Mystical Monotheism A Study In Ancient Platonic Theology:

Mystical Monotheism John Peter Kenney, 2010-12-01 In this engaging and provocative study John Peter Kenney examines the emergence of monotheism within Greco Roman philosophical theology by tracing the changing character of ancient realism from Plato through Plotinus Besides acknowledging the philosophical and theological significance of such ancient thinkers as Plutarch Numenius Alcinoos and Atticus he demonstrates the central importance of Plotinus in clarifying the relation of the intelligible world to divinity Kenney focuses especially on Plotinus's novel concept of deity arguing that it constitutes a type of mystical monotheism based upon an ultimate and inclusive divine One beyond description or discursive knowledge Presenting difficult material with grace and clarity Kenney takes a wide ranging view of the development of ancient Platonic theology from a philosophical perspective and synthesizes familiar elements in a new way His is a revisionist thesis with significant implications for the study of Greco Roman Jewish and Christian thought in this period and for the history of Western religious thought in general

A Platonic Philosophy of Religion Daniel A. Dombrowski, 2012-02-01 A Platonic Philosophy of Religion challenges traditional views of Plato's religious thought arguing that these overstate the case for the veneration of Being as opposed to Becoming Daniel A Dombrowski explores how process or neoclassical perspectives on Plato's view of God have been mostly neglected impoverishing both our view of Plato and our view of what can be said in contemporary philosophy of religion on a Platonic basis Looking at the largely ignored later dialogues Dombrowski finds a dynamic theism in Plato and presents a new and very different Platonic philosophy of religion The work's interpretive framework derives from the application of process philosophy and discusses the continuation of Plato's thought in the works of Hartshorne and Whitehead

Hunter, Jonathan P. Yates, 2021-11-23 An indispensable resource for those looking to understand Augustine's place in religious and cultural heritage Augustine towers over Western life literature and culture both sacred and secular His ideas permeate conceptions of the self from birth to death and have cast a long shadow over subsequent Christian thought But as much as tradition has sprung from Augustinian roots so was Augustine a product of and interlocutor with traditions that preceded and ran contemporary to his life This extensive volume examines and evaluates Augustine as both a receiver and a source of tradition The contributors all distinguished Augustinian scholars influenced by J Patout Burns and interested in furthering his intellectual legacy survey Augustine's life and writings in the context of North African tradition philosophical and literary traditions of antiquity the Greek patristic tradition and the tradition of Augustine's Latin contemporaries These various pieces when assembled tell a comprehensive story of Augustine's significance both then and now Contributors Alden Bass Michael Cameron John C Cavadini Thomas Clemmons Stephen A Cooper Theodore de Bruyn Mark DelCogliano Geoffrey D Dunn John Peter Kenney Brian Matz Andrew McGowan William Tabbernee Joseph W Trigg Dennis Trout and James R Wetzl Proceedings of the Boston Area Colloquium in Ancient Philosophy, Volume 22 Volume XXII (2006) John Joseph Cleary, G. M. S. J. Gurtler, 2007 This volume contains papers originally presented to the Boston Area Colloquium in Ancient Philosophy during 2005 6 Of the seven colloquia two deal with topics in Neoplatonism four are dedicated to Aristotle's ethics and metaphysics and one to Plato's Republic *Philo's Influence on Valentinian Tradition* Risto Auvinen, 2024-07-05 In this book Risto Auvinen reevaluates the relationship between the exegetical and philosophical traditions found in the works of Philo and those of the Valentinian gnostic tradition with a particular focus on the latter half of the second century Valentinianism's formative years Texts examined include fragments of Valentinus Heracleon and Ptolemy's Letter to Flora in addition to the Valentinian source included in the Excerpta ex Theodoto by Clement of Alexandria and related sections in Irenaeus's Adversus haereses Auvinen asserts that the number of parallels with Philo in the Valentinian sources increases the likelihood that there was a historical relationship between Philo's writings and

Valentinian teachers These connections expand our knowledge not only of the preservation and circulation of Philo's texts in the latter part of the second century but also of the importance of the allegorical traditions of Hellenistic Judaism on Valentinus's school of thought and on Gnosticism more broadly

Words Ernst van den Hemel, Asja Szafraniec, 2016-06-15 A wide ranging anthology of essays that examine the uses purposes and influence of religious language It is said that words are like people One can encounter them daily yet never come to know their true selves This volume examines what words are how they exist in religious phenomena Going beyond the common idea that language merely describes states of mind beliefs and intentions the book looks at words in their performative and material specificity The contributions in this volume examine and employ a number of linguistic and semiotic ideologies They develop the insight that our implicit assumptions about language guide the way we understand and experience religious phenomena They also explore the possibility that insights about the particular status of religious utterances may in turn influence the way we think about words in our language

