled Drawing on a multitude of sources online and offline this bibliography covers in its thematic section not only the classical crime categories of *ud d qi* and *ta z r* but also a large number of newly emerging and
