National And International Law Enforcement In The Ocean:

National and International Law Enforcement in the Ocean William T. Burke, 1975 **Federal Ocean Program** United States. President, 1976 **Canadian Foreign Policy and the Law of Sea** Barbara Johnson, Mark W. Zacher, 2011-11-01

Since the 1960s there have been intensive international negotiations to revise the law of the sea. These discussions culminated in the convening of the Third United Nations Conference on the Law of the Sea in December 1973 and in four additional sessions up to September 1976. Whether the almost 150 participating states will be able to reach an accord in 1977 or later on the myriad issues on their agenda is still uncertain. Two major issues have been the extension of coastal state jurisdiction over resources and activities and the establishment of an international regime to govern the exploitation of the deep seabed. Canada's most significant role has been that of a leader of the coastal state grouping which has sought to expand states jurisdiction over fisheries seabed resources scientific research and pollution control within a 200 mile economic zone and sometimes beyond. A number of these Canadian policy goals have already been accepted by a large majority of the participants in the conference. In this role Canada has found itself opposed to many of its traditional allies among the developed nations with large fleets engaged in commerce in distant waters and concerned about the traditional freedom of the high seas and has aligned itself with the coastal developing nations of Africa Asia and Latin America. The seven essays in this volume examine the development of Canadian policies on the major law of the sea issues and the outcome of the negotiations on them. In so doing the studies have analysed Canada's dramatic seaward expansion and involvement in one of the most important United Nations Conferences. *The Federal Ocean Program*, 1976 **The Federal Ocean Program** United States. President, 1976 **Legal Measures for the Conservation of Marine Mammals** Patricia W. Birnie, 1982 **Encyclopedia of Ocean Law and Policy in Asia-Pacific** Seokwoo Lee, 2022-11-21

This timely encyclopedia addresses the underrepresented scholarly state practice of the Asia Pacific region in negotiating and implementing the United Nations Convention on the Law of the Sea UNCLOS a continuing cornerstone of focus for regional and non regional states alike. Further highlights for each represented state include ocean treaty accessions domestic implementation maritime zones maritime disputes exploring and exploiting living and non living resources marine environment protection marine scientific research dispute settlement and contributions to the development of the law of the sea. The law of the sea is brought to life in the domestic laws policies and institutions of states discussed. **Human Rights and Law Enforcement at Sea** Anna Petrig, 2014-10-30

Law enforcement at sea has become an increasingly important tool for combating transnational crime. Such law enforcement operations are commonly directed by multinational missions composed of military rather than police forces and are often carried out in maritime areas not subject to national jurisdiction. Because of these characteristics maritime law enforcement operations touch upon many unresolved human rights issues. In the present study counter piracy operations off the coast of Somalia and in the Indian Ocean serve as the quintessential

example of how law enforcement measures taken at sea may fall short of international human rights standards. An unprecedented number of national and multinational missions have been deployed to counter the phenomenon of piracy off the coast of Somalia and in the region. Their mandate includes the arrest, detention and transfer for prosecution of piracy suspects. The book at hand examines the procedures pertinent to the decision whether to release piracy suspects, prosecute them in the seizing State or transfer them to a third State and the detention regime pending such decisions. The study provides a critical analysis of the compatibility of these procedures with international law, first and foremost human rights law. Using piracy as an example, it demonstrates that the characteristics of national and multinational law enforcement at sea may lead to a deviation from certain human rights standards that the States in question readily accept and apply in their land-based territorial law enforcement operations. At the centre of the analysis are two unique case studies which provide insight into the arrest, detention and transfer procedures in both a multinational context and a purely interstate setting. This work is a valuable contribution to legal scholarship dealing with the human rights dimension of maritime law enforcement operations. It is a useful, timely and innovative resource for both academics and legal practitioners alike or any person interested in the applicability and scope of human rights norms in the maritime context.

