Modernism Mass Culture And Professionalism:

Modernism, Mass Culture and Professionalism Thomas F. Strychacz, 1993-07-30 A study of four modernist writers and their relationship to their critics and era Modernism and Cultural Conflict, 1880-1922 Ann L. Ardis, 2002-10-31 In Modernism and Cultural Conflict Ann Ardis questions commonly held views of the radical nature of literary modernism She positions the coterie of writers centred around Pound Eliot and Joyce as one among a number of groups in Britain intent on redefining the cultural work of literature at the turn of the twentieth century Ardis emphasizes the ways in which modernists secured their cultural centrality she documents their support of mainstream attitudes toward science their retreat from a supposed valuing of scandalous sexuality in the wake of Oscar Wilde's trials in 1895 and the conservative cultural and sexual politics masked by their radical formalist poetics She recovers key instances of opposition to modernist self fashioning in British socialism and feminism of the period Ardis goes on to consider how literary modernism's rise to aesthetic prominence paved the way for the institutionalization of English studies through the devaluation of other aesthetic practices The Great Depression and the Culture of Abundance Rita Barnard, 1995-01-27 Examines the response of American leftist writers from the 1930s to the rise of mass culture and to the continued propagation of the values of consumerism during the Depression It traces in the work of Kenneth Fearing and Nathaniel West certain theoretical positions associated with the Frankfurt school especially Walter Benjamin and with contemporary theorists of postmodernism **Different Dispatches** David T. Humphries, 2006-03-09 In Different Dispatches David Humphries brings together in a new way a diverse group of well known American writers of the inter war period including Willa Cather Sherwood Anderson Ernest Hemmingway Zora Neale Hurston James Agee and Robert Penn Warren He demonstrates how these writers engage journalism in creating innovative texts that address mass culture as well as underlying cultural conditions The book will be of interest to readers approaching these well known authors for the first time or for scholars grappling with larger issues of cultural production and reception **The Novel Art** Mark McGurl, 2020-06-30 Once upon a time there were good American novels and bad ones but none was thought of as a work of art The Novel Art tells the story of how beginning with Henry James this began to change Examining the late nineteenth century movement to elevate the status of the novel its sources paradoxes and reverberations into the twentieth century Mark McGurl presents a more coherent and wide ranging account of the development of American modernist fiction than ever before Moving deftly from James to Stephen Crane Edith Wharton Gertrude Stein William Faulkner Dashiell Hammett and Djuna Barnes among others McGurl argues that what unifies this diverse group of ambitious writers is their agonized relation to a middling genre rarely included in discussions of the fine arts He concludes that the new product despite its authors desire to distinguish it from popular forms never quite forsook the intimacy the genre had long cultivated with the common reader Indeed the art novel sought status within the mass market and among its prime strategies was a promotion of the mind as a source of value in an economy increasingly dependent on

mental labor McGurl also shows how modernism's obsessive interest in simple mindedness revealed a continued concern with the masses even as it attempted to use this simplicity to produce a heightened sophistication of form Masterfully argued and set in elegant prose *The Novel Art* provides a rich new understanding of the fascinating road the American novel has taken from being an artless enterprise to an aesthetic one

The Pool Group and the Quest for Anthropological Universality Betsy van Schlun, 2016-11-21 Pool was an avant garde group that originated in 1927 in Britain and was active under this name until 1933 The group consisted of the well known modernist poet H D the English writer Bryher and the young Scottish writer and artist Kenneth Macpherson All three were first and foremost writers who at one point discovered film as another modern experimental medium of artistic expression Pool associated with almost all the iconic modernists of their time with Ezra Pound Gertrude Stein Ernest Hemmingway James Joyce Marianne Moore William Carlos Williams T S Eliot and Virginia Woolf to name only a few In addition due to their interest in film they were also befriended with such influential filmmakers as Sergei Eisenstein and Georg Wilhelm Pabst and became closely associated with Weimar Berlin film culture Pool unites classical Modernism and modernity two directions that are usually considered to be contradictory The Pool phenomenon opens a new perspective onto Modernism and prompts a reconsideration of its canonical texts and figures Contrary to many artists of Modernism who devised highly individualistic aesthetic styles the artists of Pool strove towards a universal art of humanity that was rooted in all human nature and psychology

