Genealogical Encyclopedia of the Colonial Americas Christina K. Schaefer, 1998 Covers the period of colonial history from the beginning of European colonization in the Western Hemisphere up to the time of the American Revolution

Gulf Coast Colonials Winston De Ville, 1968 A register of French Americans in Mobile Ala The Forgotten People Gary B. Mills, Elizabeth Shown

Mills, 2013-11-13 Out of colonial Natchitoches in northwestern Louisiana emerged a sophisticated and affluent community founded by a family of freed slaves. Their plantations eventually encompassed 18 000 fertile acres which they tilled alongside hundreds of their own bondsmen. Furnishings of quality and taste graced their homes and private tutors educated their children. Cultured, deeply religious and highly capable, Cane River's Creoles of color enjoyed economic privileges but led politically constricted lives. Like their white neighbors, they publicly supported the Confederacy and suffered the same depredations of war and political and social uncertainties of Reconstruction. Unlike white Creoles, however, they did not recover amid cycles of Redeemer and Jim Crow politics. First published in 1977, *The Forgotten People* offers a socioeconomic history of this widely publicized but also highly romanticized community, a minority group that fit no stereotypes, refused all outside labels, and still struggles to explain its identity in a world mystified by Creolism. Now revised and significantly expanded, this time honored work revisits Cane River's forgotten people and incorporates new findings and insight gleaned across thirty-five years of further research. This new edition provides a nuanced portrayal of the lives of Creole slaves and the roles allowed to freed people of color, tackling issues of race, gender, and slave holding by former slaves. *The Forgotten People* corrects misassumptions about the origin of key properties in the Cane River National Heritage Area and demonstrates how historians reconstruct the lives of the enslaved, the impoverished, and the disenfranchised. Creole New Orleans Arnold R. Hirsch, Joseph Logsdon, 1992-09-01 This collection of six original essays explores the peculiar ethnic composition and history of New Orleans, which the authors persuasively argue is unique among American cities. The focus of *Creole New Orleans* is on the development of a colonial Franco-African culture in the city, the ways that culture was influenced by the arrival of later immigrants, and the processes that led to the eventual dominance of the Anglo-American community. Essays in the book's first section focus not only on the formation of the curiously blended Franco-African culture but also on how that culture once established resisted change and allowed New Orleans to develop along French and African creole lines until the early nineteenth century. Jerah Johnson explores the motives and objectives of Louisiana's French founders, giving that issue the most searching analysis it has yet received. Gwendolyn Midlo Hall, in her account of the origins of New Orleans' free black population, offers a new approach to the early history of Africans in colonial Louisiana. The second part of the book focuses on the challenge of incorporating New Orleans into the United States. As Paul F. LaChance points out, the French immigrants who arrived after the Louisiana Purchase slowed the Americanization process by preserving the city's creole culture. Joseph Tregle then presents a clear, concise account of the clash that occurred between white creoles and the many white Americans who during the 1800s migrated to the city. His analysis demonstrates how race finally brought an accommodation between the white creole and American leaders. The third section centers on the evolution of the city's race relations during the nineteenth and twentieth centuries. Joseph Logsdon and Caryn Coss Bell begin by tracing the ethno-cultural fault line that divided black Americans and creole through Reconstruction and the emergence of Jim Crow. Arnold R. Hirsch pursues the

themes discerned by Logsdon and Bell from the turn of the century to the 1980s examining the transformation of the city's racial politics. Collectively these essays fill a major void in Louisiana history while making a significant contribution to the history of urbanization, ethnicity, and race relations. The book will serve as a cornerstone for future study of the history of New Orleans.

Indians, Settlers, and Slaves in a Frontier Exchange Economy Daniel H. Usner Jr., 2014-01-01 In this pioneering book Daniel Usner examines the economic and cultural interactions among the Indians, Europeans, and African slaves of colonial Louisiana, including the province of West Florida. Rather than focusing on a single cultural group or on a particular economic activity, this study traces the complex social linkages among Indian villages, colonial plantations, hunting camps, military outposts, and port towns across a large region of pre-cotton South. Usner begins by providing a chronological overview of events from French settlement of the area in 1699 to Spanish acquisition of West Florida after the Revolution. He then shows how early confrontations and transactions shaped the formation of Louisiana into a distinct colonial region with a social system based on mutual needs of subsistence. Usner's focus on commerce allows him to illuminate the motives in the contest for empire among the French, English, and Spanish, as well as to trace the personal networks of communication and exchange that existed among the territory's inhabitants. By revealing the economic and social world of early Louisianians, he lays the groundwork for a better understanding of later Southern society.

The Census Tables for the French Colony of Louisiana from 1699 Through 1732, 1972 This is a compilation of the twenty-eight earliest census records of Louisiana. Such records have proved time and again to be the foundation and touchstone of modern genealogy. These particular census records cover at one period or another Fort Maurepas, Biloxi, Mobile, Natchez, New Orleans, and other locations. The records are both civilian and military, mainly the former, and they extend from 1699 through 1732. Besides census records, the reader will find lists of 1,704 marriageable girls, a 1726 list of persons requesting negroes, landowner lists, and a list of persons massacred at Fort Rosalie in 1729. Other features include a synopsis of Louisiana's colonial history, tips on French colonial naming practices, and a comprehensive index of 5,000 names.
