The Human Geography of East Central Europe David Turnock, 2003-10-04 This book examines the geography of the transition economies that were not formerly part of the Soviet Union The main themes of the transition from communism to market capitalism are outlined and variations discussed A Clash of Transitions Olga Strietska-Ilina, 2007 In March 2000 at the European Council meeting in Lisbon the European Union heads of states set an ambitious goal to become the most competitive and dynamic knowledge based economy in the world Such a goal requires major reforms of the societies and economies of the EU member states This book explores the effects of these reforms on the eight Central and Eastern European countries that entered the EU in May 2004 Since 1989 these countries have been going through a major transformation to the market economy and democratic society A Clash of Transitions attempts to answer how the societies and people can cope with multiple transitions This volume is useful for courses on education Central and Eastern Europe and European studies *Routledge Handbook of European Politics* José Magone, 2014-12-17 Since the Treaty of the European Union was ratified in 1993 the European Union has become an important factor in an ever increasing number of regimes of pooled sovereignty This Handbook seeks to present a valuable guide to this new and unique system in the twenty first century allowing readers to obtain a better understanding of the emerging multilevel European governance system that links national politics to Europe and the global community Adopting a pan European approach this Handbook brings together the work of leading international academics to cover a wide range of topics such as the historical and theoretical background the political systems and institutions of both the EU and its individual member nations political parties and party systems political elites civil society and social movements in European politics the political economy of Europe public administration and policy making external policies of the EU This is an invaluable and comprehensive resource for students scholars researchers and practitioners of the European Union European politics and comparative politics **The Future of Germany and the Atlantic Alliance (Aei Studies)** Constantine C. of Germany's commitment to the NATO alliance and speculates on what the role of a neutral Germany might be especially regarding Germany's relationship with the Soviet Union. Policies of Central and Eastern European States Ondřej Horký-Hlucháň, Simon Lightfoot, 2013-09-13 The states from Central and Eastern Europe that joined the EU in 2004 and 2007 provide a fascinating series of case studies for scholars interested in politics, IR and development studies. The interest comes from the fact that never before had so many recipients of EU aid joined the Union and taken on the commitment to become aid donors. The journey from recipients of aid to aid donors is interesting because not only does it tell us about development policy in CEE states, this policy area gives us an insight into governmental structures in CEE states, foreign policy priorities, public opinion, the role of NGOs, civil society and how well CEE states have taken on board the EU acquis, the EU's rule book. The book also explores whether the development cooperation programmes of the majority of CEEs reflect the so-called transition experience of moving from authoritarianism and socialism to democracy and modern liberalism. It also explores the extent to which these donors are aligned with the approaches of the DAC donors. Finally, by extending the scrutiny to the bottom-up development activities of non-state actors and public opinion, the book will analyse the dynamics of the solidarity of the former East with the global South. This book was published as a special issue of *Perspectives on European Politics and Society*. **Developments in Central and East**

European Politics 2 Stephen White, Judy Batt, Paul G. Lewis, 1998 Emerging Market Multinationals in Europe Louis Brennan, Caner Bakir, 2016-06-17 This book makes a timely and highly stimulating contribution to the discourse on emerging market multinationals (EMNCs) as Foreign Direct Investment (FDI) in Europe from emerging countries, especially from the BRICs. Brazil, Russia, India, China continues to grow in significance. Unsurprisingly, the emergence of EMNCs from emerging economies raises a wide range of challenges and opportunities for scholars, business professionals and policymakers alike. While explaining the sudden rise of these companies has become a major concern among scholars, we have very limited knowledge on drivers, motivations, strategies and impact of these EMNCs in Europe and their policy implications. This volume provides fresh insights into EMNCs' activities and their impact in Europe. The contributors argue that EMNCs combine various country-specific advantages, existing firm-specific advantages, exploitation and/or new FSAs, exploration in their FDI and that there is considerable heterogeneity across EMNCs, even those from the same southern economy. Highlighting the importance of considering this divergent behaviour when implementing future European FDI policies, this book will be of interest to students and scholars of European Politics, International Political Economy, International Business and European Integration. Eastern Europe Martin J. Bull, Mike Ingham, 2016-07-27 This book analyzes the reform of the socialist system in Central and Eastern Europe and the former Soviet Union. Uniquely, it adopts a multi-disciplinary perspective which includes authors from

both Western Europe and the former Communist world The volume contains analyses of the prospects for civil society economic reform and privatisation theories of economic transition and the role of the state political change and the persistence of former Communist parties the prospects for democracy in the former Soviet Union and gender aspects of labour market reform

Foreign Direct Investment and Regional Development in East Central Europe and the Former Soviet Union David Turnock, 2017-11-28 With the achievement of further EU and NATO enlargement a critical political and economic lens is now focused on East Central Europe and to a lesser extent the other former communist states Economic growth in each transition state and more broadly the region pivots around the prospects for foreign direct investment FDI with decisions on where foreign investors will locate their projects now vitally important This book the first one devoted to a geographical survey concentrating specifically on FDI in the region brings together a wide range of prominent authors from the US and Europe including the late Frank Carter to provide a timely and critical examination of the importance of foreign investment It presents a detailed analysis of location patterns and their significance for regional development with particular emphasis given to the important socioeconomic and political consequences of uneven distribution of FDI across the region and its constituent countries Divided into two parts the book first deals with general overarching themes and issues before applying these to more specific country case studies The second part deals with regional studies focusing broadly on the Western Balkans and Bulgaria before looking at specific economic sectors in individual countries

Governing the New Europe Jack Ernest Shalom Hayward, Edward Page, 1995 Governing the New Europe provides a comprehensive and scholarly account of the changing political map of Europe as it emerges from the Cold War Exploring the variations of liberal democracy and market economy among the European states as well as current trends in these directions the contributors to this volume all leading authorities in European politics consider whether a common political model has begun to emerge out of historic European diversity Beginning with a discussion of the political economic and cultural development of Europe from a historical perspective the focus of the book shifts to an examination of the changing forms of European democracy and the move from public ownership and planning to privatization and deregulated competition Further essays analyze the challenge to national party systems and electoral performance from emerging social movements and organized interest groups Political and bureaucratic structures are also examined as is the new European constitutionalism reflected in the increasingly significant role of the judiciary Lastly attention is turned to several major themes in European politics the changing foundations of foreign and security policy the function of industrial champion firms and the retreat from the welfare state Primarily

comparative in its scope Governing the New Europe does devote particular attention to specific major states as well as to the importance of the European Union to the political life of member and non member countries Neither exaggerating the common features of the patterns that have emerged in contemporary Europe nor capitulating to the complexity of enduring differences and instabilities between states Governing the New Europe will become one of the standard texts in its field Contributors Jack Hayward Jolyon Howorth Herbert Kitschelt Marie Lavigne Tom Mackie Michael Mezey Edward C Page Richard Parry Richard Rose Anthony Smith Alec Stone

Models of Capitalism in the European Union Beáta Farkas, 2016-09-07 This book uses comparative economic analysis to provide a common conceptual framework for all current European Union member states Based on empirical investigation the author identifies the Nordic North western Mediterranean and Central and Eastern models of capitalism on the threshold of the 2008 global financial and economic crisis The chapters also examine the resulting institutional responses to the crisis and the methods of crisis management adopted by each member state The analysis reveals that the crisis has not triggered radical institutional change but instead highlighted deep institutional differences not between the old and new member states but between the Nordic North western Mediterranean and Central and Eastern European countries These institutional differences are so significant that they require the rethinking of European integration theory Models of Capitalism in the European Union serves as a useful handbook for academics advanced students policy makers and advisors who are interested in European economic issues