Richard Hooker Paul Anthony Dominiak, 2019-12-12 Richard Hooker's *Of the Laws of Ecclesiastical Polity* has long been acknowledged as an influential philosophical theological and literary text While scholars have commonly noted the presence of participatory language in selected passages of Hooker's *Laws* Paul Anthony Dominiak is the first to trace how participation lends a sense of system and coherency across the whole work Dominiak analyses how Hooker uses an architectural framework of participation in God to build a cohesive vision of the Elizabethan Church as the most fitting way to reconcile and lead English believers to the shared participation of God First exploring Hooker's metaphysical architecture of participation in his accounts of law and the sacraments Dominiak then traces how this architecture structures cognitive participation in God as well as Hooker's political vision of the Church and Commonwealth The volume culminates with a summary of how Hooker provides a salutary resource for modern ecumenical dialogue and contemporary political retrievals of participation

A Companion to Augustine Mark Vessey, 2015-05-26 *A Companion to Augustine* presents a fresh collection of scholarship by leading academics with a new approach to contextualizing Augustine and his works within the multi disciplinary field of Late Antiquity showing Augustine as both a product of the cultural forces of his times and a cultural force in his own right Discusses the life and works of Augustine within their full historical context rather than privileging the theological context Presents Augustine's life works and leading ideas in the cultural context of the late Roman world providing a vibrant and engaging sense of Augustine in action in his own time and place Opens up a new phase of study on Augustine sensitive to the many and varied perspectives of scholarship on late Roman culture State of the art essays by leading academics in this field

Reading Plotinus Kevin Corrigan, 2005 Plotinus was one of the most influential philosophers of the early Christian world whose life was dedicated to the care of others and whose extensive treatises were recorded and preserved by his pupil and colleague Porphyry This book provides a guide to reading and understanding Plotinus and covers many of the topics that he contemplated

The Mysticism of Saint Augustine John Peter

Kenney,2005-09-19 Augustine's vision at Ostia is one of the most influential accounts of mystical experience in the Western tradition and a subject of persistent interest to Christians philosophers and historians This book explores Augustine's account of his experience as set down in the Confessions and considers his mysticism in relation to his classical Platonist philosophy John Peter Kenney argues that while the Christian contemplative mysticism created by Augustine is in many ways founded on Platonic thought Platonism ultimately fails Augustine in that it cannot retain the truths that it anticipates The Confessions offer a response to this impasse by generating two critical ideas in medieval and modern religious thought firstly the conception of contemplation as a purely epistemic event in contrast to classical Platonism secondly the tenet that salvation is absolutely distinct from enlightenment Creation and Contingency in Early Patristic Thought Joseph Torchia,

OP,2019-04-10 Creation and Contingency in Early Patristic Thought The Beginning of All Things explores the interface between philosophy and theology in the development of the seminal Christian doctrine of creation ex nihilo While its main focus lies in an analysis of first to third century patristic accounts of creation it is likewise attuned to their parallelism with Middle Platonic commentaries on Plato's theory of cosmological origins in the Timaeus Just as Christian thinkers sounded out the theological implications of Gn 1 1-2 the successors to Plato's Academy debated the significance of his teaching Tim 28b that the world came to be The fact that both Genesis and the Timaeus address the beginning of all things served as a means of bridging the conceptual gap between the Greek philosophical tradition and a Christian perspective rooted in scriptural teaching Plato's Timaeus and the doxographies it inspired thus provided early Fathers of the Church with the dialectical resources for explicating their distinctive understanding of creation as a bringing into being from nothing **Prayer after**

Augustine Jonathan D. Teubner,2018-01-05 The influence of the theology and philosophy of Augustine of Hippo on subsequent Western thought and culture is undisputed Prayer after Augustine A Study in the Development of the Latin Tradition argues that the notion of the Augustinian tradition needs to be re thought and that already in the generation after Augustine in the West such a re thinking is already and richly manifest in more than one influential form In this work Jonathan D Teubner encourages philosophical moral and historical theologians to think about what it might mean that the Augustinian tradition formed in a distinctively Augustinian fashion and considers how this affects how they use discuss and evaluate Augustine in their work This is exemplified by Augustine's reflections on prayer and how they were taken up modified and handed on by Boethius and Benedict two critically influential figures for the development of Latin medieval philosophical and theological cultures Teubner analyses and exemplifies the particular theme of prayer and the other topics it constellates in Augustine and to show how it already forms a distinctively Augustinian concept of tradition that was to prove to have fascinatingly diverse manifestations Part I traces the development of Augustine's understanding of prayer Patience and hope as articulated in prayer sit at the centre of Augustine's understanding of Christian existence In Part II Teubner turns to suggest how this is picked up by Boethius and Benedict *Gregory of Nyssa: Contra Eunomium III.
