Menschenhand Und Gotteshand In Antike Und Christentum:

Menschenhand und Gotteshand in Antike und Christentum Karl Gross, 1985 *Frühes Christentum im antiken Strahlungsfeld* Wolfgang Speyer, 2007 English summary In this volume Wolfgang Speyer continues his studies of the relationship between antiquity and Christianity His goal is to make the differences as well as the common ground between the ancient polytheistic religions and Judaism and Christianity the monotheistic revealed religions easier to understand He shows the continuities as well as the breaks in the spiritual legacy of antiquity and Christianity since the late Middle Ages and explains why in his opinion separating late Christian antiquity and the early Middle Ages is wrong In philological historical systematic and philosophical essays the author assumes that man is intrinsically a homo religiosus and that religiousness therefore is also the source of philosophy and science German description Mit dem vorliegenden Band setzt Wolfgang Speyer seine Studien zum Verhältnis von Antike und Christentum in Form von Aufsätzen fort Sein Anliegen ist es die Unterschiede aber auch die Gemeinsamkeiten zwischen den polytheistischen Religionen des Altertums und den monotheistischen Offenbarungsreligionen Judentum und Christentum verständlicher zu machen Er zeigt sowohl Kontinuitäten als auch Brüche im geistigen Erbe von Antike und Christentum seit dem Spätmittelalter auf und verdeutlicht warum die Trennung von christlicher Spätantike und frühem Mittelalter aus seiner Sicht falsch ist In philologischen historischen religionswissenschaftlichen und philosophischen Studien geht er dabei grundsätzlich davon aus dass der Mensch wesentlich ein homo religiosus die Religiosität also auch der Quellgrund für Philosophie und Wissenschaft ist

Inconsistencies in Greek and Roman Religion. 1, Ter Unus H. S. Versnel, 1990 This is the first of a two volume collection of studies in inconsistencies in Greek and Roman religion Their common aim is to argue for the historical relevance of various types of ambiguity and dissonance The first volume focuses on the central paradoxes in ancient henotheism The term henotheism a modern formation after the stereotyped acclamation EIS O QEOS one is the god common to early Christianity and contemporaneous paganism denotes the specific devotion to one particular god without denying the existence of or even cultic attention to other gods After its prime in the twenties and thirties of this century the term fell into disuse Nonetheless the notion of henotheism represents one of the most remarkable and significant shifts in Graeco Roman religion and hence deserves fresh reconsideration

The Author's Voice in Classical and Late Antiquity Anna Marmodoro, Jonathan Hill, 2013-10 Explores the persona of the author in classical Greek and Latin authors from a range of disciplines and considers authority and ascription in relation to the authorial voice *Inconsistencies in Greek and Roman Religion, Volume 1: Ter Unus. Isis, Dionysos, Hermes. Three Studies in Henotheism* Henk Versnel, 2015-09-01 This is the first of a two volume collection of studies in inconsistencies in Greek and Roman religion Their common aim is to argue for the historical relevance of various types of ambiguity and dissonance The first volume focuses on the central paradoxes in ancient henotheism The term henotheism a modern formation after the stereotyped acclamation EIS O QEOS one is the god common to early

