Comprehensive National Power P K Singh, Y K Gera, Sandeep Dewan, 2013-02-10 In the book *Comprehensive National Power A Model for India* an attempt has been made to quantify and describe those attributes that most accurately portray India's capability to exert its national will. An effort has been made to assess how various powers compared in this study could exert their national power to leverage the international environment to their national advantage. This study has been carried out in the backdrop of the rise and fall of countries and empires and an assessment of the inbuilt longevity to power. This well researched book is a result of the project study allocated by Headquarters Army Training Command to the United Service Institution of India New Delhi. This study is likely to be a foundational work for future studies on the subject. This would eventually lead to more awareness of the concept of Comprehensive National Power. As a result a national consensus is likely to emerge on the steps India would need to take to further hone its Comprehensive National Power in order to realise the national aspirations.

Worlding Brazil Laura Lima, 2014-12-05 This book looks at the development of thinking about security in Brazil between 1930 and 2010. In order to do so it develops a new framework for thinking about intellectual history in Brazil and applies it to the development of knowledge on security in that country. Building on the Gramscian literature on late modernization and conservative revolution and drawing on the idea of Emotional Theory of Action proposed by Brazilian sociologist Jess Souza this book sets out to establish an innovative framework with which to analyse the development of thinking about security in Brazil in three specific historic contexts. This theoretical framework is then used to argue that one specific discourse of Brazilian identity has been the main source of knowledge production in that country since the 1930s. In doing this the book offers thought provoking arguments about the role of intellectuals in Brazil and reassesses the exclusionary ideas embedded in the politics of identity and security. This book not only introduces a novel framework to analyse intellectual production outside the core it also sheds light on how security has been historically thought of outside the core and will be of interest to students and scholars of International Relations Critical Security Studies and Latin American Studies.

National Power and the Structure of Foreign Trade Albert Hirschman, 2024-06-14 This study begins with a brief survey of economic thought on the relationship between foreign trade and national power from the Mercantilists. Chapter II attempts a systematic theoretical approach to the subject. It first makes clear the fundamental basis of the possible use of foreign trade as an instrument of national power policy. Using well known concepts of economic analysis it proceeds to show under what conditions and by means of what policies this

instrument is likely to attain its highest efficiency The principles of power policy thus deduced theoretically are then compared with the actual practices followed by German trading methods in recent years Toward the end of this chapter the reader will be carried into a detailed discussion of certain problems of the theory of international trade which are touched upon earlier in the chapter Chapter III is applied to the historical background of our problem It gives a survey of the literature on economic aggression before and during World War I and brings out the importance of the Paris Economic Conference of the Allies in 1916 for the Versailles Treaty and postwar economic policies In Chapter IV we review in the light of our theoretical and historical analyses certain safeguards or remedies which could be or have been proposed to prevent the use of foreign trade as an instrument of national power policies Certain questions raised in Part 1 can be answered in quantitative terms Part 2 consists therefore of an exposition of various trends of international trade in recent years disclosed by statistical analysis In Chapter V we calculate an index number expressing the extent to which the trade of the large trading nations is or has been directed by preference toward the smaller trading countries Chapter VI gives index numbers for the degree of concentration of their foreign trade on one or a few big markets or sources of supply Finally in Chapter VII we measure the extent to which world trade has been based primarily on an exchange of manufactures against raw materials and foodstuffs This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1945 with an expanded edition published in 1980

Narrowing the Nation's Power is the tale of how a cohesive majority of the Supreme Court has in the last six years cut back the power of Congress and enhanced the autonomy of the fifty states The immunity from suit of the sovereign Blackstone taught is necessary to preserve the people's idea that the sovereign is a superior being Promoting the common law doctrine of sovereign immunity to constitutional status the current Supreme Court has used it to shield the states from damages for age discrimination disability discrimination and the violation of patents trademarks copyrights and fair labor standards Not just the states themselves but every state sponsored entity a state insurance scheme a state university's research lab the Idaho Potato Commission has been insulated from paying damages in tort or contract Sovereign immunity as Noonan puts it has metastasized It only hurts when you think about it Noonan's Yalewoman remarks Crippled by the states immunity Congress has been further brought to heel by the Supreme Court's recent invention of two rules The first rule Congress must establish a documentary record that a national evil exists before Congress can legislate to protect life liberty or property under the Fourteenth Amendment The second rule The response of Congress to the evil must then be both congruent and proportionate The Supreme Court determines whether these standards are met thereby making itself the master monitor of national legislation Even legislation under the Commerce Clause has been found wanting illustrated here by the story of Christy Brzonkala's attempt to redress multiple rapes at a state university by invoking the Violence Against Women Act The nation's power has been remarkably narrowed Noonan is a passionate believer in the place of persons in the law Rules he claims are a necessary framework but they must not obscure law's task of giving justice to persons His critique of Supreme Court doctrine is driven by this conviction
