Thomas Jr., 2017-05-25 Recipient of the 2018 Special Achievement Award from the Mississippi Institute of Arts and Letters and Recipient of a 2018 Heritage Award for Education from the Mississippi Heritage Trust The perfect book for every Mississippian who cares about the state this is a mammoth collaboration in which thirty subject editors suggested topics over seven hundred scholars wrote entries and countless individuals made suggestions The volume will appeal to anyone who wants to know more about Mississippi and the people who call it home The book will be especially helpful to students teachers and scholars researching writing about or otherwise discovering the state past and present The volume contains entries on every county every governor and numerous musicians writers artists and activists Each entry provides an authoritative but accessible introduction to the topic discussed The Mississippi Encyclopedia also features long essays on agriculture archaeology the civil rights movement the Civil War drama education the environment ethnicity fiction folklife foodways geography industry and industrial workers law medicine music myths and representations Native Americans nonfiction poetry politics and government the press religion social and economic history sports and visual art It includes solid clear information in a single volume offering with clarity and scholarship a breadth of topics unavailable anywhere else This book also includes many surprises readers can only find by browsing **A New Plantation South** Jeannie M. Whayne, 1996 Whayne also offers an analysis of the forces at work on the local level She suggests that concerted opposition to modernization existed even before New Deal programs gave power to the planters in the 1930s She also demonstrates that the Arkansas delta experienced many of the same conflicts based on social class and racial caste that were evident in former slaveholding areas *Catalog of Copyright Entries. Third Series* Library of Congress. Copyright Office, 1975 *Rural Worlds Lost* Jack Temple Kirby, 1986-12-01 Immediately following the Civil War and for many years thereafter southerners proclaimed a New South implying not only the end of slavery but also the beginning of a new era of growth industrialization and prosperity Time has shown that those declarations at least in terms of progress and prosperity were premature by several decades Life for an Alabama tenant farmer in 1920 did not differ significantly from the life his grandfather led fifty years earlier In fact the South remained primarily a land of poor farming folks until the 1940s Only then and after World War II did the real New South of industrial growth and urban development begin to emerge Jack Temple Kirby's massive and engaging study examines the rural southern world of the first half of this century its collapse and the resulting modernization of southern society The American South was the last region of the Western world to undergo this process and *Rural Worlds Lost* is the first book to so thoroughly assess the profound changes modernization has wrought Kirby painstakingly charts the structural changes in agriculture that have occurred in the South and the effects these

changes have had on people both at work and in the community He is quick to note that there is not just one South but many emphasizing the South's diversity not only in terms of race but also in terms of crop type and topography and the resultant cultural differences of various areas of the region He also skillfully compares southern life and institutions with those in other parts of the country noting discrepancies and similarities Perhaps even more significant however is Kirby's focus on the lives and communities of ordinary people and how they have been transformed by the effects of modernization By using the oral histories collected by WPA interviewers Kirby shows firsthand how rural southerners lived in the 1930s and what forces shaped their views on life He assesses the impact of cash upon traditional rural economies the revolutionary effects of New Deal programs on the rich and poor and the forms and cultural results of migration Kirby also treats home life recording attitudes toward marriage and sex health maintenance and class relationships not to mention sports and leisure moonshining and the southerner's longstanding love hate relationship with the mule Rural Worlds Lost based on exceptionally extensive research in archives throughout the South and in federal agricultural censuses definitively charts the enormous changes that have taken place in the South in this century Writing about Kirby's previous book Media Made Dixie Time Magazine noted Kirby's scholarship of rare lucidity That same high level of scholarship as well as an undeniable affection for the region is abundantly evident in this new path breaking book