Christianity and contemporaneous paganism denotes the specific devotion to one particular god without denying the existence of or even cultic attention to other gods After its prime in the twenties and thirties of this century the term fell into disuse Nonetheless the notion of henotheism represents one of the most remarkable and significant shifts in Graeco Roman religion and hence deserves fresh reconsideration *Right and Left in Early Christian and Medieval Art* Robert Couzin, 2021-03-01 Robert Couzin's *Right and Left in Early Christian and Medieval Art* is the first in depth study of handedness position and direction in the visual culture of Europe and Byzantium from the fourth to the fourteenth century Heretofore largely unnoticed or ignored the pre eminence of the right and lapses or intentional departures from that norm in medieval imagery are relevant to such major themes as iconography visuality reception narrative form gender production and patronage The author's investigation of right and left in visual culture is informed by modern experimental research on laterality and contextualized within prevailing theological doctrines and socio cultural practices Illustrations in the text are complemented by hundreds more made available on Brill's Arkyves platform here See inside the book **Women in the Ancient Near East** Marten Stol, 2016-08-08 *Women in the Ancient Near East* offers a lucid account of the daily life of women in Mesopotamia from the third millennium BCE until the beginning of the Hellenistic period The book systematically presents the lives of women emerging from the available cuneiform material and discusses modern scholarly opinion Stol's book is the first full scale treatment of the history of women in the Ancient Near East *Community Building in the Shepherd of Hermas* Mark Grundeken, 2015-06-02 In *Community Building in the Shepherd of Hermas* Mark Grundeken investigates key aspects of Christian community life as reflected upon in the early Christian writing the *Shepherd of Hermas* 2nd century CE Grundeken's thematic study deals with various topics the community's identity including its alleged Jewish Christianness lack of resurrection belief sectarian tendencies and its relation to the authorities and to the emperor cult social features encompassing gender roles and charity and rituals such as baptism metanoia Eucharistic meals the Sunday collection dancing and singing the holy kiss and reading of Scripture The many fruitful entries prove *Hermas* to be one of the main texts for studying the development of community building in the early church **Fear and Loathing in Ancient Athens** Alexander Rubel, Michael Vickers, 2014-09-11 Athens at the time of the Peloponnesian war was the arena for a dramatic battle between politics and religion in the hearts and minds of the people *Fear and Loathing in Ancient Athens* originally published in German but now available for the first time in an expanded and revised English edition sheds new light on this dramatic period of history and offers a new approach to the study of Greek religion The book explores an extraordinary range of events and topics and will be an indispensable study for students and scholars studying Athenian religion and politics *Sacramental Theology* Herbert Vorgrimler, 1992 Both resistance to and renewed interest in the sacraments mark current theological thought This work acknowledges human limitations of the sacraments but stresses that God's relationship to human beings cannot be other than sacramental Sacramental structures and events constitute salvation history and thus

permeate all theology What makes this sacramental view comprehensible is faith faith is an indispensable precondition for a sacramental theology Therefore the author first demonstrates the preconditions of faith on which sacramental theology rests and what place it holds within the whole of theology Following this he briefly presents the concept of sacraments and the history of that concept the teachings of Church tradition on sacraments in general and the basic features of a sacramental theology Next he explains from a theological perspective the traditional sacraments of the Catholic Church including related topics such as indulgences and sacramentals

Parables and Rhetoric in the Sermon on the Mount Ernst Baasland, 2015-07-27 Parable research has to a large degree ignored the Sermon on the Mount SM and for its part research into the SM has likewise left the parables by the wayside However the use of parabolic language in more than one third of the SM influences its interpretation and indeed opens up a new approach to it In the current volume Ernst Baasland focuses on this important factor whilst also taking the rhetoric of Jesus teaching into consideration The author maintains that rhetorical features have a great bearing on the interpretation of the text with the overall structure illuminating the entire composition of the sermon Fresh insights into its oration therefore serve to challenge the source problem in a new way The religious and philosophical settings of this most well known of Christ's preachings are clarified by its parables and rhetoric and the sermon's Jewish background has often been investigated While the author continues with that particular task he simultaneously affords more emphasis to the parallels in Greek Hellenistic literature The combining of all these factors leads to a clearer comprehension of the Sermon on the Mount's philosophy of life and provides a better understanding of this classical text

Pagan Survivals, Superstitions and Popular Cultures in Early Medieval Pastoral Literature Bernadette Filotas, 2005 This comprehensive study examines early medieval popular culture as it appears in ecclesiastical and secular law sermons penitentials and other pastoral works a selective skewed but still illuminating record of the beliefs and practices of ordinary Christians Concentrating on the five centuries from c 500 to c 1000 Pagan Survivals Superstitions and Popular Cultures in Early Medieval Pastoral Literature presents the evidence for folk religious beliefs and piety attitudes to nature and death festivals magic drinking and alimentary customs As such it provides a precious glimpse of the mutual adaptation of Christianity and traditional cultures at an important period of cultural and religious transition

