Meyer, 2015-03-13 Meyer pioneers a uniquely political approach to environmental social criticism that follows from a startling central proposition that it is not outright oppression and denialism that are the most significant impediments but what he aptly terms the resonance dilemma This is the failure of climate and environmental challenges however important we may grant that they are to strike us as integral everyday concerns This lively eloquent accessible volume models the very style of social criticism that it calls for in response to this dilemma a resonant environmental criticism that works on rather than against everyday practices Lisa Disch Department of Political Science University of Michigan Ann Arbor author of Hannah Arendt and the Limits of Philosophy

Religion and Racial Capitalism Grace Tien, María Eugenia Funes, 2025-10-19 Much of the discourse around diversity equity and inclusion have encountered two blind spots First discourse in the academy and beyond have prioritized the intersectionality of race and gender but neglected the intersectionality of race and class Secondly the resurgence and now backlash to diversity equity and inclusion have largely benefited cultural and economic elites on the political left and left behind the working class This book suggests that the framework of racial capitalism can help bring attention to these gaps in part due to renewed scholarly interest in racial capitalism across academic disciplines This edited volume is largely motivated by the above gaps in academic and mainstream discourse and makes two primary contributions first we examine the unique intersection of religion and racial capitalism and second we analyze case studies of racial capitalism in country contexts outside of the U S drawing on case studies from North America South America Europe and Asia Scholars particularly historians have largely examined racial capitalism in the U S context Studies in this edited volume highlight how the challenges and manifestations of racial capitalism or the complex intertwined relationship between racial and economic inequality are not particular to America and the West Part I of the book investigates the past or origin

stories of religion and racial capitalism Part II the present underscores contemporary empirical studies of religion and racial capitalism like how religious institutions have reinforced justified or even promoted racial and economic injustices Lastly Part III future presents ways forward or potential interventions in response to religion and racial capitalism **Toward the**

Reform of Private Waqfs Hamid Harasani, 2015-10-05 Using a combination of the comparative legal method and hermeneutics this book reconciles Islamic law with English trust s law in these two main areas It does not find it necessary for one legal system to reign supreme over the other as such solutions will be questioned by the internal subjects of the dominated legal system undermining the efficacy of this study Rather reconciliation is a mutual step to congruence taken by both legal systems In the area of perpetuities the book finds that neither Islamic Waqfs must be perpetual nor common law trusts must have a rule against perpetuities Regarding ownership theories the multiplicity of rendered theories in both legal systems presents more than one avenue of reconciliation Overall the study finds that private Waqfs and private trusts can be reconciled without undermining the internal hermeneutic standpoints of both legal systems Towards a Four-Tiered Model

of Mediation Hugo Luz dos Santos, 2023-02-13 Underpinned by a hybrid methodology ranging from social sciences to human sciences this book parses mediation in four perspectives which stands as an unparalleled methodological approach so far Mediation has long been tethered to piecemeal and haphazard approaches which have flatly failed to capture the gist of the uniqueness of this often poorly latched on and poorly understood dispute resolution mechanism This book argues that in order to fully grasp the richness of such dispute resolution mechanism mediation must be parsed in four tiers The first tier is the social dynamics of mediation The second tier is the cultural dynamics of mediation The third tier is the legal dynamics of mediation The fourth tier is the cross border and cross cultural dynamics of mediation Taken together the four tiers that premise the four tiered model of mediation seek to unlock the finding in view of which law and social reality are tightly interlocked In this vein it is the underlying social reality of a given jurisdiction that should dictate the design of a pre suit court connected mandatory mediation with an easy opt out a central claim of both social dynamics of mediation the first tier of the four tiered model of mediation and legal dynamics of mediation the third tier of the four tiered model of mediation

Gaisbauer,Gottfried Schweiger,Clemens Sedmak,2015-01-20 This volume presents philosophical contributions examining questions of the grounding and justification of taxation and different types of taxes such as inheritance wealth consumption or income tax in relation to justice and the concept of a just society The chapters cover the different levels at which the discussion on taxation and justice takes place On the principal level chapters investigate the justification and grounding of taxation as such and the role taxation plays and should play in the design of justice be it for a just society or a just world order On a more concrete level chapters present discussions of these general reflections in more depth and examine different types of taxation tax systems and their design and implementation On an applied level chapters discuss certain specific taxes such as wealth and inheritance taxes and examine whether or not a certain tax should be favored and for what reasons as well as why it is just to target certain kinds of assets or income Finally this volume contains chapters that discuss the central issue of international and global taxation and their relation to global justice **The Problem of Property** Karl Widerquist,2023-01-01 This book is Karl Widerquist s first statement of the indepentarian theory of property called Justice as the Pursuit of Accord JPA It argues the natural rights based arguments for unequal private property have failed to establish that institution as right It is a legal privilege inconsistent with the maximum equal freedom

from interference The book discusses how to establish and maintain a property system that best promotes freedom from interference Paying taxes and obeying regulations is part of the purchase price of the right to control use or use up any good made partly out of natural resources i e all goods because doing so interferes with people who control use or use up fewer natural resources A sufficient portion of that tax revenue has to be redistributed in the form of a Universal Basic Income to ensure the property system is in the interest of everyone

Actual Ethics James R. Otteson, 2006-06-19 Actual Ethics offers a moral defense of the classical liberal political tradition and applies it to several of today's vexing moral and political issues James Otteson argues that a Kantian conception of personhood and an Aristotelian conception of judgment are compatible and even complementary He shows why they are morally attractive and perhaps most controversially when combined they imply a limited classical liberal political state Otteson then addresses several contemporary problems wealth and poverty public education animal welfare and affirmative action and shows how each can be plausibly addressed within the Kantian Aristotelian and classical liberal framework Written in clear engaging and jargon free prose Actual Ethics will give students and general audiences an overview of a powerful and rich moral and political tradition that they might not otherwise consider

Neoliberalism and the Biblical Voice Paul Babie, Michael Trainor, 2017-11-28 This book compares our contemporary preoccupation with ownership and consumption with the role of property and possessions in the biblical world contending that Christian theology provides a valuable entry point to discussing the issue of private property a neoliberal tool with the capacity to shape the world in which we live by exercising control over the planet's resources Babie and Trainor draw on the teaching on property and possessions of Jesus of Nazareth They demonstrate how subsequent members of the Jesus movement the writers of early collection of Jesus sayings called Q and the gospels of Mark and Luke reformulated Jesus teaching for different contexts that was radical and challenging for their own day Their view of wealth and possessions continues today to be as relevant as ever By placing the insights of the Galilean Jesus and the early Jesus movement into conversation with contemporary views on private property and consumer culture the authors develop legal philosophical and theological insights what they describe as seven theses into how our desire for ethical living fares in the neoliberal marketplace

Privacy and Capitalism in the Age of Social Media Sebastian

Sevignani,2015-08-27 This book explores commodification processes of personal data and provides a critical framing of the ongoing debate of privacy in the Internet age using the example of social media and referring to interviews with users It advocates and expands upon two main theses First people s privacy is structurally invaded in contemporary informational capitalism Second the best response to this problem is not accomplished by invoking the privacy framework as it stands because it is itself part of the problematic nexus that it struggles against Informational capitalism poses weighty problems for making the Internet a truly social medium and aspiring to sustainable privacy simultaneously means to struggle against alienation and exploitation In the last instance this means opposing the capitalist form of association online and offline
