## **Nationalism And Democratic Transition The Politics Of Citizenship And Language In Post Soviet Latvia:**

**Nationalism and Democratic Transition** Mark A. Jubulis, 2001 Nationalism and Democratic Transition explores the impact of nationalism during Latvia's transition from communist rule 1988-1991 and examines the post-Soviet efforts of Latvia to construct a democratic nation-state in a multi-ethnic context. While most observers have labeled Latvia as a typical example of a state promoting an exclusive form of ethnic nationalism, the author argues that Latvia's path to independence was characterized by a moderate, non-violent form of nationalism which sought to include non-Latvian groups in the struggle against Soviet rule. *Russian-speakers in post-Soviet Latvia* Ammon Cheskin, 2016-01-18 Introduction Discourse, memory and identity Latvian state and nation building Russian language, media and identity formation Examining Russian speaking identity from below The democratisation of history and generational change The primacy of politics Political discourse and identity formation The Russian Federation and Russian speaking identity in Latvia A bright future *Russian Minority Politics in Post-Soviet Latvia and Kyrgyzstan* Michele E. Commercio, 2011-06-06 The collapse of the Soviet Union suddenly rendered ethnic Russians living in non-Russian successor states like Latvia and Kyrgyzstan new minorities subject to dramatic political, economic and social upheaval. As elites in these new states implemented formal policies and condoned informal practices that privileged non-Russians, ethnic Russians had to react. In *Russian Minority Politics in Post-Soviet Latvia and Kyrgyzstan* Michele E. Commercio draws on extensive field research including hundreds of personal interviews to analyze the responses of minority Russians to such policies and practices. In particular, she focuses on the role played by formal and informal institutions in the crystallization of Russian attitudes, preferences and behaviors in these states. Commercio asks why there is more out-migration and less political mobilization among Russians in Kyrgyzstan, a state that adopts policies that placate both Kyrgyz and Russians, and less out-migration and more political mobilization among Russians in Latvia, a state that adopts policies that favor Latvians at the expense of Russians. Challenging current thinking, she suggests that the answer to this question lies in the power of informal networks. After the fall of the Soviet Union, the Communist party, Komsomol youth organization and KGB networks were transformed into informal networks. Russians in Kyrgyzstan were, for various reasons, isolated from such networks, and this isolation restricted their access to the country's private sector, making it difficult for them to create effective associations capable of representing their interests. This resulted in a high level of Russian exit and the silencing of Russian voices. In contrast, Russians in Latvia were well connected to such networks, which provided them with access to the country's private sector and facilitated the establishment of political parties and nongovernmental organizations that represented their interests. This led to a low level of Russian exit and a high level of Russian voice. Commercio concludes that informal networks have a stronger influence on minority politics than formal institutions. *Nationalism and Democracy* André Lecours, Luis Moreno, 2010-02-25 This book sheds light on the complicated, multi-faceted relationship between nationalism and democracy by examining how nationalism in various periods and contexts

