EPA Publications Bibliography United States. Environmental Protection Agency, 1994 Pollution Control in United States J. Clarence Davies, 2014-04-04 Pollution control a key component of U S environmental policy has made important progress in recent decades Yet important problems remain and there is need for improvement in the pollution control regulatory system This book is the most extensive evaluation of that system ever produced It reveals many strengths and accomplishments but also illustrates serious shortcomings and the need for reform The volume emerges from three years of research on a fragmented system of institutions statutes and procedures that is often inefficient and ineffective hobbled by misplaced priorities Part I provides an in depth description of this system centered on the federal Environmental Protection Agency and the labyrinthine laws it must implement The authors evaluate the federal legislation administrative decisionmaking and the state federal division of labor that defines the system Davies and Mazurek assess the effectiveness and efficiency of U S pollution control They discuss the performance of U S laws and regulations in comparison with those of other nations assess the ability of the U S pollution control system to meet future problems and consider proposals for reform and repair Within this far reaching analysis they include criteria that are often overlooked by policymakers and analysts including social values equity nonintrusiveness and public participation *Drinking Water Supply and Agricultural Pollution* G.J. Schrama, 2012-02-02 Agricultural pollution with nitrates and pesticides is one of the biggest threats to drinking water resources At many places regional and local water authorities together with the water supply industry are involved in preventive action aimed at farming practices Three national case studies Germany The Netherlands and the United Kingdom analyse these efforts within the context of problematical national agricultural policy and the need to implement EU directives on water quality Additional case studies cover the role of the European Union while the same problem in a different setting is analysed for the United States The central question of how national and European governments can reinforce the control capacity of the actors at the regional and local level is treated from the theoretical perspective of the policy network approach **Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations for 1995** United States.
