National Communism:

National Communism Peter Zwick, 2019-03-04 According to the generally accepted view that nationalism is alien to communism and that internationalism disallows divisions based on nations the existence of national communism is often interpreted as a sign of the breakup of the world communist movement This book reexamines the evidence on the role of nations and national variations beginning with Marx and moving through Leninism and Stalinism to Titoism Maoism Castroism and current national liberation movements e g in Nicaragua Professor Zwick concludes that nationalism has always been an inherent element of communism He demonstrates with numerous concrete cases that rather than signaling the decline of communism national adaptation is the source of its strength The limits of national variation as defined by the Brezhnev Doctrine are precisely defined and examined in the cases of Hungary Czechoslovakia and Poland The book bridges the gap between Marxist theory and communist practice with respect to the central role that nationalism will continue to play in the contemporary world No other study presents this material in a cross national comparative perspective Muslim National Communism in the Soviet Union Alexandre A. Bennigsen, S. Enders Wimbush, 1980-09-15 In this study Bennigsen and Wimbush trace the development of the doctrine of national communism in Central Asia and the Caucasus At the heart of this doctrine as elaborated by the Volga Tatar Mir Said Sultan Galiev was the concept of proletarian nations as opposed to the traditional notion of a working class With such ideological innovations Sultan Galiev and his contemporaries were able to reconcile Marxist nationalisms and Islam and devise an Eastern strategy whereby the national revolution was to be spread The authors show that the ideas of Muslim national communism persist in the land of their birth and have spread to such developing societies as China Algeria and Indonesia This doctrine is an important factor in the ideological split and increasing tensions between industrial and nonindustrial nations East and West and now North and South which grip the world communist movement **Communism and the Dilemmas of National Liberation** James Earnest Mace, 1983 Ukrainization originally meant active recruitment of Ukrainians into the Soviet state but soon Ukrainian communists came to demand far greater self determination than Moscow would tolerate Those who made such demands in the 1920s were labelled national deviationists and the issues they raised engulfed the regime in a major political crisis **Yugoslavia From "National Communism" to National Collapse: US Intelligence Community Estimative Products on Yugoslavia, 1948-1990**, 2007-04-23 Contains a collection of 34 declassified National Intelligence Estimates and memoranda representing the United States Intelligence Community's most authoritative analysis of Yugoslavia spanning four decades from the 1948 break with the Soviet Union until 1990 and the eve of the nation's collapse *National Communism in the Soviet Union, 1918-28* Baruch Gurevitz, 2010-11-23 The Jewish Communist Workers Party the Poale Zion provides a unique perspective on the question of how Marxism and the early Soviet Union dealt with issues of nationalism According to Bolshevik ideology when anti-Semitism disappeared in the new Socialist society Jews would assimilate In reality such

