**The Nation**, 1888 Liberty and Security in an Anarchical World Volume II Brandon Christensen, 2024-12-16 The book takes a hard look at libertarian foreign policy doctrines especially those of non intervention interstate federalism and non aggression and applies new insights to these old doctrines Classical liberal thinkers such as Vincent Ostrom James Madison and F A Hayek have all hinted at the idea of world governance from a libertarian standpoint Yet today the libertarian position on foreign policy is either non intervention from the US side of the Atlantic or a halfhearted confederation from the European side of the Atlantic The themes that emerge in this volume II are whether or not libertarian alternatives to the status quo are workable and if so what would they look like

**Boundaries of Utopia - Imagining Communism from Plato to Stalin** Erik van Ree, 2015-05-22 The idea that socialism could be established in a single country was adopted as an official doctrine by the Soviet Union in 1925 Stalin and Bukharin being the main formulators of the policy Before this there had been much debate as to whether the only way to secure socialism would be as a result of socialist revolution on a much broader scale across all Europe or wider still This book traces the development of ideas about communist utopia from Plato onwards paying particular attention to debates about universalist ideology versus the possibility for socialism in one country The book argues that although the prevailing view is that socialism in one country was a sharp break from a long tradition that tended to view socialism as only possible if universal in fact the territorially confined socialist project had long roots including in the writings of Marx and Engels

**The Universities of Europe in the Middle Ages: Salerno. Bologna. Paris - Volume II, part 1. Italy. Spain. France. Germany. Scotland, etc** Hastings Rashdall, 1895

**The Formation of the Uzbek Nation-state** Anita Sengupta, 2003-01-01 The Formation of the Uzbek Nation State is a detailed and insightful examination of the process of nation state formation in the Central Asian region in the post October revolution period based on a case study of Uzbekistan Author Anita Sengupta examines the role of language and religion in the formation of the Uzbek nation state and demonstrates the continuous transition involved in such a process Faith in Nation Anthony W. Marx, 2005-04-21 Common wisdom has long held that the ascent of the modern nation coincided with the flowering of Enlightenment democracy and the decline of religion ringing in an age of tolerant inclusive liberal states Not so

demonstrates Anthony W Marx in this landmark work of revisionist political history and analysis In a startling departure from a historical consensus that has dominated views of nationalism for the past quarter century Marx argues that European nationalism emerged two centuries earlier in the early modern era as a form of mass political engagement based on religious conflict intolerance and exclusion Challenging the self congratulatory genealogy of civic Western nationalism Marx shows how state builders attempted to create a sense of national solidarity to support their burgeoning authority Key to this process was the transfer of power from local to central rulers the most suitable vehicle for effecting this transfer was religion and fanatical passions Religious intolerance specifically the exclusion of religious minorities from the nascent state provided the glue that bonded the remaining populations together Out of this often violent religious intolerance grew popular nationalist sentiment Only after a core and exclusive nationality was formed in England and France and less successfully in Spain did these countries move into the enlightened 19th century all the while continuing to export intolerance and exclusion to overseas colonies Providing an explicitly political theory of early nation building rather than an account emphasizing economic imperatives or literary imaginings Marx reveals that liberal secular Western political traditions were founded on the basis of illiberal intolerant origins His provocative account also suggests that present day exclusive and violent nation building or efforts to form solidarity through cultural or religious antagonisms are not fundamentally different from the West's own earlier experiences

*The Formation and Transmission of Western Legal Culture* Serge Dauchy, Georges Martyn, Anthony Musson, Heikki Pihlajamäki, Alain Wijffels, 2016-12-01 This volume surveys 150 law books of fundamental importance in the history of Western legal literature and culture The entries are organized in three sections the first dealing with the transitional period of fifteenth century editions of medieval authorities the second spanning the early modern period from the sixteenth to the eighteenth century and the third focusing on the nineteenth and twentieth centuries The contributors are scholars from all over the world Each old book is analyzed by a recognized specialist in the specific field of interest Individual entries give a short biography of the author and discuss the significance of the works in the time and setting of their publication and in their broader influence on the development of law worldwide Introductory essays explore the development of Western legal traditions especially the influence of the English common law and of Roman and canon law on legal writers and the borrowings and interaction between them The book goes beyond the study of institutions and traditions of individual countries to chart a broader perspective on the transmission of legal concepts across legal political and geographical boundaries Examining the branches of this genealogical tree of books makes clear their pervasive influence on modern legal systems including attempts at rationalizing custom or creating new hybrid systems by transplanting Western legal concepts into other jurisdictions

Stowe's anti-slavery novel was finished forty-three chapters and one year later John Jewett's small publishing house published the book on March 20, 1852, a couple of weeks before the serial ended. *Uncle Tom's Cabin* was the best-selling novel of the 19th century and is credited with significantly advancing the abolitionist cause. Its historical impact was so great that it spawned the mythical story that Abraham Lincoln, upon meeting Stowe near the start of the Civil War, was heard to say, "So this is the little lady who started this great war."
