Reconstructing The Household:

Reconstructing the Household Peter W. Bardaglio, 1998-03-01 In *Reconstructing the Household* Peter Bardaglio examines the connections between race gender sexuality and the law in the nineteenth century South He focuses on miscegenation rape incest child custody and adoption laws to show how southerners struggled with the conflicts and stresses that surfaced within their households and in the larger society during the tumultuous Civil War era Slavery war emancipation and Reconstruction not only shaped relations between blacks and whites but also between women and men parents and children and rich and poor Based on literary as well as legal sources Bardaglio s analysis reveals how legal contests involving these groups led to a rethinking of families sexuality and the social order

Household War Lisa Tendrich Frank, LeeAnn Whites, 2020 *Household War* is a collection of essays that explores the Civil War through the household According to the editors the household served as the basic building block for American politics economics and social relations As such the scholars of this volume make the case that the Civil War can be understood as a revolutionary moment in the transformation of the household order From this vantage point they look at the interplay of family and politics studying the ways in which the Civil War shaped and was shaped by the American household The volume offers a unique approach to the study of the Civil War that allows an inclusive examination of how the war flowed from required and resulted in the restructuring of the household between regions and those enslaved and free This volume seeks to address how households redefined and reordered themselves as a result of the changes stemming from the Civil War Scholars of this volume provide compelling histories of the myriad ways in which the household played a central role during an era of social upheaval and transformation

Household Archaeology in Ancient Israel and Beyond Assaf Yasur-Landau, Jennie R. Ebeling, Laura B. Mazow, 2013-02-06 Despite the large number of well preserved domestic contexts in Bronze and Iron Age sites household archaeology has not been a common approach to studying the material culture of Ancient Israel Until recently the dictates of Biblical Archaeology led to a narrow set of questions that ignored issues such as gender status and production within the household The present volume which grew out of a session at the 2008 Annual Meeting of the American Schools of Oriental Research attempts to redress this issue The seventeen papers herein reflect innovative viewpoints on the theory and praxis of household archaeology in this region The next step in household research is presented here with the use of tailor made data collection strategies designed to answer specific questions posed by household archaeology The neglect of households and the archaeology of the activities of its members are ambitiously attended to in this volume Its exceptional breadth of various modes of inquiry coupled with the application thereof justifies the household as a topic of discussion I would highly recommend this book for institutions libraries scholars and students interested in any aspect of daily life in the southern Levant and I very much look forward to the future research projects it will inspire Cynthia Shafer Elliot William Jessup University as a whole the work is impressive and most contributions are commendable for their sophistication in engaging

interdisciplinary research in order to understand the nature and function of households in ancient Israel and surrounding areas Carol Meyers Duke University An Archaeological Study of Rural Capitalism and Material Life Mark D.

Groover,2006-04-11 Historical archaeology has largely focused on the study of early military sites and homes of upper class Research on lower classes was viewed as a supplement to local histories documenting political military and financial leaders of the 18th and 19th centuries An Archaeological Study of Rural Capitalism and Material Life will be of interest to historical archaeologists cultural anthropologists social historians and historical sociologists especially researchers studying the influence of globalization and economic development upon rural regions like Appalachia **Mesoamerican Archaeology**

Cameron,2015-09-01 The dramatic split of the Hopi community of Orayvi in 1906 had lasting consequences not only for the people of Third Mesa but also for the very buildings around which they centered their lives This book examines architectural and other effects of that split using architectural change as a framework with which to understand social and cultural processes at prehistoric Southwestern pueblos Catherine Cameron examines architectural change at Orayvi from 1871 to 1948 a period of great demographic and social upheaval Her study is unique in its use of historic photographs to document and understand

abandonment processes and apply that knowledge to prehistoric sites Photos taken by tourists missionaries and early anthropologists during the late nineteenth century portray original structures while later photos show how Orayvi buildings changed over a period of almost eighty years Census data relating to house size and household configuration shed additional light on social change in the pueblo Examining change at Orayvi afforded an opportunity to study the architectural effects of an event that must have happened many times in the past the partial abandonment of a pueblo by tracing the effects of sudden population decline on puebloan architecture Cameron s work provides clues to how and why villages were abandoned and re established repeatedly in the prehistoric Southwest as it offers a unique window on the relationship between Pueblo houses and the living people who occupied them
