Tracing Your Irish Ancestors John Grenham, 2006 *New Brunswick, New Jersey* David Listokin, Dorothea Berkhout, James W. Hughes, 2016-06-14 While many older American cities struggle to remain vibrant, New Brunswick has transformed itself, adapting to new forms of commerce and a changing population and enjoying a renaissance that has led many experts to cite this New Jersey city as a model for urban redevelopment. Featuring more than 100 remarkable photographs and many maps, *New Brunswick, New Jersey* explores the history of the city since the seventeenth century with an emphasis on the dramatic changes of the past few decades. Using oral histories, archival materials, census data, and surveys, authors David Listokin, Dorothea Berkhout, and James W. Hughes illuminate the decision-making and planning process that led to New Brunswick's dramatic revitalization, describing the major redevelopment projects that demonstrate the city's success in capitalizing on funding opportunities. These projects include the momentous decision of Johnson & Johnson to build its world headquarters in the city, the growth of a theater district, the expansion of Rutgers University into the downtown area, and the destruction and rebuilding of public housing. But while the authors highlight the positive effects of the transformation, they also explore the often-heated controversies about demolishing older neighborhoods and ask whether new building benefits residents. Shining a light on both the successes and failures in downtown revitalization, they underscore the lessons to be learned for national urban policy, highlighting the value of partnerships, unwavering commitment, and local leadership. Today
