Red Badge Of Courage Maggie A Girl Of The Streets And Other Selected Writings:

The Red Badge of Courage Stephen Crane, 1981-03-01 First published in 1895 America's greatest novel of the Civil War was written before 21 year old Stephen Crane had smelled even the powder of a sham battle But this powerful psychological study of a young soldier's struggle with the horrors both within and without that war strikes the reader with its undeniable realism and with its masterful descriptions of the moment by moment riot of emotions felt by me under fire Ernest Hemingway called the novel an American classic and Crane's genius is as much apparent in his sharp colorful prose as in his ironic portrayal of an episode of war so intense so immediate so real that the terror of battle becomes our own in a masterpiece so unique that many believe modern American fiction began with Stephen Crane *The Autobiography and Other Writings* Benjamin Franklin, 2008-04-29 This authoritative Bantam Classic edition presents readers with a wide ranging selection of Benjamin Franklin's most important writings illuminating the complex and appealing character of this quintessential American who rose to fame as a publisher inventor educator bon vivant and statesman Here are selections from Franklin's newspaper articles from the sage wisdom of Poor Richard's Almanac from his entertaining letters from his scientific essays from his political and revolutionary writings plus a generous sampling of his famous aphorisms poems and humor And most important here is a newly edited text of one of the most vital and important works of American literature the Autobiography As fascinating and as relevant as ever this timeless collection of writings reveals an extraordinary man whose mind was always curious always questioning and who forever remained dedicated to the principles of truth and liberty

Reading America Elizabeth Boyle, 2009-03-26 This specially commissioned volume of essays offers a refreshing and unusual perspective on classic novels from the American literary canon Accessible to students scholars and the interested reader this engaging collection explores familiar novels through unfamiliar lenses and in so doing sheds light on surprising and previously overlooked aspects of each text Reading America presents a new approach to American literature by showcasing a cross section of recent research into previously untapped areas of interest Each chapter attempts to re read classic American texts using new or unorthodox theoretical frameworks including such diverse topics as an Emersonian reading of Don DeLillo decoding Thomas Pynchon with eco criticism and understanding Paul Auster's New York Trilogy by exploring the graphic novel version of City of Glass Other authors explored in this way include Henry James Truman Capote Ralph Ellison Toni Morrison Joyce Carol Oates and F Scott Fitzgerald This type of approach widens the reader's knowledge of each well known text and encourages new critical evaluations of contemporary American literature The collection moves through six large topic areas from Naturalism and an idea of the Great American Novel at the end of the nineteenth century through politics sexuality language and nature to a contemporary engagement with postmodernism Each essay deals with its own particular subject and author but the full impact of each on the notion of the American novel as a phenomenon can only be understood when read in conjunction with the others Of interest to both undergraduate and postgraduate students

Reading America would be a valuable asset to any American Studies or American Literature degree course and a useful companion to American History or Politics courses The volume will also attract strong interest from established academics especially those researching the fields of literature critical theory cultural history and politics **Theaters of War V.** Casaregola,2009-09-28 Historian Vincent Casaregola examines the portrayal of WWII in popular culture and how that portrayal has changed over time By examining WWII films literature theatre and art from the Cold War era the Vietnam War the Reagan years and present day he seeks to understand the part played by current politics events and conflicts **The Novel Art** Mark McGurl,2020-06-30 Once upon a time there were good American novels and bad ones but none was thought of as a work of art The Novel Art tells the story of how beginning with Henry James this began to change Examining the late nineteenth century movement to elevate the status of the novel its sources paradoxes and reverberations into the twentieth century Mark McGurl presents a more coherent and wide ranging account of the development of American modernist fiction than ever before Moving deftly from James to Stephen Crane Edith Wharton Gertrude Stein William Faulkner Dashiell Hammett and Djuna Barnes among others McGurl argues that what unifies this diverse group of ambitious writers is their agonized relation to a middling genre rarely included in discussions of the fine arts He concludes that the new product despite its authors desire to distinguish it from popular forms never quite forsook the intimacy the genre had long cultivated with the common reader Indeed the art novel sought status within the mass market and among its prime strategies was a promotion of the mind as a source of value in an economy increasingly dependent on mental labor McGurl also shows how modernism's obsessive interest in simple mindedness revealed a continued concern with the masses even as it attempted to use this simplicity to produce a heightened sophistication of form Masterfully argued and set in elegant prose The Novel Art provides a rich new understanding of the fascinating road the American novel has taken from being an artless enterprise to an aesthetic one **Varieties of English in Writing** Raymond Hickey,2010 This volume is concerned with assessing fictional and non fictional written texts as linguistic evidence for earlier forms of varieties of English These range from Scotland to New Zealand from Canada to South Africa covering all the major forms of the English language around the world Central to the volume is the question of how genuine written representations are Here the emphasis is on the techniques and methodology which can be employed when analysing documents The vernacular styles found in written documents and the use of these as a window on earlier spoken modes of different varieties represent a focal concern of the book Studies of language in literature which were offered in the past have been revisited and their findings reassessed in the light of recent advances in variationist linguistics **Selected Works** Ralph Waldo Emerson,2003 The first book of its kind to pair the writings of Emerson and Fuller this text plays a major role in illuminating the contributions of both men and women to American Transcendentalism In addition to a generous selection of Emerson's essays the complete text of Margaret Fuller's Woman in the Nineteenth Century and a selection of Fuller's dispatches from Europe the volume contains copious

contextualizing footnotes and an excellent introduction Readers also explore the struggles of both writers to change their views in response to political changes of the times Walden and Other Writings Henry David Thoreau,2004-10-26 With their call for simplicity simplicity simplicity for self honesty and for harmony with nature the writings of Henry David Thoreau are perhaps the most influential philosophical works in all American literature The selections in this volume represent Thoreau at his best Included in their entirety are Walden his indisputable masterpiece and his two great arguments for nonconformity Civil Disobedience and Life Without Principle A lifetime of brilliant observation of nature and of himself is recorded in selections from A Week On The Concord And Merrimack Rivers Cape Cod The Maine Woods and The Journal
