

## Current

### Central Government

Controls many things that have local impacts –  
e.g. regional transport networks, regional  
planning decisions

### Local councils

Can only raise money through council tax  
and have little say in regional decisions

Transfers powers  
and access to  
better funding

## After devolution

### Central Government

Controls national-level decision making

### Strategic authorities

New regional duties and powers in:

- Funding and investment
- Transport and local infrastructure
- Skills and employment Housing and planning
- Economic development
- Environment and climate change
- Health and wellbeing
- Public safety

### Local councils

Have representatives at the strategic authority,  
so can influence policy

**Development, Democracy, and Welfare States** Stephan Haggard, Robert R. Kaufman, 2020-06-16 This is the first book to compare the distinctive welfare states of Latin America East Asia and Eastern Europe Stephan Haggard and Robert Kaufman trace the historical origins of social policy in these regions to crucial political changes in the mid twentieth century and show how the legacies of these early choices are influencing welfare reform following democratization and globalization After World War II communist regimes in Eastern Europe adopted wide ranging socialist entitlements while conservative dictatorships in East Asia sharply

limited social security but invested in education In Latin America where welfare systems were instituted earlier unequal social security systems favored formal sector workers and the middle class Haggard and Kaufman compare the different welfare paths of the countries in these regions following democratization and the move toward more open economies Although these transformations generated pressure to reform existing welfare systems economic performance and welfare legacies exerted a more profound influence The authors show how exclusionary welfare systems and economic crisis in Latin America created incentives to adopt liberal social policy reforms while social entitlements from the communist era limited the scope of liberal reforms in the new democracies of Eastern Europe In East Asia high growth and permissive fiscal conditions provided opportunities to broaden social entitlements in the new democracies This book highlights the importance of placing the contemporary effects of democratization and globalization into a broader historical context     The Impact of COVID-19 on Devolution Morphet, Janice,2021-04-06 The COVID 19 pandemic is the first time that many of the UK population including its national politicians have become aware of the practical dimensions of devolution to its four nations through the delivery of support to those affected by the virus Part of the COVID Collection this topical book explores how the public perception of the decentralized governments has changed during the pandemic and uses case studies to discuss the actions taken by central government to undermine the devolution settlement Assessing the role of local government in supporting communities despite cuts from central government it makes a vital contribution to the debate on the future options for the UK within the context of Brexit and what follows     **New Perspectives in Public Health** Sian Griffiths,David J Hunter,2017-11-22 The General Practice Jigsaw provides comprehensive and up to date information on the future of education training and professional development in general practice and primary care It is an anthology of work produced by many of the leading figures in general practice across the United Kingdom General practice now faces challenges that could be seen as threatening the way it traditionally operates but can also be seen as presenting opportunities This book provides inspiration and guidance to its readers and fuel for the challenges ahead It shares knowledge and best practice on education teaching and professional development drawing on examples from local regional and national projects It is essential reading for general practitioners involved in education and training for everyone who needs to know how revalidation and professional development will influence them and for all members of primary health care teams who want to be involved in shaping the primary care organisations of the future     Urbanization and Sustainability in Asia Brian Roberts,Trevor Kanaley,2006 This book considers urbanization in Asia and presents case studies of sustainable development best practice from 12 Asian countries Bangladesh Cambodia People s Republic of China India Indonesia Lao People s Democratic Republic Malaysia Pakistan Philippines Sri Lanka Thailand and Viet Nam     **A Caring World The New Social Policy Agenda** OECD,1999-03-15 This book paints a complete and accessible picture of the current situation and shows how to reform policy Social policy should aim to promote employment and healthy living rather than just coping with joblessness and ill health

Investing in children and families ensures that all can contribute Is There a Future for Regional Government? Great Britain: Parliament: House of Commons: ODPM: Housing, Planning, Local Government and the Regions Committee, 2006-03-15 Is there a future for regional Government Session 2005 06 Vol 2 Written Evidence The Changing Constitution Jeffrey L. Jowell, Dawn Oliver, 2011-07-14 This collection of essays by leading experts in British constitutional law covers the main areas of recent reform and anticipates further developments These are considered against a background of general principles including constitutionalism parliamentary sovereignty membership of the EU and globalisation *States of Health* Leslie P. Francis, John G. Francis, 2024 *States of Health* identifies the practical relevance of federalism in the United States to people facing ethical decisions about health and health care and it considers the theoretical justifications for permissible differences among states It asks whether authority over important aspects of health is misaligned in the United States today with some matters problematically left to the states while others are taken over by the federal government

