*National Gallery Technical Bulletin* National Gallery (Great Britain),2012      **Digital Heritage** Lindsay MacDonald,2006-08-11 In the fields of documentation and conservation of cultural heritage assets there is a constant need for higher quality records and better analytical tools for extracting information about the condition of artefacts Digital photography and digital image processing provide these capabilities and recent technological advances in both fields promise new levels of performance for the capture and understanding of colour images This inter disciplinary book covers the imaging of decorated surfaces in historical buildings and the digitisation of documents paintings and objects in museums and galleries and shows how user requirements can be met by application of powerful digital imaging techniques Numerous case studies illustrate the methods      **Books in Print** ,1991      **March of the Pigments** Mary Virginia Orna,2022-05-23 Take a colorful walk through human ingenuity Mary Virginia Orna a world recognized expert on color will lead you through an illuminating journey exploring the science behind pigments      *The Science of Paintings* W.Stanley Jr. Taft,James W. Mayer,2006-04-18 The physics and materials science behind paintings the pigments binders canvas and varnish that go into making a painting appear the way it does The text discusses the physical principles behind the colors seen and how these change with illumination the various types of paint and binders used in both old and modern paintings and the optics and microscopic structure of paint films Chapters on dating binders and dendochronology have been contributed by experts in the respective fields      **Rubens** Joost vander Auwera,2007 Over the past four years the Royal Fine Arts Museums of Belgium have undertaken a huge research      *The Renaissance Restored* Matthew Hayes,2021-07-13 This handsomely illustrated volume traces the intersections of art history and paintings restoration in nineteenth century Europe Repairing works of art and writing about them the practices that became art conservation and art history share a common ancestry By the nineteenth century the two fields had become inseparably linked While the art historical scholarship of this period has been widely studied its restoration practices have received less scrutiny until now This book charts the intersections between art history and conservation in the treatment of Italian Renaissance paintings in nineteenth century Europe Initial chapters discuss the restoration of works by Giotto and Titian framed by the contemporary scholarship of art historians such as Jacob Burckhardt G B Cavalcaselle and Joseph Crowe that was redefining the earlier age Subsequent chapters recount how paintings conservation was integrated into museum settings The narrative uses period texts unpublished archival materials and historical photographs in probing how paintings looked at a time when scholars were writing the foundational texts of art history and how contemporary restorers were negotiating the appearances of these works The book proposes a model for a new conservation history object focused yet enriched by consideration of a wider cultural horizon      **A Revolution in Colour** Giorgio Riello,Maria Hayward,Ulinka Rublack,2024-09-19 This major volume aims to re colour the European world of dress c 1300 1800 New dyes created one of the most important visual experiences of the period yet their story has been side

lined by a focus on visual experiences shaped by the high arts Meanwhile theatrical productions and period films still abound with broad assumptions about the growing dominance of black clothing for elites during the period while ordinary people are imagined having worn coarse greys and bleached garments This volume presents clear evidence that even the clothing of the middle classes could be much more expensive than paintings and that coloured clothing and accessories were ubiquitous across society Contributors shed new light on the economic environmental and cultural dimensions of colour in dress The range of dyes expanded considerably in the sixteenth and seventeenth centuries drawing on Asian and Mediterranean knowledge new collections of recipes and the greater diversity of plants available through New World trade Working creatively with organic plant animal and mineral materials to make colours involved considerable knowledge pleasure and skill The creation of colour through dyes thus reveals a whole range of global agricultural and craft technologies that can inspire future material worlds and transforms our understanding of Europe s cultural heritage **Media Technologies and**