Wyndham Lewis's Cultural Criticism and the Infrastructures of Patronage Nathan O'Donnell, 2020 This is the first book length study of Wyndham Lewis's cultural criticism a valuable body of writing which posed questions that have yet to be answered about the role and status of the artist in a professionalised society and ultimately about the value economic civic political of the work of art

Stitch, Unstitch Kristin Grogan, 2025-08-26 The labor of literature is often thought of as a specialized craft distinct from everyday work In *Stitch Unstitch* Kristin Grogan traces an alternative vision of writing and the writer arguing that modernist poetry was deeply shaped by ordinary labor and the people who performed it This relationship provoked powerful political and aesthetic experiments and allowed modernist poets to imagine ways of life beyond the demand to earn a living Poetic form Grogan shows offers ways to reflect on the meaning and worth of labor particularly types of gendered labor that are typically unseen and undervalued Her fine grained readings locate modernist poetry within sites of social reproduction factory work craft labor and other forms of manual labor placing literary texts alongside objects such as constructivist posters and set design household notes and homemade books Grogan considers Ezra Pound's ideology of craft and artisanal labor Lola Ridge's immersion in the New York garment industry Langston Hughes's encounter with Soviet workers theater Gertrude Stein's gendered and queer domestic labors and Lorine Niedecker's employment as a hospital cleaner Blending Marxist and feminist theory with attentive close readings *Stitch Unstitch* is a revelatory materialist account of the values of poetry

Edith Wharton in Context Laura Rattray, 2012-10-08 Edith Wharton was one of America's most popular and prolific writers

The Power of Negative Thinking Benjamin Schreier, 2009-04-20 Benjamin Schreier is suspicious of a simple equation of cynicism with quietism nihilism selfishness or false consciousness and he rejects the notion that modern cynicism represents something categorically different from the classical outlook of Diogenes He proposes instead that cynicism names the difficult position of not being able to recognize the relevance of democratic social norms in the future and yet being nonetheless invested in the power of these norms to determine cultural identity and to regulate social practices In his readings of Henry Adams s Education Willa Cather s The Professor s House F Scott Fitzgerald s The Great Gatsby and Nathanael West s Miss Lonelyhearts the author affirms that cynicism is an important and under appreciated current in mainstream modern American literature He finds that far from the simple selfishness or apathy for which it is so often dismissed the cynicism in these texts is suffused by a desire for the certainty promised by norms such as national teleology ethnic identity and civic participation But without faith in the relevance of these regulating terms cynics lack ready accounts of America and of their place in it Schreier s focus is not only on the cynical characters in the texts but also on the textual and epistemological strategies used to render normative narratives recognizably legitimate in the first place In his refusal to historicize cynicism away with generalized claims about American society Schreier argues instead that cynicism stages an unanswerable challenge to the specific expectations through which normative accounts of history become visible The Power of Negative Thinking makes a vital and wide ranging contribution to our understanding of American literature intellectual and cultural history philosophy ethics and politics Schreier s close reading and his vigorous theoretical examination of analytical first principles combine to make a book that is valuable not only to the study of methodology but also to the scrutiny of the very assumptions the humanities bring to the exploration of the way we think

Translocal Modernisms Maria Irene Ramalho Sousa Santos, Irene Ramalho Santos, António Sousa Ribeiro, 2008 The full story of modernism is yet to be written This collection of essays provides an important page in this complex and inconclusive story of fluidities and hybridities by rendering problematical the linear sequence from modernism to postmodernism This book explores the many facets of modernism in a variety of essays written by an international group of scholars It deals with and puts in question the western literary tradition in many of its transcontinental and trans hemispheric encounters Criticism of high modernism is put in perspective by discussions of German reactionary modernism American social modernism and

minor arts mid twentieth century Baudelairean modernity and unprecedented expansions of the concepts of modernity and modernism themselves Engaging in dialogue with the newest geographical transnational and global enlargements of the concept of modernism in time and space from the Middle Passage to emergent cultures of the twenty first century from Europe to America Africa and Asia the volume covers a wide range of translocal and transtemporal literary artistic cultural and social fields and perspectives **Women's Experience of Modernity, 1875-1945** Ann L. Ardis, Leslie W.

