**Rubén Darío and the Romantic Search for Unity** Cathy L. Jrade, 2014-07-03 Modernism was the major Spanish American literary movement of the late nineteenth and early twentieth centuries Leader of that influential movement was Rub n Dar o the Nicaraguan now recognized as one of the most important Hispanic poets of all time Like the Romantics in England and the Symbolists on the Continent Dar o and other Modernists were strongly influenced by occultist thought But as the poet Octavio Paz has written academic criticism has preferred to close its eyes to the stream of occultism that runs throughout Dar o s work This silence damages our comprehension of his poetry Cathy Login Jrade s groundbreaking study corrects this critical oversight Her work clearly demonstrates that esoteric tradition is central to Modernism and that an understanding of this centrality clarifies both the nature of the movement and its relationship to earlier European literature

After placing Modernism in a broad historical and literary perspective Jade examines the impact of esoteric beliefs upon Darío's view of the world and the role of poetry in it Through detailed and insightful analyses of key poems she explores the poet's quest for solutions to the nineteenth century crisis of belief The movement that Ruben Darío headed brought Hispanic poetry into the mainstream of the modern tradition with its sense of fragmentation and alienation and its hope for integration and reconciliation with nature Rubén Darío and the Romantic Search for Unity enriches our understanding of that movement and the work of its leading poet

**1990 Census of Population and Housing**, 1993 **Critical Approaches to Rubén Darío** Keith Ellis, 1974-12-15 Rubén Darío 1867-1916 of Nicaragua was the leader of the important Latin American literary movement known as Modernism He is considered by many to be the greatest poet in Latin American literature and the volume of writings devoted to his work since 1884 is perhaps greater than that on any other writer in the history of Spanish American literature The celebration in 1967 of the centenary of his birth gave rise to a formidable number of new analyses increasing the need for the classification and assessment of the many studies In this book Professor Ellis examines and evaluates the wide range of methods and perspectives available to the reader of Darío's works He considers the biographical approach social and political questions influences and sources structural analysis providing three structural studies of his own and in an appendix Darío's own concept of the role of the literary critic His book is comprehensive both in time and in range and includes an up to date bibliography This is the first systematic study of the critical works on a Spanish American writer It is significant not only in its treatment of the work on an individual author but also as a reflection on and an indication of the trends methods and preoccupations of modern appraisals of Latin American writing *Modernism, Rubén Darío, and the Poetics of Despair* Alberto Acereda, Rigoberto Guevara, 2004 Modernism Ruben Darío and the Poetics of Despair presents a detailed study of a neglected facet of Ruben Darío and in general of Hispanic Modernism metaphysical and existential dimensions as preludes to Modernity Alberto Acereda and Rigoberto Guevara approach the life and death issues in Darío's works with special emphasis on his poetry The authors demonstrate how the Nicaraguan poet takes the first steps towards poetic modernity The tragic component of Darío's works are examined in the light of Nineteenth Century philosophy especially the work of Arthur Schopenhauer Various thematic proposals are also formulated for the study of the works of Ruben Darío

**Latin American Poetry** Gordon Brotherston, 1975-11-13 This study considers the ways Spanish American and Brazilian poets differ from their European counterparts by considering Latin American as more than a perfunctory epithet It sets the orthodox Latin tradition of the subcontinent against others that have survived or grown up after the conquest then pays attention to those poets who from Independence have striven to express a specifically American moral and geographical identity Dr Brotherston focuses on Modernismo or the coming of age of poetry in Spanish America and Brazil and the importance of the movements associated with it He considers César Vallejo and Pablo Neruda probably the greatest of the selection Octavio Paz and modern poets who have reacted differently to the idea that Latin America might now be thought to have not just a geographical but a nascent political identity of its own Poems are liberally quoted and treated as entities in their own right