International Law and Security in Indo-Pacific Joanna Siekiera, 2025-08-01. This book uses an interdisciplinary approach to discuss international law and conflict in the Indo-Pacific region, covering topics such as maritime security, climate change and international relations. Detailing how international relations and particular state interests govern regional and global partnerships, the book provides suggestions for the future of the Indo-Pacific region. Exploring how conflict within the region has international repercussions, topics covered include the role of South East Asian countries and the role of statehood of small islands in Oceania. Detailing harmonization of laws and policies in the context of international security and maritime law, the book focuses on the impact of climate change and other topical issues such as cyber security and the protection of cultural identity. The book will be of interest to researchers in the field of international law, law of the sea, international relations and security.

Merchant Marine Oversight United States. Congress. House. Committee on Merchant Marine and Fisheries. Subcommittee on Merchant Marine, 1976. *Annual Report of the President to the Congress on the Nation's Effort to Comprehend, Conserve, and Use the Sea* United States. President, 1976. **Integrated Maritime Security** Dr. Prabhakaran Paleri, 2014-05-01. This book is unique in the way that it looks at the much-talked-about maritime security through the perspective of national security without disconnect in the terrain-specific mode of the ocean. The uniqueness is not in the treatment of the concept of maritime security but that of national security in a manner that is different from the beaten notion of physical security of a nation and its people from external and internal threats. National security, according to the author, is more than just military security or the conditions of what is often termed as internal security. It is complex, according to his studied findings. The book provides a warning to governments that any approach to national governance

without integrated maritime security can be defeating in the overall objective of maximising national security even for landlocked countries in the modern world The book provides a comprehensive review and analysis of integrated maritime security providing ample scope for further research on many of the concepts and terminologies inculcated as findings of research The interesting aspect is that the author views maritime security as a ghost protocol to hammer his ideas into the earnest listener

The Legal Order of the Oceans A.V. Lowe, Stefan Talmon, 2009-08-15 This compendium of documents brings together for the first time in an affordable format the essential documents needed to gain a thorough knowledge of the laws of the sea There has been a long felt need for such a collection to provide students scholars and practitioners with a working library of the key materials This collection integrates documents of the International Maritime Organisation which are not available anywhere on the web in consolidated form of regional fisheries organizations security related documents treaties concerning resource exploitation environmental protection measures and much more into the framework created by the Law of the Sea Convention The book is aimed at teachers and practitioners in the area and can be used as a class room companion for law of the sea courses

The Security of Sea Lanes of Communication in the Indian Ocean Region Dennis Rumley, Sanjay Chaturvedi, Mat Taib Yasin, 2016-03-31 First published in 2007 this book focuses on the security of sea lanes of communication It was a joint publication between the Maritime Institute of Malaysia MIMA and the Indian Ocean Research Group IORG and is an important book for three particular reasons First it takes a step forward in identifying key policy themes that can be applied to interstate cooperation around the Indian Ocean Region IOR Second the particular theme discussed is not only central to the economic well being of Indian Ocean countries but also to many of the world's most important trading states and finally the various discussions within the book raise a host of issues to which regional as well as non regional policy makers should give serious consideration

Ocean Law and Policy Carlos Espósito, James Kraska, Harry N. Scheiber, Moon-Sang Kwon, 2016-10-11 In the years since 1994 when the UN Convention on the Law of the Sea UNCLOS entered into force the ocean law regime has been profoundly affected by an interplay of new forces in global ocean affairs Numbered among them are innovations in technology and science the emergence of intensified piracy and other challenges to maritime security national and regional programs In *Ocean Law and Policy Twenty Years of Development under the UNCLOS Regime* experts from fourteen countries present nineteen papers that provide insightful analyses of these wide ranging issues that form the emerging new context of UNCLOS as a keystone to a working regime system Accessible as well as authoritative this volume offers to general readers as well as academics policy officials and legal experts a set of important analyses and provocative insights forming a major contribution to the literature of ocean studies
