National Parks And The Womans Voice A History:

National Parks and the Woman's Voice Polly Welts Kaufman, 2006 In this updated study Polly Kaufman discovers that staff are no longer able to fulfill the National Park Service mission without outside support *A National Park for Women's Rights* Judy Hart, 2023-10-15 A National Park for Women's Rights chronicles a little known story in American history the establishment of the Women's Rights National Historical Park in Seneca Falls New York the first idea park in the National Park system As told by Judy Hart its visionary founder and first superintendent the park's story is one of struggle and perseverance opposition and solidarity Hart narrates the uphill battle she fought to secure the park's location on the site of the first women's rights convention in 1848 and to gain respect for the idea of a park dedicated to women's rights from 1978 when she first championed its creation to the triumphant moment in 1982 when the park opened its doors and following years Hart's journey highlights the prejudices and resistance that she faced like other women who have advocated for themselves their rights and their place in America Going behind the scenes of the park's planning and the negotiations conflicts and collaborations that shaped the final vision A National Park for Women's Rights highlights the contributions of Park Service officials politicians and interested citizens in Seneca Falls despite opposition from within and beyond the Park Service An inspiration and rallying cry for women and their male allies to tell their stories and claim their place in American history A National Park for Women's Rights also offers a model for public history activism No matter how daunting the opposition to such acts of historical memory making are Hart's experiences remind citizen activists to dream organize and persist **Land Matters** Liz Wells, 2022-02-26 In this major work on landscape photography extensively illustrated in colour and black white Liz Wells is concerned with the ways in which photographers engage with issues about land its representation and idealisation She demonstrates how the visual interpretation of land as landscape reflects and reinforces contemporary political social and environmental attitudes She also asks what is at stake in landscape photography now through placing critical appraisal of key examples of work by photographers working in for example the USA in Europe Scandinavia and Baltic areas within broader art historical and political concerns This illuminating book will interest readers in photography and media geography art history and travel as well as those concerned with environmental issues
