National Security And International Trusteeship In The Pacific:

National Security and International Trusteeship in the Pacific William Roger Louis, 1972 **National Security and International Trusteeship in the Pacific** William Roger Louis, 1972 *Welcoming America's Newest Commonwealth* Northern Mariana Islands Commission on Federal Laws, 1985 **Kwajalein Atoll, the Marshall Islands and American Policy in the Pacific** Ruth Douglas Currie, 2016-10-27 For centuries the Marshall Islands have been drawn into international politics primarily because of their central location in Oceania After World War II they came into the American sphere as part of the Trust Territory of the Pacific Islands At the outset of the Cold War the Marshalls were a site for nuclear tests and later for the U S Army s ballistic missile testing as part of President Reagan s Strategic Defense Initiative This book focuses on the islanders tenacious negotiations for independence and control of their land accomplished as the Republic of the Marshall Islands in a Compact of Free Association with the U S The creation of American policy in the Pacific was a struggle between the U S departments of the Interior and State and the military s goals for strategic national defense as illustrated by the case of the Army s base at Kwajalein Atoll **The War Against Japan, 1941-1945** John J. Sbrega, 2015-06-12 With over 5 200 entries this volume remains one of the most extensive annotated bibliographies on the USA s fight against Japan in the Second World War Including books articles and de classified documents up to the end of 1987 the book is organized into six categories Part 1 presents reference works including encyclopedias pictorial accounts military histories East Asian histories hisotoriographies Part 2 covers diplomatic political aspects of the war against Japan Part 3 contains sources on the economic and legal aspects of the war against Japan Part 4 presents sources on the military apsects of the war embracing land air and sea forces Religious aspects of the war are covered in Part 5 and Part 6 deals with the social and cultural aspects including substantial sections on the treatment of Japanese minorities in the USA Hawaii Canada and Peru **Arguing Over the American Lake** Hal M. Friedman, 2009 Hal M Friedman analyzes the major issues concerning the Pacific Basin that confronted the executive branch departments between 1945 and 1947 **The Statecraft of British Imperialism** Robert Desmond King, Robin W. Kilson, 1999 These stimulating essays reassess the meaning of British imperialism in the nineteenth and twentieth centuries They are written by leading authorities in the field and range in scope from the aftermath of the American revolution to the liquidation of the British empire from the Caribean to the Pacific from Suez to Hong Kong **Building States** Eva-Maria Muschik, 2022-04-13 Postwar multilateral cooperation is often viewed as an attempt to overcome the limitations of the nation state system However in 1945 when the United Nations was founded large parts of the world were still under imperial control Building States investigates how the UN tried to manage the dissolution of European empires in the 1950s and 1960s and helped transform the practice of international development and the meaning of state sovereignty in the process Eva Maria Muschik argues that the UN played a key role in the global proliferation and reinvention of the nation state in the postwar era as newly independent states came to rely on international assistance

Drawing on previously untapped primary sources she traces how UN personnel usually in close consultation with Western officials sought to manage decolonization peacefully through international development assistance Examining initiatives in Libya Somaliland Bolivia the Congo and New York Muschik shows how the UN pioneered a new understanding and practice of state building presented as a technical challenge for international experts rather than a political process UN officials increasingly took on public policy functions despite the organization s mandate not to interfere in the domestic affairs of its member states These initiatives Muschik suggests had lasting effects on international development practice peacekeeping and post conflict territorial administration Casting new light on how international organizations became major players in the governance of developing countries Building States has significant implications for the histories of decolonization the Cold War and international development