assimilation would be a very long slow process The Poale Zion supported the socialist struggle against oppression and exploitation of classes and nations but it called for the formation of an international organization that would recognize the right of Jews to emigrate freely to Palestine and work for the creation of a democratic republic where people could retain their national identities and have both autonomy and representation in the union Gurevitz analyzes the Soviet Poale Zion as representative of Jewish communism as nationalism in its purest form and he traces the complex contradictions between Jewish nationalism and the Communist ideal of assimilation in the early years of the Soviet Union *The Communist Quest for National Legitimacy in Europe, 1918-1989* Martin Mevius, 2013-09-13 There are two popular myths concerning the relationship between communism and nationalism The first is that nationalism and communism are wholly antagonistic and mutually exclusive The second is the assertion that in communist Eastern Europe nationalism was oppressed before 1989 to emerge triumphant after the Berlin Wall came down Reality was different Certainly from 1945 onwards communist parties presented themselves as heirs to national traditions and guardians of national interests The communist states of Central and Eastern Europe constructed socialist patriotism a form of loyalty to their own state of workers and peasants Up to 1989 communists in Eastern Europe sang the national anthem and waved the national flag next to the red banner The use of national images was not the exception but the rule From Cuba to Korea all communist parties attempted to gain national legitimacy This was not incidental or a deviation from Marxist orthodoxy but ingrained in the theory and practice of the communist movement since its inception The study of communist national legitimacy is an exciting new field This book presents examples of communist attempts to co opt nationalism from both sides of the iron curtain and lays bare the striking similarities between such diverse cases as the socialist patriotism of the Bulgarian Communist Party and the national line of the Portuguese communists between Romanian communist nation building and the national ideology of the Spanish Communist Party This book was published as a special issue of Nationalities Papers **The Communist Party of Great Britain and the National Question in Wales, 1920-1991** Douglas Jones, 2017-10-15 While electorally weak the Communist Party of Great Britain and its Welsh Committee was a constant feature of twentieth century Welsh politics in particular through its influence in the trade union movement Based on original archival research the present volume offers the first in depth study of the Communist Party s attitude to devolution in Wales to Welsh nationhood and Welsh identity as well as examining the party s relationship with the Labour Party Plaid Cymru and the labour and nationalist movements in relation to these issues Placing the party s engagement of these issues within the context of the rapid changes in twentieth century Welsh society debates on devolution and identity on the British left the role of nationalism within the communist movement and the interplay of international and domestic factors the volume provides new insight into the development of ideas by the political left on devolution and identity in Wales during the twentieth century It also offers a broad outline of the party s policy in relation to Wales during the twentieth century and an assessment of the role played by leading figures in the

Politics And Traditional Culture: The

Political Use Of Traditions In Contemporary China Janette Jiawen Ai,2014-09-19 This book examines the political use of China's traditions by the party state in contemporary China. It argues that the party state has taken an official Marxist stance in terms of the political use of tradition. Besides looking at the official Marxist stance, this book also looks at critiques of the party state's use of traditions by the Liberalists and Neo traditionalists. The underlying political ideologies of these three camps are Marxism, Liberalism, and Neo traditionalism. These three political ideologies have been the most influential in Chinese politics since the Republican Revolution in 1911. The contemporary political use of China's traditions is a competition between Marxism, Liberalism, and Neo traditionalism. This competition is critical to the future of Chinese politics. This book also examines three cases representing identical ways of the political use of traditions. The three cases are the children's reading of the classics movement, the construction of a Chinese Cultural Symbolic City, the construction and subsequent removal of a statue of Confucius in and from Tiananmen Square, and the revision of the official list of public holidays. The study of the three cases attempts to shed light on the three ways Chinese traditions have been used politically by the party state. It also attempts to explore the reasons for the party's use of Chinese traditions, the reasons for the party's scepticism with regard to using Chinese traditions, and more importantly, the competition and/or cooperation between Marxists, Liberalists, and Neo traditionalists.

Communism's Public Sphere Kyrill Kunakhovich,2023-01-15 Communism's Public Sphere explores the political role of cultural spaces in the Eastern Bloc. Under communist regimes that banned free speech, political discussions shifted to spaces of art, theaters, galleries, concert halls, and youth clubs. Kyrill Kunakhovich shows how these venues turned into sites of dialogue and contestation. While officials used them to spread the communist message, artists and audiences often flouted state policy and championed alternative visions. Cultural spaces therefore came to function as a public sphere or a rare outlet for discussing public affairs. Focusing on Kraków in Poland and Leipzig in East Germany, Communism's Public Sphere sheds new light on state-society interactions in the Eastern Bloc. In place of the familiar trope of domination and resistance, it highlights unexpected symbioses like state-sponsored rock and roll, socialist consumerism, and sanctioned dissent. By examining nearly five decades of communist rule from the Red Army's arrival in Poland in 1944 to German reunification in 1990, Kunakhovich argues that cultural spaces played a pivotal mediating role. They helped reform and stabilize East European communism but also gave cover to the protest movements that ultimately brought it down.

Neoliberalism: National and Regional Experiments with Global Ideas Ravi K. Roy, Arthur T. Denzau, Thomas D.