Lewis, 2003-05-22 A collection of essays on women's history and literary production at the turn of the twentieth century that centers the feminine phenomena Analyzing such cultural practices as selling and shopping political and social activism urban field work and rural labor radical discourses on feminine sexuality and literary and artistic experimentation this volume contributes to the rich vein of current feminist scholarship on the gender of modernism and challenges the assumption that modernism rose naturally or inevitably to the forefront of the cultural landscape at the turn of the twentieth century During this period women's experience was a rallying cry for feminists a unifying cause that allowed women to work together to effect social change and make claims for women's rights However it also proved to be a source of great divisiveness among women for claims about its universality quickly unraveled to reveal the classism racism and Eurocentrism of various feminist activities and organizations The essays in this volume examine both literary and non literary writings of Jane Addams Djuna Barnes Toru Dutt Radclyffe Hall H D Pauline Hopkins Emma Dunham Kelley Amy Levy Alice Meynell Bram Stoker Ida B Wells Rebecca West and others Instead of focusing exclusively or even centrally on modernism and literature these essays address a broad array of textual materials from political pamphlets to gynecology textbooks as they investigate women's responses to the rise of commodity capitalism middle class women's entrance into the labor force the welfare state's invasion of the working class home and the intensified eroticization of racial and class differences *Socialist Cultures East and West* Dubravka Juraga, M. Keith Booker, 2002-06-30 Decades of Western Cold War propaganda were designed to depict socialism as inimical to genuine aesthetic achievement Now in the wake of the Cold War it is becoming possible to reassess the past and present cultural productions of artists with socialist inclinations The essays in this volume begin such a reassessment finding that socialist cultural production in the 20th century both as the official culture of the socialist East and as an oppositional culture in the capitalist West has been rich and varied The volume focuses on socialist culture in the industrialized world primarily Eastern Europe and the West An introductory essay overviews socialist cultural productions of the 20th century while the chapters that follow address a wide range of topics These include Soviet socialist realist fiction and film musicals the socialist drama of Bertolt Brecht and British and American leftist fiction The volume demonstrates that propagandistic Cold War depictions of socialism as a threat to artistic expression were inaccurate and misleading

Dreaming the Graphic Novel Paul Williams, 2020-01-17 Winner of the Best Book Award in Comics History from the Grand Comics Database Honorable Mention 2019 2020 Research Society for American Periodicals Book Prize The term graphic novel was first coined in 1964 but it wouldn't be broadly used until the 1980s when graphic novels such as Watchmen and Maus achieved commercial success and critical acclaim What happened in the intervening years after the graphic novel was conceptualized yet before it was widely recognized Dreaming the Graphic Novel examines how notions of the graphic novel began to coalesce in the 1970s a time of great change for American comics with declining sales of mainstream periodicals the arrival of specialty comics stores and at least initially a thriving underground comix scene Surveying the eclectic array of long comics narratives that emerged from this fertile period Paul Williams investigates many texts that have fallen out of graphic novel history As he demonstrates the question of what makes a text a graphic novel was the subject of fierce debate among fans creators and publishers inspiring arguments about the literariness of comics that are still taking place among scholars today Unearthing a treasure trove of fanzines adverts and unpublished letters Dreaming the Graphic Novel gives readers an exciting inside look at a pivotal moment in the art form's development

Bachelors, Manhood, and the Novel, 1850-1925 Katherine V. Snyder, 1999-09-02 Katherine Snyder's study explores the significance of the bachelor narrator a prevalent but little recognised figure in premodernist and modernist fiction by male authors including Hawthorne James Conrad Ford and Fitzgerald Snyder demonstrates that bachelors functioned in cultural and literary discourse as threshold figures who by crossing the shifting permeable boundaries of bourgeois domesticity highlighted the limits of conventional masculinity The very marginality of the figure Snyder argues effects a critique of gendered norms of manhood while the symbolic function of marriage as a means of plot resolution is also made more complex by the presence of the single man Bachelor figures made moreover an ideal narrative device for male authors who themselves occupied vexed cultural positions By attending to the gendered identities and relations at issue in these narratives Snyder's study discloses the aesthetic and political underpinnings of the traditional canon of English and American male modernism
