Chafets,2015-04-21 The perfect gift for graduates thirty commencement addresses about liberty patriotism tradition and other conservative themes that are rarely heard on campus The college graduation speech has become another casualty of our age of political correctness Historically universities are supposed to be strongholds of tolerance where any idea can be discussed and tested rigorously to see if it has merit Students should benefit from free expression and diversity of opinions about current events and eternal questions alike But today certain positions are considered too controversial for the fragile ears of liberal students and for administrators who usually surrender to their demands It s no longer unusual when a U S Senator like Ted Cruz a pioneering neurosurgeon like Ben Carson a Supreme Court Justice like Antonin Scalia or a human rights advocate like Ayaan Hirsi Ali faces protests disrespectful shouting or petitions to have his or her invitation revoked Fortunately Remembering Who We Are collects the commencement wisdom of a wide range of thinkers who are willing to challenge the liberal consensus on campus Editor Zev Chafets has brought together a diverse group of speakers from many walks of life from playwright David Mamet to Ambassador Ryan Crocker from Governor Bobby Jindal to humorist PJ O Rourke For example you ll find in these pages Do Your Best to Be Your Best by Supreme Court Justice Clarence Thomas Gridlock An American Achievement by columnist George F Will We Have Something Wonderful by novelist Marilynne Robinson The Art of the Entrepreneur by business leader Mort Zuckerman Restore and Remake Our Country by historian Victor Davis Hanson Too many students now enter the real world after being taught that patriotism is misguided that religious faith is for the foolish and that free enterprise is unfair The eloquent speeches in this collection will help them grasp the truth that America is flawed but fundamentally good that faith can have intellectual depth that capitalism is the world s greatest force for fighting poverty and much more

Remembering America Lawrence R. Samuel,2015-11 American history is ubiquitous underscoring everything from food to travel to architecture and design It is also emotionally charged frequently crossing paths with political and legal issues In Remembering America Lawrence R Samuel examines the place that American history has occupied within education and popular culture and how it has continually shaped and reflected our cultural values and national identity The story of American history Samuel explains is not a straight line but rather one filled with twists and turns and ups and downs its narrative path as winding as that of the United States as a whole Organized around six distinct eras of American history ranging from the 1920s to the present Samuel shows that our understanding of American history has often generated struggle and contention as ideologically opposed groups battled over ownership of the past As women and minorities gained greater power and a louder voice in the national conversation our perspectives on American history became significantly more multicultural bringing race gender and class issues to the forefront These new interpretations of our history helped to reshape our identity on both a national and an individual level Samuel argues that the fight for ownership of our past combined with how those owners have imparted history to our youth crucially affects who we are Our interpretation and expression of our country s past reflects how that self identity has changed over the last one hundred
