national security politics in the contemporary Turkey The rise of the Turkish mafia from its origins in the late Ottoman period to its role in the deep state revealed by the so called Susurluk and Ergenekon scandals is a story that mirrors troubling elements in the republic's establishment and emphasizes the transnational and comparative significance of narcotics and gangs in the country's past

Modern Arab Kingship Adam Mestyan, 2025-12-09 How the recycling of the Ottoman Empire's uses of genealogy and religion created new political orders in the Middle East In this groundbreaking book Adam Mestyan argues that post Ottoman Arab political orders were not as many historians believe products of European colonialism but of the process of recycling empire Mestyan shows that in the post World War I Middle East Allied Powers officials and ex Ottoman patricians collaborated to remake imperial institutions recycling earlier Ottoman uses of genealogy and religion in the creation of new polities with the exception of colonized Palestine These polities he contends should be understood not in terms of colonies and nation states but as subordinated sovereign local states localized regimes of religious ethnic and dynastic sources of imperial authority Meanwhile governance without sovereignty became the new form of Western domination Drawing on previously unused Ottoman French Syrian and Saudi archival sources Mestyan explores ideas and practices of creating composite polities in the interwar Middle East and in doing so sheds light on local agency in the making of the forgotten Kingdom of the Hijaz Jordan Egypt Saudi Arabia and Syria the first Muslim republic Mestyan considers the adjustment of imperial Islam to a world without a Muslim empire discussing the post Ottoman Egyptian monarchy and the intertwined making of Saudi Arabia and the State of Syria in the 1920s and 1930s Mestyan's innovative analysis shows how an empire based theory of the modern political order can help refine our understanding of political dynamics throughout the twentieth century and down to the turbulent present day

Anti-Veiling Campaigns in Turkey Sevgi Adak, 2022-02-24 The veiling and unveiling of women have been controversial issues in Turkey since the late Ottoman period It was with the advent of local campaigns against certain veils in the 1930s however that women's dress turned into an issue of national mobilisation in which gender norms would be redefined In this comprehensive analysis of the anti veiling campaigns in interwar Turkey Sevgi Adak casts light onto the historical context within which the meanings of veiling and unveiling in Turkey were formed By shifting the focus from the high politics of the elite to the implementation of state policies the book situates the anti veiling campaigns as a space where the Kemalist reforms were negotiated compromised and resisted by societal actors Using previously unpublished archival material Adak reveals the intricacies of the Kemalist modernisation process and provides a nuanced reading of the gender order established in the early republic by looking at the various ways women responded to the anti veiling campaigns A major contribution to the literature on the social history of modern Turkey the book provides a complex analysis of these campaigns which goes beyond a simple binary between liberation and oppression

Embers of Empire Paul Miller, Claire Morelon, 2018-11-29 The collapse of the Habsburg Monarchy at the end of World War I ushered in a period of radical change for East Central European political structures and national identities Yet this transformed landscape inevitably still bore the traces of its imperial past Breaking with traditional histories that take 1918 as a strict line of demarcation this collection focuses on the complexities that attended the transition from the Habsburg Empire to its successor states In so doing it produces new and more nuanced insights into the persistence and effectiveness of imperial institutions as well as the sources of instability in the newly formed nation states

Shari`a in the Secular State Russell Powell, 2016-06-10 Words in both law and religion can shape power relationships and are often highly disputed Shari`a lies within the overlap of these two spheres and provides a unique subject for the study of meaning in that liminal space This book contributes important insights related to Islamic jurisprudence and secularism in the Turkish context and regarding the role of language in contested legal and religious contexts The study begins by providing a historical framework for the ideas and terms covered including concepts of religion in general Shari`a in particular and secularism in the Turkish state It goes on to examine empirical research to describe and analyze contemporary Turkish understandings of religion and Shari`a The author's research indicates that there is often a disconnect between supporting the adoption of Shari`a and supporting the regulation of everyday behavior through civil codes Thus Shari`a seems to have taken on new meanings as groups have sought either to appropriate or criticize it It is a quintessential example of fractured and contextual meaning at the center of both religious

and legal traditions This book is essential reading for both academics and those interested in law linguistics history political science anthropology sociology religious studies or Near Eastern studies Atatürk George W. Gawrych,2023-10-19

Christine M. Philliou, 2021-03-02 From its earliest days the dominant history of the Turkish Republic was told as a triumphant narrative of national self determination and secular democratic modernization In that officially sanctioned account the years between the fall of the Ottoman Empire and the formation of the Turkish state marked an absolute rupture and the Turkish nation formed an absolute unity In recent years this hermetic division has begun to erode but as the old consensus collapses new histories and accounts of political authority have been slow to take its place In this richly detailed alternative history of Turkey Christine M Philliou focuses on the notion of political opposition and dissent *muhalefet* to weave together the Ottoman and Turkish periods Taking the perennial dissident Refik Halid Karay 1888 1965 as a subject guide and interlocutor she traces the fissures within the Ottoman and the modern Turkish elite that bridged the Ottoman Empire and Republican Turkey Exploring Karay s political and literary writings across four regimes and two stints in exile along with his direct confrontation with Mustafa Kemal Atatürk at a crucial moment in 1919 Philliou upends the official history of Turkey and offers new dimensions to our understanding of its political authority and culture *Governing Gaza* Ilana Feldman, 2008-07-01 An investigation into how government persists under even the most untenable conditions based on an analysis of government in Gaza between 1917 and 1967 **The National Frame** Banu Karaca, 2021-02-02 Based on long term ethnographic research in the art worlds of Istanbul and Berlin *The National Frame* rethinks the politics of art by focusing on the role of art in state governance It argues that artistic practices arts patronage and sponsorship collecting and curating art and the modalities of censorship continue to be refracted through the conceptual lens of the nation state despite the globalization of the arts By examining discussions of the civilizing function of art in Turkey and Germany and particularly moments in which art is seen to cede this function *The National Frame* reveals the histories of violence on which the production circulation and very understanding of art are predicated Karaca examines this darker side of art in two cities in which art and its institutions have been intertwined with symbolic and material dispossession The particularities of German and Turkish contexts both marked by attempts to claim modern nationhood through the arts illuminate how art is staked to memory and erasure resistance and restoration and why art has been at once vital and unwieldy for national projects As art continues to be called upon to engage the past and imagine different futures *The National Frame* explores how to reclaim art s emancipatory potential