Trouble in Goshen Fred C. Smith, 2014-03-06 The Great Depression emboldened Americans to tolerate radical experimentation in search of solutions to seemingly overwhelming economic problems Amongst the thorniest of those was rural southern poverty In Trouble in Goshen Fred C Smith focuses on three communities designed and implemented to meet that challenge This book examines the economic and social theories and their histories that resulted in the creation and operation of the most aggressive and radical experiments in the United States Trouble in Goshen chronicles three communitarian experiments both the administrative details and the struggles and reactions of the clients Smith covers the Tupelo Homesteads in Mississippi the Dyess Colony in Arkansas and the Delta Cooperative Farm also in Mississippi The Tupelo Homesteads were created under the aegis of the tiny Division of Subsistence Homesteads a short lived first New Deal agency Dyess Colony was the largest of the Resettlement Administration's efforts to transform failed farmers into Jeffersonian yeoman farmers The third community the Delta Cooperative Farm a product of the active cooperation between the Socialist Party of America and a cadre of liberal churchmen led by Reinhold Niebuhr attempted to meld the pieties passions propaganda and theories of Jesus and Marx The equipment facilities and management styles of the projects reveal a clearly delineated class order among the poor Trouble in Goshen demonstrates the class conscious angst that enveloped three distinct levels of poverty and the struggles of plain folk to preserve their tenuous status and avoid overt peasantry

Agriculture Library, The South and the New Deal Roger Biles, 2021-05-11 When Franklin D Roosevelt was sworn in as president the South was unmistakably the most disadvantaged part of the nation The region s economy was the weakest its educational level the lowest its politics the most rigid and its laws and social mores the most racially slanted Moreover the region was prostrate from the effects of the Great Depression Roosevelt s New Deal effected significant changes on the southern landscape challenging many traditions and laying the foundations for subsequent alterations in the southern way of life At the same time firmly entrenched values and institutions militated against change and blunted the impact of federal programs In The South and the New Deal Roger Biles examines the New Deal s impact on the rural and urban South its black and white citizens its poor and its politics He shows how southern leaders initially welcomed and supported the various New Deal measures but later opposed a continuation or expansion of these programs because they violated regional convictions and traditions Nevertheless Biles concludes the New Deal coupled with the domestic effects of World War II set the stage for a remarkable postwar transformation in the affairs of the region The post World War II Sunbelt boom has brought Dixie more fully into the national mainstream To what degree did the New Deal disrupt southern distinctiveness Biles answers this and other questions and explores the New Deal s enduring legacy in the region **Farmers, Bureaucrats, and Middlemen** Trudy Huskamp Peterson, 1980 *Delta Empire* Jeannie Whayne, 2011-12-05 In *Delta Empire* Lee Wilson and the Transformation of Agriculture in the New South Jeannie Whayne employs the fascinating history of a powerful plantation owner in the Arkansas delta to recount the evolution of southern agriculture from the late nineteenth century through World War II After his father s death in 1870 Robert E Lee Wilson inherited 400 acres of land in Mississippi County Arkansas Over his lifetime he transformed that inheritance into a 50 000 acre lumber operation and cotton plantation Early on Wilson saw an opportunity in the swampy local terrain which sold for as little as fifty cents an acre to satisfy an expanding national market for Arkansas forest reserves He also led the fundamental transformation of the landscape involving the drainage of tens of thousands of acres of land in order to create the vast agricultural empire he envisioned A consummate manager Wilson employed the tenancy and sharecropping system to his advantage while earning a reputation for fair treatment of laborers a reputation Whayne suggests not entirely deserved He cultivated a cadre of relatives and employees from whom he expected absolute devotion Leveraging every asset during his life and often deeply in debt Wilson saved his company from bankruptcy several times leaving it to the next generation to successfully steer the business through the challenges of the 1930s and World War II *Delta Empire* traces the transition from the labor intensive sharecropping and tenancy system to the capital intensive neo plantations of the post World War II era to the portfolio plantation model Through Wilson s story Whayne provides a compelling case study of strategic innovation and the changing economy of the South in the late nineteenth century **Southwestern Historical Quarterly** ,1975 *The White House Looks South* William Edward Leuchtenburg, 2005 At a time when race class and gender dominate historical writing Leuchtenburg argues that place is no
