Animal Behavior Desk Reference Edward M. Barrows, 2011-04-26 Words are our tools and as a minimum we should use clean tools We should know what we mean and what we do not and we must forearm ourselves against the traps that language sets us The Need for Precise Terminology Austin 1957 7 8 It follows that for effective and efficient communication people should have or at least understand the same precise terminology Such terminology is crucial for the advancement of basic theoretical and applied science yet too often there is ambiguity between scientific and common definitions and even discrepancies in the scientific literature Providing a common ground and platform for precise scientific communication in animal behavior ecology evolution and related branches of biology Animal Behavior Desk Reference A Dictionary of Behavior Ecology and Evolution Third Edition contains more than 800 new terms and definitions 48 new figures and thousands of additions and improvements Using a dictionary format to present definitions in a standard easily accessible manner the book's main body emphasizes conceptual terms rather than anatomical parts or taxonomic terms and focuses on nouns rather than verbs or adjectives Term hierarchies are handled with bulleted entries and terms with multiple definitions are included as superscripted entries All sources are cited and most are paraphrased to conform to uniform style and length The dictionary also includes nontechnical and obsolete terms synonyms pronunciations and notes and comments as well as etymologies term originators and related facts Appendices address organism names organizations and databases Devoted to the precise and correct use of scientific language this third edition of a bestselling standard enables students and scientists alike to communicate their findings and promote the efficient advancement of science

Books In Print 2004-2005 Ed Bowker Staff, Staff Bowker, Ed, 2004 Peopled Landscapes Simon Haberle, Bruno David, 2012-01-01 This volume brings together a collection of papers from a diverse field of international scholars exploring the multiple ways that East Timorese communities are making and remaking their connections to land and places of ancestral significance The work is explicitly comparative and highlights the different ways Timorese language communities negotiate access and transactions in land disputes and inheritance especially in areas subject to historical displacement and resettlement Consideration is extended to the role of ritual performance and social alliance for inscribing connection and entitlement Emerging through analysis is an appreciation of how relations to land articulated in origin discourses are implicated in the construction of national culture and differential contributions to the struggle for independence Publisher's description

Encyclopedia of Geography Terms, Themes, and Concepts Reuel R. Hanks, 2011-10-17 This text provides an essential reference handbook for students of geography and related social sciences How did the Greek geographer Eratosthenes make an accurate calculation of the earth's circumference more than 1 500 years before the first voyage of Columbus to the New World What are the green belts of England that dominate its rural landscape And what is regarded as the driest continent on the planet This handbook offers a broad coverage of terminology and concepts serving as both an encyclopedic dictionary of geography terms and an

approachable overview to the human and physical aspects of world geography Approximately 150 geographic terms and concepts are defined and discussed providing an accessible reference for anyone who requires a deeper knowledge of the language and ideas that are important to geography as a discipline Helpful sidebars are provided to shed light on unusual or controversial theories and concepts All major geographic concepts and terms are addressed and comprehensively explained using examples
