**National Construction Estimator** Gary Moselle, 1979-01-01      Extractives, Manufacturing, and Services David O. Whitten, 1997-04-22 The second volume in the Handbook of American Business History series this book offers concise histories of extractive manufacturing and service industries as well as extensive bibliographic essays pointing to the leading sources on each industry and bibliographic checklists Supplementing other bibliographic materials in business history this volume provides researchers with a much needed path through the vast array of material available in the library and on the Internet Indicating which resources to check and which to bypass the book is a guide to a sometimes overwhelming amount of information Each of the book's chapters provides a concise industry history beginning with the industry's rise to importance in the U S and continuing to the present The bibliographic essays provide a narrative outline of the leading sources published or made available in archives libraries or museum collections since 1971 when Lovett's American Economic and Business History Information Sources was published Each discussion concludes with a bibliographic checklist of the titles mentioned in the essay as well as other titles In a rapidly expanding information society researchers teachers and students may be easily overwhelmed by the exhaustive material available in print and electronically What is useful and what can be ignored is a strategic question and few know where to begin This book provides a guide      National Construction Estimator, 1996      A Revised Estimate of the Cost of Completing the National System of Interstate and Defense Highways United States. Department of Transportation, 1985      *The Budget of the United States Government* United States, United States. Office of Management and Budget, 1983      **Building Construction Estimating** Stephen D. Schuette, Roger W. Liska, 1994 Building Construction Estimating furnishes readers with specific details on how a general building contractor derives the cost of a project before it begins and how the estimate fits into the total construction process The book provides coverage of such areas as determining labor productivity and wages selecting equipment and assigning productivity rates and costs acquiring specialty contractor prices and assigning overhead costs and profit The material is presented from the point of view of a general contractor working on a competitively bid stipulated sum lump sum contract However other contract methods and the effects they have on the estimating process are also discussed Furthermore the principles of estimating for the specialty trades are discussed from the reference of a general building contractor and how the subcontractor's bid will affect the total project cost is presented Of special note is the book's introduction and utilization of computers in the estimating process enabling readers to utilize new technology in an effective and efficient manner The book is organized in a way that first teaches the reader to perform many of the estimating activities manually then guides them in developing a computer spreadsheet The use of spreadsheets empowers the reader to go beyond the manual calculations and develop new and more proficient solutions to estimating problems      **Congressional Record** United States.