**Health Transitions and the Double Disease Burden in Asia and the Pacific** Milton J. Lewis, Kerrie L. MacPherson, 2012-12-07 Chronic diseases cardiovascular disease cancer chronic respiratory disease and diabetes are not only the principal cause of world wide mortality but also are now responsible for a striking increase in the percentage of sickness in developing countries still grappling with the acute problems of infectious diseases This double disease burden poses demanding questions concerning the organisation of health care allocation of scarce resources and strategies for disease prevention control and treatment and it threatens not only improvement in health status but economic development in the many poorer countries of the Asia Pacific region This book presents an historical account of the development of the double disease burden in Asia and the Pacific a region which has experienced great economic social demographic and political change With in depth analysis of more than fifteen countries this volume examines the impact of the double disease burden on health care regimes resource allocation strategies for prevention and control on the wealthiest nations in the region as well as the smallest Pacific islands In doing so the contributors to this book elaborate on the notion of the double disease burden as discussed by epidemiologists and present real policy responses whilst demonstrating how vital health is to economic development *Health Transitions and the Double Disease Burden in Asia and the Pacific* will be of great value to both scholars and policy makers in the fields of public health the history of medicine as well as to those with a wider interest in the Asia Pacific region Constitutional and Administrative Law Hilaire Barnett, 2025-05-21 Trusted by generations of students and consistently reliable and up to date Hilaire Barnett's *Constitutional and Administrative Law* continues to provide accessible and comprehensive coverage of the Public Law syllabus Mapped to the common course outline the Sixteenth Edition equips students with a thorough understanding of the UK constitution's past present and future by analysing and illustrating the political and sociohistorical contexts that have shaped the major rules and principles of constitutional and administrative law as well as ongoing constitutional reform This edition has been fully updated throughout

**Local Government Reform** Brian Dollery, Joseph Garcea, Edward C. LeSage, 2008-01-01 Written by an impressive array of experts this book surveys local government reforms in six advanced democracies federal and unitary which share a municipal legacy Australia Canada Ireland New Zealand the UK and the US The book has an excellent bibliography and will help open up a field heretofore noted for its insularity Recommended A J Ward Choice

**The COVID-19 - Health Systems Nexus** Lazarus Chapungu, David Chikodzi, Kaitano Dube, 2023-01-12 This contributed volume based on papers presented at a conference held in Zimbabwe in mid 2021 examines the nexus between Zimbabwe's health systems and the COVID 19 pandemic The collection of papers contained here is diverse and covers topics from how health systems handled or didn't handle surges to health communication during a global pandemic to economic and environmental impacts of the pandemic in Zimbabwe Editors Drs Edward Kunonga Lazarus Chapungu and David Chikodzi set the stage for these pieces with an introductory chapter that describes the health systems in Zimbabwe and offers an overview of the effects of the pandemic felt in the country Their concluding chapter synthesizes trends and issues emerging from the chapters and recommends policy directions regarding health management systems in Zimbabwe and elsewhere in the face of this and future pandemics

**Urban Energy Poverty and Positive Energy Districts** Siddharth Sareen, Caitlin Robinson, Harriet Thomson, Rigoberto García, 2022-02-15

**The UK Regional-National Economic Problem** Philip McCann, 2016-03-10 In recent years the United Kingdom has become a more and more divided society with inequality between the regions as marked as it has ever been In a landmark analysis of the current state of Britain's regional development Philip McCann utilises current statistics examines historical trends and makes pertinent international comparisons to assess the state of the nation The UK Regional National Economic Problem brings attention to the highly centralised top down governance structure that the UK deploys and demonstrates that it is less than ideally placed to rectify these inequalities The North South divide in the UK has never been greater and the rising inequalities are evident in almost all aspects of the economy including productivity incomes employment status and wealth Whilst the traditional economic dominance of London and its hinterland has continued along with relative resilience in the South West of England and Scotland in contrast the Midlands the North of England Northern Ireland and Wales lag behind by most measures of prosperity This inequality is greatly limiting national economic performance and the fact that Britain has a below average standard of living by European and OECD terms has been ignored The UK's economic and governance inequality is unlikely to be fundamentally rebalanced by the current governance and connectivity trends although this definitive study suggests that some areas of improvement are possible if they are well implemented This pivotal analysis is essential reading for

postgraduate students in economics and urban studies as well as researchers and policy makers in local and central government
