National Trust Historic Houses Of Britain:

The National Trust, 2007 *Historic Houses of the National Trust* Adrian Tinniswood, 1991 The National Trust has in its care some 200 historic houses in England Wales and Northern Ireland Using 40 of the Trust's most interesting and important houses the author looks at how they came to be built their appearance and those who live and work with them Touring and Publicizing England's Country Houses in the Long Eighteenth Century Jocelyn Anderson, 2018-02-22 Over the course of the long 18th century many of England's grandest country houses became known for displaying noteworthy architecture and design large collections of sculptures and paintings and expansive landscape gardens and parks Although these houses continued to function as residences and spaces of elite retreat they had powerful public identities increasingly accessible to tourists and extensively described by travel writers they began to be celebrated as sites of great importance to national culture This book examines how these identities emerged repositioning the importance of country houses in 18th century Britain and exploring what it took to turn them into tourist attractions Drawing on travel books guidebooks and dozens of tourists diaries and letters it explores what it meant to tour country houses such as Blenheim Palace Chatsworth Wilton Kedleston and Burghley in the tumultuous 1700s It also questions the legacies of these early tourists both as a critical cultural practice in the 18th century and an extraordinary and controversial influence in British culture today country house tourism is a phenomenon that demands investigation **The Ordnance Survey Guide to Historic Houses in Britain**, 1987 Describes the history and background of more than one hundred eighty mansions and palaces in Scotland England and Wales and provides information on hours facilities and restrictions The British Country House Revival Ben Cowell, 2024 British country houses have experienced a renaissance since the early 1970s A new accord is needed today recognising the increasingly contested contribution of country houses to British cultural life Fifty years ago the future for country houses in Britain looked bleak The Victoria Albert Museum's exhibition *The Destruction of the Country House* which opened in October 1974 charted the loss of over a thousand country houses in the preceding century The makers of the exhibition warned that history could be about to repeat itself because of the threats besetting mansion properties principally from higher taxation Houses faced the prospect of having to be stripped of their collections and sold for use as offices hotels or hospitals with their parks and gardens turned into golf clubs Government might afford to save just a handful of the most significant of these places working in tandem with charities such as the National Trust The rest would be consigned to history This book traces the history of country houses in Britain from the *Destruction* exhibition to the present day The wave of country house losses anticipated in 1974 never actually happened Instead over the next five decades Britain's country houses experienced a renaissance Fiscal rules changed in the mid 1970s to make it easier for owners to hold on to their assets Economic improvements in the 1980s and 1990s allowed many houses and estates to develop profitable commercial businesses All of this was achieved only after dedicated campaigning from heritage organisations in support of the country house cause The

book argues that a new accord is needed today to recognise and value the ongoing if increasingly contested contribution of country houses to British life and culture in the twenty first century Historic House Museums in the United States and the United Kingdom Linda Young, 2016-12-13 Historic House Museums in the United States and the United Kingdom A History addresses the phenomenon of historic houses as a distinct species of museum Everyone understands the special nature of an art museum a national museum or a science museum but house museum nearly always requires clarification In the United States the term is almost synonymous with historic preservation in the United Kingdom it is simply unfamiliar the very idea being conflated with stately homes and the National Trust By analyzing the motivation of the founders and subsequent keepers of house museums Linda Young identifies a typology that casts light on what house museums were intended to represent and their significance or lack thereof today This book examines heroes houses once inhabited by great persons e g Shakespeare s birthplace Washington s Mount Vernon artwork houses national identity as specially visible in house design style and technique e g Frank Lloyd Wright houses Modernist houses collectors houses a microcosm of collecting in situ domestic subsequently presented to the nation as the exemplars of taste e g Sir John Soane s Museum Isabella Stewart Gardner Museum English country houses the palaces of the aristocracy maintained thanks to primogeniture but threatened with redundancy and rescued as museums to be touted as the peak of English national culture English country houses the palaces of the aristocracy maintained for centuries thanks to primogeniture but threatened by redundancy and strangely rescued as museums now touted as the peak of English national culture Everyman woman s social history houses the modern demotic response to elite houses presented as social history but tinged with generic ancestor veneration e g tenement house museums in Glasgow and New York National Trust National Trust (Great Britain), 2010
