**pub desc** Political Support in Canada Richard A. Preston, E. Donald Briggs, 1983 All governments require popular support and in democracies this support must be maintained by noncoercive means This book analyzes the question of political support in Canada a country in which the maintenance of the integrity of the political community has been and continues to be in the words of the editors the single most salient aspect of the country's political life The nature of popular support is first considered in broad theoretical terms then from the standpoint of those agents most responsible for maintaining support in Canadian democracy then as influenced by particular issues and policies and finally as it affects and is affected by the separatist movement in Quebec

**Canadian Liberalism and the Politics of Border Control, 1867-1967** Christopher G. Anderson, 2012-11-17 Since 9 11 Canada's reputation as an inclusive country that takes in immigrants and refugees has been clouded by restrictive immigration policies increased interdiction and the detention of asylum seekers Moreover public debate over the arrival of non citizens especially those seeking entry through unofficial channels is now often framed within a security discourse that is used to justify a more restrictive approach These developments are not surprising in the current context but as Anderson illustrates they are also nothing new Canadian Liberalism and the Politics of Border Control sheds light on the long and complex history of Canada's efforts to control its borders Framing pivotal moments within a long standing but often overlooked debate over the rights of non citizens Anderson demonstrates that today's more restrictive approach reflects traditions deeply embedded within liberal democracies His insights into Canadian immigration and refugee history offer valuable lessons for understanding the nature of contemporary liberal democratic control policies

*Trudeau and the End of a Canadian Dream* Guy Laforest, 1995-03-06 In 1982 Prime Minister Pierre Trudeau realized his life's ambition the patriation of the Canadian constitution and the enshrinement of a Charter of Rights and Freedoms At the same time he dealt a severe blow to his arch enemies the nationalists in Quebec who believed that a significant and rewarding partnership with Canada was possible without renouncing their identity as Quebecers Laforest reveals that Trudeau betrayed the trust of the people of Quebec during the 1980 referendum on sovereignty association and contends that the whole patriation exercise completed without the consent of Quebec is not legitimate in that province He also holds Trudeau responsible for the ultimate rejection of the distinct society clause in the Meech Lake Accord which had given a glimmer of hope to Quebec federalists Trudeau and the End of a Canadian Dream shows how constitutional reform and the political culture it fostered shattered the hopes of those who believed that being both a Canadian and a Quebecer was possible

**Political Liberalism and Plurinational Democracies** Ferran Requejo Coll, Miquel Caminal i Badia, 2011 The book examines the current state of affairs concerning the political recognition and constitutional accommodation of national plurality in liberal democracies in the global era of the 21st century It features case studies on Belgium Canada Spain UK and the European Union

*Political Liberalism and Plurinational Democracies* Ferran Requejo, Miquel Caminal, 2012-08-06 The current context of developed societies is characterised by a number of phenomena the most significant of which are processes of economic globalisation information technologies increasing multiculturalism and the emergence of cases of national pluralism which require full political accommodation both within democracies and in the international sphere The book examines the current state of affairs concerning the political recognition and constitutional accommodation of national pluralism in liberal democracies in the global era of the 21st century The aim of this volume is to reveal the normative analytical and institutional shortcomings of liberal democracies in multinational contexts and to offer alternatives that theoretically refine and practically improve the recognition and political accommodation of national pluralism within the democratic polity Through a series of analyses linked to the development of political liberalism in contemporary states the contributors analyse the direct impact on the way that democracies have treated and continue to treat national pluralism in modern day societies Bringing together leading scholars in the field to explore the different

Leslie,1987      **Canada: The State of the Federation, 2012** Loleen Berdahl,André Juneau,Carolyn Hughes Tuohy,2015-07-03 Regional resource disparities and the tensions they generate are a perennial Canadian topic This edition of *Canada The State of the Federation* presents essays on regions resources and the resiliency of the Canadian federal system Contributors consider questions such as to what extent do Canada s natural resource industries benefit the Canadian economy Do Canada s federal institutions hinder or promote the ability of the economy to respond to global economic shifts Do current intergovernmental structures allow for constructive dialogue about national policy issues In responding to these and related questions many of the authors touch on energy issues Others consider the importance of functional institutions in a federal or multilevel context as an essential requirement for the effective resolution of issues Together the volume raises questions about the relationship of state and society the importance of identity trust and moral legitimacy for the operation of our federal institutions and the extent to which federal institutions are reinforced or placed under stress by societal structures The theme of this volume was triggered by Richard Simeon the outstanding scholar of federalism who passed away in October 2013 and it is dedicated in his honour      **Immigration and Self-government of Minority Nations** Ricard Zapata-Barrero,2009 During the last two decades the debate on multiculturalism has been one dimensional It has deployed arguments related to cultural demands linked either to feminism immigration or national minorities Little attention has been given to the relations between these

dimensions and how they affect each other The purpose of this book is to set a research agenda around the interaction between cultural demands of immigrants and minority nations The primary aim is to establish basic normative arguments while advancing an institutional analysis in three contexts Quebec Flanders and Catalonia Each part contains two chapters that address the topic in terms of how immigration is seen from a self government perspective or how self government is interpreted from an immigration perspective The different chapters raise questions related to how this interaction challenges the idea of a culturally homogeneous nation state and also pushes us to other conceptualisations of political community and de nationalised forms of citizenship Current debates on diversity have failed to address these issues in societies where a dual belonging exists
