Global and Multinational Advertising Basil G. Englis, 2013-11-19 Few applied disciplines are more sensitive to cross cultural issues than marketing and consumer psychology The chapters prepared for this volume reflect awareness of both similarities and differences within and across cultures They include analyses of methodological issues theoretical investigations of cultural and social values and their implications for marketing specialists studies of gender and sub culture specific advertising and investigations of advertising efforts in several different international markets The scholars and advertising professionals who contributed these chapters will have much to say to consumer psychologists and marketing specialists alike

The Psychology of Black Boys and Adolescents Kirkland C. Vaughans, Warren Spielberg, 2014-06-30 Drawing on personal insights and research based knowledge this important work facilitates understanding of the psychological struggles of young African American males and offers ameliorative strategies Despite examples set by successful black men in all walks of life the truth remains that a disproportionate number of black boys and young men underperform at school suffer from PTSD and too often find themselves on a pathway to jail The two volume The Psychology of Black Boys and Adolescents marks the first attempt to catalog the many psychological influences that can stack the deck against black male children and to suggest interventions Bringing together an expansive collection of new and classic research from a wide variety of disciplines this set sheds light on the complex circumstances faced by young black men in the United States Contributions by authors Kirkland Vaughans and Warren Spielberg contain insights from the groundbreaking Brotherman study conducted over a ten year period to report on the lives and psychological challenges of over a hundred African American boys and their families Among the myriad issues studied in this set are the often negative expectations of society the influence of gangs and the impact of racism and poverty Of equal importance the work explores culturally specific ways to engage families youths communities and policymakers in the development of healthy safe educated boys who will become whole and successful adults

African American Psychology A. Kathleen Hoard Burlew, 1992-09-04 In an effort to help develop an approach to psychology that is consistent with the African American experience African American Psychology provides a comprehensive overview of African American behavior and personality This collection of classical papers drawn from The Journal of Black Psychology points out that a Eurocentric perspective or orientation is inherent not only in most psychological theory but also in the research methods developed to test psychological theories As such those who try to understand the African American experience must not limit themselves to traditional concepts or research methods The five sections of this volume cover both alternative and theoretical perspectives and new approaches to conducting research the diversity of structure in African American families and the forces affecting them African American children and two controversial but critical areas of study intelligence and cognition

Recognizing the

Psychological and Cultural Strengths of Black Americans Robert T. Carter, 2024-09-20 This book examines the cultural beliefs and practices of Black folks in relation to psychological strength Divided into four parts the book begins with a discussion on the history of African civilizations including an analysis of faiths architecture and cultural diversity of the continent followed by a meaningful dialogue on the history of slavery and plantations in North America The later sections are a study on the contribution of the African American community towards America s prosperity The book explores cultural values as a source of power and uses historical social and psychological research to construct a framework of Black cultural values and psychological resolve The author offers practical applications and interventions to demonstrate how this framework can be applied to training and policy matters on both individual and systemic levels Recognizing the Psychological and Cultural Strengths of Black Americans is essential reading for students and academics in the fields of Psychology Sociology Critical Race Theory Political Science and other related disciplines It will also be a useful resource for professionals including policy makers psychologist counsellors educators and social workers

Handbook of the Sociology of Mental Health Carol S. Aneshensel, Jo C. Phelan, 2006-11-22 Within American society mental disorder is commonly understood as an attribute of the individual This intuitive understanding reflects the experiential reality that it is individuals who are beset by feelings of fear and despair confused by intrusive or jumbled thoughts addicted to drugs and so forth In this regard everyday thinking is consistent with contemporary psychiatry which also individualizes pathology increasingly in biological terms The contributors to this handbook collectively articulate an alternative vision one in which the individual experience of psychopathology is inextricably embedded within its social context This theme the interface between society and the inward experience of its constituents is developed here in a more encompassing manner than has been previously undertaken Although this perspective may seem self evident especially in a handbook on the sociology of mental health the widespread adoption of a medical model of aberrant states especially by sociologists has we submit obscured the relevance of social organization and processes

Introduction to African American Studies Talmadge Anderson, James Benjamin Stewart, 2007 There is an ongoing debate as to whether African American Studies is a discipline or multidisciplinary or interdisciplinary field Some scholars assert that African American Studies use a well defined common approach in examining history politics and the family in the same way as scholars in the disciplines of economics

sociology and political science Other scholars consider African American Studies multidisciplinary a field somewhat comparable to the field of education in which scholars employ a variety of disciplinary lenses be they anthropological psychological historical etc to study the African world experience In this model the boundaries between traditional disciplines are accepted and researches in African American Studies simply conduct discipline based an analysis of particular topics Finally another group of scholars insists that African American Studies is interdisciplinary an enterprise that generates distinctive analyses by combining perspectives from d

In and Out of Our Right Minds Diane Brown,Verna Keith,2003-10-01 African American women have commonly been portrayed as pillars of their communities resilient mothers sisters wives and grandmothers who remain steadfast in the face of all adversities While these portrayals imply that African American women have few psychological problems the scientific literature and demographic data present a different picture They reveal that African American women are at increased risk for psychological distress because of factors that disproportionately affect them including lower incomes greater poverty and unemployment unmarried motherhood racism and poor physical health Yet at the same time rates of mental illness are low This invaluable book is the first comprehensive examination of the contradictions between the strengths and vulnerabilities of this population Using the contexts of race gender and social class In and Out of Our Right Minds challenges the traditional notions of mental health and mental illness as they apply to African American women
