Brimming over with wit and insight Fresh and fascinating Dan Rather Everyone from suffragists to their opponents radicals reformers and capitalists critics of technology and modern life racists and xenophobes and champions of racial and ethnic equality editorial writers and folk singers preachers and poets found moral and cultural lessons in the sinking of the Titanic In a new edition that both commemorates the one hundredth anniversary of the disaster and elaborates in a revised afterword on the ship s continued impact on the public imagination evidenced by the Titanic mania evoked by James Cameron s 1997 film Steven Bial explores the Titanic in all its complexity and contradictions Traders and Explorers in Wooden Ships: Muslims in the Age of Exploration Susan Douglass,1995-01-01 This unit is offered to upper elementary students as an introductory chapter to their first comprehensive study of American history It may also be used as an adjunct to study of the European Age of Exploration in world history courses for upper elementary and middle school grades It can be used as a supplement to or substitute for the textbook chapter which discusses America s origins in the Old World It provides background for the period in which Europe reached out across the globe for the first time This treatment attempts to go beyond the heroism and adventure stories about the Age of Exploration Most textbook treatments of the period utterly fail to place Europe in the context of its cultural and technological development relative to other civilizations This unit shows how the Islamic lands formed a hinge between East and West It investigates the major motivations and development of the technological means for exploration It goes beyond the stereotyped image of conflict between Christians and Muslims to explain the fruitful cultural exchange which occurred over the centuries It demonstrates how the cosmopolitan character of the Islamic civilization united the Old World in interdependence contributing to Europe s later technological scientific cultural and economic achievements Finally the unit shows how all technological and historic advances in human civilization are cumulative efforts to which many peoples have made important contributions **Expedition into Empire** Martin Thomas,2014-09-04 Expeditionary journeys have shaped our world but the expedition as a cultural form is rarely scrutinized This book is the first major investigation of the conventions and social practices embedded in team based exploration In probing the politics of expedition making this volume is itself a pioneering journey through the cultures of empire With contributions from established and emerging scholars Expedition into Empire plots the rise and transformation of expeditionary journeys from the eighteenth century until the present Conceived as a series of spotlights on imperial travel and colonial expansion it roves widely from the metropolitan centers to the ends of the earth This collection is both rigorous and accessible containing lively case studies from writers long immersed in exploration travel literature and the dynamics of cross cultural encounter **White Man's Game** Stephanie Hanes,2025-06-25 A probing examination of Western conservation efforts in Africa where our feel good stories belie a troubling reality The stunningly beautiful Gorongosa National Park once the crown jewel of Mozambique was nearly destroyed by decades of civil war It looked like a perfect place for Western philanthropy revive the park and tourists would return a win win outcome for the environment and the

impoverished villagers living in the area So why did some researchers find the local communities actually getting hungrier sicker and poorer as the project went on And why did efforts to bring back wildlife become far more difficult than expected In pursuit of answers Stephanie Hanes takes readers on a vivid safari across southern Africa from the shark filled waters off Cape Agulhas to a reserve trying to save endangered wild dogs She traces the tangled history of Western missionaries explorers and do gooders in Africa from Stanley and Livingstone to Teddy Roosevelt from Bono and the Live Aid festivals to Greg Carr the American benefactor of Gorongosa And she examines the larger problems that arise when Westerners try to fix complex messy situations in the developing world acting with best intentions yet potentially overlooking the wishes of the people who live there Beneath the uplifting stories we tell ourselves about helping Africans she shows often lies a dramatic misunderstanding of what the locals actually need and want A gripping narrative of environmentalists and insurgents poachers and tycoons elephants and angry spirits White Man s Game profoundly challenges the way we think about philanthropy and conservation