BOOK JACKET The Puzzle of Left-handedness Rik Smits, 2011-10-15 Ronald Reagan and Barack Obama have both signed bills into law with their left hands And being left handed certainly did not hold back the artistic achievements of Michelangelo or Raphael And the dexterous guitar playing of Jimmi Hendrix may only have been aided by his southpaw tendencies Left handedness in fact would appear to be no big deal Yet throughout history it has been associated with clumsiness and generally dubious personality traits like untrustworthiness and insincerity Even the Latin word for left sinister has ominous connotations In The Puzzle of Left handedness Rik Smits uncovers why history has been so unkind to our lefthanded forebears He carefully puts together the pieces of the puzzle presenting an array of historical anecdotes strange superstitions and weird wives tales

Smits explains how left handedness continues to be associated with maladies of all kinds including mental retardation alcoholism asthma hay fever cancer diabetes insomnia depression and criminality Even in the enlightened twenty first century left handedness still meets with opposition including from one prominent psychologist who equates it with infantile negativism similar to a toddler s refusal to eat what s on his plate and another who claims that left handed people have average lifespans that are nine years shorter than those who favor the right hand As Smits reminds us such speculation is backed by little factual evidence and the arguments presented by proponents of right handedness tend to be humorously absurd The Puzzle of Left handedness is an enlightening engaging and entertaining odyssey through the puzzles and paradoxes theories and myths of left handed lore Chock full of facts and fiction it s a book to be read with both hands

Early Jewish Prayers in Greek Pieter W. van der Horst, Judith. H. Newman, 2008-12-10 During the past few decades a great amount of scholarly work has been done on the various prayer cultures of antiquity both Graeco Roman and Jewish and Christian In Jewish studies this burgeoning research on ancient prayer has been stimulated particularly by the many new prayer texts found at Qumran which have shed new light on several long standing problems The present volume intends to make a new contribution to the ongoing scholarly debate on ancient Jewish prayer texts by focusing on a limited set of prayer texts scilicet a small number of those that have been preserved only in Greek Jewish prayers in Greek tend to be undervalued which is regrettable because these prayers shed light on sometimes striking aspects of early Jewish spirituality in the centuries around the turn of the era In this volume twelve such prayers have been collected translated and provided with an extensive historical and philological commentary They have been preserved on papyrus on stone and as part of Christian church orders into which some of them have been incorporated in a christianized form For that reason these prayers are of great interest to scholars of both early Judaism and ancient Christianity

Sol: Image and Meaning of the Sun in Roman Art and Religion, Volume II Steven E. Hijmans, 2024-04-02 With this analysis of Sol images Steven E Hijmans paints a new picture of the solar cult in ancient Rome The paucity of literary evidence led Hijmans to prioritize visual sources and he opens this study with a thorough discussion of the theoretical and methodological issues involved Emphasizing the danger of facile equivalencies between visual and verbal meanings his primary focus is Roman praxis manifest in for instance the strict patterning of Sol imagery These patterns encode core concepts that Sol imagery evoked when deployed and in those concepts we recognize the bedrock of Rome s understandings of the sun and his cult Case studies illustrate these concepts in action and the final chapter analyzes the historical context in which previous now discredited views on Sol could arise This is volume II of a two volume set

Der Mensch in Krankheit, Heilung und Gesundheit im Spiegel der modernen Medizin Ulrike Kostka,2000

Preaching and New Worlds Timothy Johnson,Katherine Shelby,John Young,2018-12-07 This collection of essays examines the polyvalent concept of New Worlds in the context of medieval and early modern sermon studies While the terms Old World and New World are commonplace in studies of Europe and the Americas this volume explores how preaching in the Atlantic world and beyond creatively engaged audiences in addressing new cultural and religious perspectives regardless of their geographical location and time period The identification of the other in sermons is already an implicit recognition of a novel world which could be equally enticing and intimidating The scholars represented in this volume examine a wide panorama of medieval and early modern efforts as they identify how sermons which often served as a highly effective media of mass communication reflect shifting identities sometimes contested and sometimes embraced within long standing traditional constructs Particular themes include apocalypticism art and mission cultural interaction multilingualism forms of religious life and theological innovation
