Production Relations Clab And Black Liberation A Marxist Perspective In Afroamerican Studies:

Production Relations, Class and Black Liberation Clarence J. Munford, 1978-01-01 *The Politics of Black Empowerment* James Jennings, 2000-01-08 *The Politics of Black Empowerment* uses the experiences of grassroots activists to develop various conceptualizations and explanations of Black political behavior today In analyzing Black politics since the late 1960s James Jennings focuses on both the behavioral aspects such as individual and group characteristics of voting and nonvoting and elections as well as more fundamental philosophical and cultural questions regarding Black politics This study examines how the traditional face of Black politics and electoral activism interacts with a growing progressive face of Black politics While traditional Black political activists seek access or political incorporation another group aims for power sharing The traditional approach is sometimes satisfied with merely replacing white politicians with Blacks but the progressive constituency focuses on fundamentally changing the whole economic and political pie Activists desirous of Black empowerment are pursuing a political and economic orientation that goes beyond programs based on access to American institutional arrangements and attempting to change or alter given political arrangements and social relations between Blacks and whites on the basis of changing the social structure and the distribution of wealth and power Based on interviews with Black and Latino activists in several big cities as well as on a review of the literature and the Black newspapers around the country *The Politics of Black Empowerment* describes the characteristics of Black empowerment activism in America

Philosophy of African American Studies Stephen Ferguson, 2015-09-16 In this ground breaking book Stephen C Ferguson addresses a seminal question that is too often ignored What should be the philosophical basis for African American studies The volume explores philosophical issues and problems in their relationship to Black studies Ferguson shows that philosophy is not a sterile intellectual pursuit but a critical tool to gathering knowledge about the Black experience Cultural idealism in various forms has become enormously influential as a framework for Black studies Ferguson takes on the task of demonstrating how a Marxist philosophical perspective offers a productive and fruitful way of overcoming the limitations of idealism Focusing on the hugely popular Afrocentric school of thought this book s engaging discussion shows that the foundational arguments of cultural idealism are based on a series of analytical and historical misapprehensions In turn

Ferguson argues for the centrality of the Black working class both men and women to Black Studies **International Books in Print**, 1990 **Bulletin of the Atomic Scientists**, 1969-02 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world *Sociological Abstracts* Leo P. Chall, 1998 **Choice**, 1978 *The Standard Periodical Directory*, 1993 *Revolutionary Integration* Richard S. Fraser, Tom Boot, 2004 A Marxist study of the civil rights and Black Power movements which examines the nature of racism and the impact of African American radicals feminists and lesbians and gays Critiques the nationalist assumptions of many

Left groups and puts forward an analysis that identifies racism as a distinct form of oppression that is intrinsic to capitalism

the Black Radical Tradition and the Valueform Shemon Salam, 2023-01-09 *Limits of the Black Radical Tradition and the Value*
form develops an immanent critique of the Black Radical Tradition to show the boundaries of its own categories history and
 epistemologies *Limits* argues that the Black Radical Tradition developed in the national context of completing Reconstruction
 and the international context of colonialism decolonization resulting in a particular form and content of the tradition This
 process constituted the tradition and subsequently the tradition is still working with the older set of tools that struggle to
 grapple with Afro Pessimism Indigeneity racial capitalism and even the George Floyd Uprising *Limits* carefully reformulates
 the tradition so it can once again play a leading role in revolutionary struggles *Limits* offers a critique of value form theory
 while still arguing that value form theory is the direction that Black Marxism must head if it is to stay relevant to
 revolutionary struggles decolonization and the fight against anti Blackness The Black Radical Tradition demonstrates that
 value form theory has a narrow understanding of class politics reduces history to the struggle of factory workers and is
 ultimately Euro centric The Black Radical Tradition can re orient value form theory to account for race geo politics and other
 forms of oppression which are not reducible to an economic accounting Class, Race, and Black Liberation Henry