*Language Communities* F. Xavier Vila, 2012-11-13 Too small to be big but also too big to be really small medium sized language communities MSLCs face their own challenges in a rapidly globalising world where multilingualism and mobility seem to be eroding the old securities that the monolingual nation states provided The questions to be answered are numerous What are the main areas in which the position of these languages is actually threatened How do these societies manage their diversity both old and new Has state machinery really become as irrelevant in terms of language policy as their portrayals often suggest This book explores the responses to these and other challenges by seven relatively successful MSLCs so that their lessons can be applied more generally to other languages striving for long term survival East European Diasporas, Migration, and Cosmopolitanism Ulrike Ziemer, Sean P. Roberts, 2013 Following the collapse of the communist regimes in Eastern Europe and the Soviet Union there were considerable migration flows the migrations and subsequent diasporas often having special characteristics given the relative lack of migration in communist times and the climate of increasing nationalism which had the potential of working against multiculturalism This book explores these migrations and diasporas and examines the nature of the associated cosmopolitanism *Cross-Regional Ethnopolitics in Central and Eastern Europe* Vassilis Petsinis, 2022-04-18 This book bridges the gap between academic researchers and policymaking experts working on the Western Balkans and those dealing with the Baltic States Within the frame of a comparative and cross regional approach Vassilis Petsinis generates new insights in subjects as diverse as how geopolitics shape the management of ethnic relations the variants of Euroscepticism opposition to immigration and LGBTQI rights the patterns of multi ethnic cohabitation as well as the endeavour by parties of the populist and radical right to embed their platforms into the longer trajectories of ethno nationalism in the countries and societies studied Estonia and Latvia from the Baltic States Croatia and Serbia from the Western Balkans This work also assesses the extent to which the centrality of ethnic cleavages can be contested temporarily effaced or ultimately transformed by the increasing significance of the economy social welfare and transparency in multi ethnic societies The book adds a sound contribution towards updating and upgrading the study of ethnopolitics not solely across Central and Eastern Europe but as a whole *Language and Identity Politics* Christina Späti, 2015-11-01 In an increasingly multicultural world the relationship between language and identity remains a complicated and often fraught subject for most societies The growing political salience of questions relating to language is evident not only in the expanded implementation of new policies and legislation but also in heated public debates about national unity collective identities and the rights of linguistic minorities By taking a comprehensive approach that considers both the inclusive and exclusive dimensions of linguistic identity across Europe and North America the studies assembled here provide a sophisticated look at one of the global era s defining political dynamics Baltic-Black Sea Regionalisms Olga Bogdanova, Andrey Makarychev, 2019-10-01 This edited volume focuses on various forms of regionalism and neighborhoods in the Baltic Black Sea area In the light of current reshaping of borderlands and new geopolitical and

military confrontations in Europe's eastern margins such as the annexation of Crimea and the war in Donbas this book analyzes different types and modalities of regional integration and region making from a comparative perspective. It conceptualizes cooperative and conflictual encounters as a series of networks and patchworks that differently link and relate major actors to each other and thus shape these interconnections as domains of inclusion and exclusion bordering and debordering securitization and desecuritization. This peculiar combination of geopolitics, ethnopolitics and biopolitics makes the Baltic Black Sea trans national region a source of inspiring policy practices and in the light of new security risks a matter of increased concern all over Europe. The contributors from various disciplines cover topics such as cultural and civilizational spaces of belonging and identity politics, the rise of right wing populism, region building under the condition of multiple security pressures and the influence and regional strategies of different external powers including the EU, Russia and Turkey on cross and trans regional relations in the area.

### **The Organization for Security and Co-operation in Europe (OSCE)**

David J. Galbreath, 2007-05-03 During the Cold War the two global superpowers were able to come together to resolve many issues of transparency and common challenges leading to a change in European and global security. The OSCE covered the area formerly occupied by NATO and the Warsaw Pact, championing the Helsinki Final Act which became a key international instrument to encourage peace and security. Following the end of the Cold War the OSCE became a key institution positioned between the European Union and NATO, focusing on furthering democracy, protecting human and minority rights and encouraging military reform in a drastically dynamic region. David J. Galbreath sheds light on an institution that changed the face of global security during the Cold War and championed the rise of democratization in Central and Eastern Europe as well as the former Soviet republics following the collapse of the Soviet Union.

Parliamentary Elites in Central and Eastern Europe Elena Semenova, Michael Edinger, Heinrich Best, 2013-12-13 Legislators are entrusted with key parliamentary functions and are important figures in the decision making process. Their behaviour as political elites is as much responsible for the failures and successes of the new democracies as their institutional designs and constitutional reforms. This book provides a comparative examination of representative elites and their role in democratic development in post communist Central and Eastern Europe (CEE). It argues that as the drivers of the transformation process in CEE, individual and collective parliamentary actors matter. The authors provide an in depth analysis of representatives from eleven national parliaments and explore country specific features of recruitment and representation. They draw on an integrated dataset of parliamentary elites for individual, party family and parliamentary variables over the 20 years following the collapse of Communism and develop a common framework for the analysis of variations in democratisation and political professionalisation between parliaments and political parties, party families across CEE. This unique volume will be of interest to students and scholars of comparative politics, elite research, post communist politics, democratisation, legislative studies and parliamentary representation.
