Abraham Shaul Bar, 2025-08-08 Was Abraham a real historical figure or is he a figment of the imagination a product of a literary tradition Abraham is not mentioned in any of the extra biblical documents from the third and second millennia BCE This led scholars to the conclusion that many details in the book

of Genesis are fiction that project later romantic ideals and faith. The stories describe an imaginary past that were created to fulfill political needs of a later period. Is there validity to these assertions or are these stories about Abraham firmly based in history? The author surveys epigraphic and archeological material that includes names of nations, people, sites as well as legal and social customs to find the historical and ethnic background of these stories. The study provides provocative and useful insights into the life and image of the patriarch Abraham and his period.