**the Digital Humanities in Medieval and Early Modern Studies** Katharine D. Scherff, Lane J. Sobehrad, 2023-03-17 Through a multidisciplinary collection of case studies this book explores the effects of the digital age on medieval and early modern studies Divided into five parts the book examines how people medieval and modern engage with medieval media and technology through an exploration of the theory underpinning audience interactions with historical materials in the past and the real world engagement of a twenty first century audience with medieval and early modern studies through the multimodal lens of a vast digital landscape Each case study reveals the diversity of medieval media and technology and challenges readers to consider new types of literacy competencies as scholarly rigorous methods of engaging in pre modern investigations of materiality Essays in the first section engage in the examination of medieval media mediation and technology from a theoretical framework while the second section explores how digitization smart technologies digital mapping and the internet have shaped medieval and early modern studies today The book will be of interest to students in undergraduate or graduate intermediate or advanced courses as well as scholars in medieval studies art history architectural history medieval history literary history and religious history **Durer to Veronese** Jill Dunkerton, Susan Foister, Nicholas Penny, 2002-01-01 The authors look closely at a variety of types of painting including large altarpieces small domestic

devotional images diplomatic gifts furniture decorations and both intimate and full length portraits as well as frescoes drawings and prints They provide insights into the meanings of individual pictures and into the purposes they were originally intended to serve and they explore the social position of the artist in the 1500s **The Arts and Computational Culture: Real and Virtual Worlds** Tula Giannini, Jonathan P. Bowen, 2024-06-27 A Paradigm Shift and Defining Moment in the 21st Century Fuelled by the convergence of computational culture artificial intelligence and machine learning arts and culture are experiencing a revolutionary moment poised to change human life and society on a global scale There is the promise of the Metaverse with extended reality XR and immersive virtual worlds For the first time reality and virtuality are merging with

these new developments The proposed book is among the first to address the context complexity and impact of this multifaceted subject in detail for up close and personal engagement of the reader while evoking a landscape view As digital culture evolves to computational culture we embark on a digital journey from 2D to 3D where flat computer screens for the Internet and smart phones are evolving into immersive digital environments This is while new technologies and AI are increasingly embedded in every aspect of daily life the arts and education

*Colore. Una biografia* Philip Ball, 2012-06-14 Nell antichit  sino a qualche secolo fa i pittori furono anche artigiani che si preparavano da soli i colori componendoli secondo ricette di cui serbavano gelosamente il segreto un aspetto materiale spesso ingiustamente trascurato dagli storici dell'arte In questo saggio affascinante e accurato Philip Ball racconta le tappe fondamentali della storia dei colori dai pigmenti minerali ai coloranti organici all'artificio dei prodotti della chimica Grazie alla sua interpretazione del

linguaggio cromatico scopriamo che un particolare pigmento parla di sangue e clorofilla mentre un altro rievoca lo zolfo e il mercurio degli alchimisti impariamo le ragioni fisico chimiche per cui il tempo ridipinga le tele e come vernici e industrializzazione delle tinte abbiano mutato la produzione artistica ci rendiamo conto di come spesso sia stata la qualità dei colori a limitare la creatività dei pittori o al contrario a favorire la nascita di nuovi stili. L'uso dei colori da parte del pittore non possiede solamente una sua storia una sua fisica una sua chimica una lunga avventura che ha la sua psicologia i suoi pregiudizi la sua religiosità un'avventura che anche scienza

**Van Dyck** Stijn Alsteens, Adam Eaker, Xavier F. Salomon, Bert Watteuw, 2016-01-01 The first major examination of Anthony van Dyck's work as a portraitist and an essential resource on this aspect of his illustrious career This landmark volume is a comprehensive survey of the portrait drawings paintings and prints of Anthony van Dyck 1599-1641 one of the most celebrated portraitists of all time His supremely elegant style and ability to convey a sense of a sitter's inner life made him a favored portraitist among high ranking figures and royalty across Europe as well as among his fellow artists and art enthusiasts Showcasing the full range of Van Dyck's fascinating international career with more than 100 works this catalogue celebrates the artist's versatility inventiveness and influential approach to portraiture Works include preparatory drawings and oil sketches that shed light on Van Dyck's working process prints that allowed his work to reach a wider audience and grand painted portraits Some of the masterpieces are drawn from the exceptional holdings of The Frick Collection while other works are presented here for the first time Also included are drawings by some of Van Dyck's contemporaries including his teacher Peter Paul Rubens that illuminate the lineage of his working method With insightful contributions by a team of international scholars this unparalleled study of Van Dyck offers a compelling case for the distinctiveness and importance of the artist's work
