Communicating Endangered Species Eric Freedman, Sara Shipley Hiles, David B. Sachsman, 2021-08-04 Communicating Endangered Species Extinction News and Public Policy is a multidisciplinary environmental communication book that takes a distinctive approach by connecting how media and culture depict and explain endangered species with how policymakers and natural resource managers can or do respond to these challenges in practical terms Extinction isn't new However the pace of extinction is accelerating globally The International Union for Conservation of Nature classifies more than 26 000 species as threatened The causes are many including climate change overdevelopment human exploitation disease overhunting habitat destruction and predators The willingness and the ability of ordinary people governments scientists nongovernmental organizations and businesses to slow this deeply disturbing acceleration are uncertain Meanwhile researchers around the world are laboring to better understand and communicate the possibility and implications of extinctions and to discover effective tools and public policies to combat the

Levine, Ph.D.,2025-05-27 Now in 24 languages Nature s Lessons in Healing Trauma *Waking the Tiger* offers a new and hopeful vision of trauma It views the human animal as a unique being endowed with an instinctual capacity It asks and answers an intriguing question why are animals in the wild though threatened routinely rarely traumatized By understanding the dynamics that make wild animals virtually immune to traumatic symptoms the mystery of human trauma is revealed *Waking the Tiger* normalizes the symptoms of trauma and the steps needed to heal them People are often traumatized by seemingly ordinary experiences The reader is taken on a guided tour of the subtle yet powerful impulses that govern our responses to overwhelming life events To do this it employs a series of exercises that help us focus on bodily sensations Through heightened awareness of these sensations trauma can be healed      **More Social Studies Through Childrens Literature** Anthony D.
