The Idea of Englishness Krishan Kumar, 2016-02-24 Ideas of Englishness and of the English nation have become a matter of renewed interest in recent years as a result of threats to the integrity of the United Kingdom and the perceived rise of that unusual thing English nationalism Interrogating the idea of an English nation and of how that might compare with other concepts of nationhood this book enquires into the origins of English national identity partly by questioning the assumption of its long standing existence It investigates the role of the British empire the largest empire in world history in the creation of English and British identities and the results of its disappearance Considering the myths of the English the ideas and images that the English and others have constructed about their history and their sense of themselves as a people the distinctiveness of English social thought in comparison with that of other nations the relationship between English and British identity and the relationship of Englishness to Europe this wide ranging comparative and historical approach to understanding the particular nature of Englishness and English national identity will appeal to scholars of sociology cultural studies and history with interests in English and British national identity and debates about

England's future place in the United Kingdom *Age of Coexistence* Ussama Makdisi, 2021-09-21 Flawless Makdisi reminds us of the critical declarations of secularism which existed in the history of the Middle East Robert Fisk The Independent Today's headlines paint the Middle East as a collection of war-torn countries and extremist groups consumed by sectarian rage Ussama Makdisi's *Age of Coexistence* reveals a hidden and hopeful story that counters this clichéd portrayal It shows how a region rich with ethnic and religious diversity created a modern culture of coexistence amid Ottoman reformation European colonialism and the emergence of nationalism Moving from the nineteenth century to the present this groundbreaking book explores without denial or equivocation the politics of pluralism during the Ottoman Empire and in the post-Ottoman Arab world Rather than judging the Arab world as a place of age-old sectarian animosities *Age of Coexistence* describes the forging of a complex system of coexistence what Makdisi calls the ecumenical frame He argues that new forms of antisectarian politics and some of the most important examples of Muslim-Christian political collaboration crystallized to make and define the modern Arab world Despite massive challenges and setbacks and despite the persistence of colonialism and authoritarianism this framework for coexistence has endured for nearly a century It is a reminder that religious diversity does not automatically lead to sectarianism Instead as Makdisi demonstrates people of different faiths but not necessarily of different political outlooks have consistently tried to build modern societies that transcend religious and sectarian differences

Cosmopolitan Outsiders Katherine Sorrels, 2016-10-13 This book reconstructs the intellectual and social context of several influential proponents of European unity before and after the First World War Through the lives and works of the well-known promoter of Pan-Europe Richard Coudenhove Kalergi and his less well-known predecessor Alfred Hermann Fried the book illuminates how transnational peace projects emerged from individuals who found themselves alienated from an increasingly nationalizing political climate within the Austro-Hungarian Monarchy and the new nation-states of the interwar period The book's most important intervention concerns the Jewish origins of crucial plans for European unity It reveals that some of the most influential ideas on European culture and on the peaceful reorganization of an interconnected Europe emerged from Jewish milieus and as a result of Jewish predicaments *The Statesman's Year-Book* M. Localizing Knowledge in a Globalizing World Ali

Mirsepassi, Amrita Basu, Frederick Weaver, 2003-01-01 The essays in this collection address the current crisis in area studies a crisis that differs from its perennial struggle with the established academic disciplines This crisis stems from the confluence of three related circumstances the end of the Cold War greater economic and cultural fluidity across political borders and contradictory intellectual trends in the academy which include on the one hand a renaissance of universalizing thinking in the social sciences and on the other hand the rise of post colonial studies and debates about modernity postmodernity and cultural hybridization Although the essays differ markedly in their focus and strategies the authors all demonstrate that local knowledge including serious study of individual cultures and proficiency in foreign languages which are vital to understanding rapidly changing global patterns and to countering universal claims by the social sciences While the authors also agree that area studies must reject their ethnocentric heritages and adopt inventive new contours they present a diversity

Nations Matter Craig Calhoun, 2007-04-20 Craig Calhoun one of the most respected social scientists in the world re examines nationalism in light of post 1989 enthusiasm for globalization and the new anxieties of the twenty first century Nations Matter argues that pursuing a purely postnational politics is premature at best and possibly dangerous Calhoun argues that rather than wishing nationalism away it is important to transform it One key is to distinguish the ideology of nationalism as fixed and inherited identity from the development of public projects that continually remake the terms of national integration Standard concepts like civic vs ethnic nationalism can get in the way unless they are critically re examined as an important chapter in this book does This book is essential reading for undergraduate and postgraduate students of sociology history political theory and all subjects concerned with nationalism globalization and cosmopolitanism

Arab Nationalism B. Tibi, ed, trans Marion Farouk-Sluglett, Peter Sluglett, 1990-06-29 In this new edition Professor Tibi analyses the impact and function of nationalism and its contribution to social and political change in the Third World taking the rise of nationalism in the Middle East as a historical example He concentrates on the period after the First World War when many Arab intellectuals became disillusioned with Britain and France as a result of the occupation of their countries

Professor Tibi's careful study of the writings and influence of Sati al Husri illustrates the connection between modern Arab nationalism and nineteenth century German Romantic nationalism which will be of particular interest to the English reader. Professor Tibi concludes that while nationalism has played a necessary and important role in the movement for national independence in the Middle East it has since developed into an ideology which seems to obstruct further social and political emancipation. This book will be of particular interest to historians and social scientists as well as to specialists in the area itself.

The Shi'ites of Lebanon Rula Jurdi Abisaab, Malek Abisaab, 2014-12-09 The complex history of Lebanese Shi'ites has traditionally been portrayed as rooted in religious and sectarian forces. The Abisaabs uncover a more nuanced account in which colonialism, the modern state, social class and provincial politics profoundly shaped Shi'i society. The authors trace the sociopolitical, economic and intellectual transformation of the Shi'ites of Lebanon from 1920 during the French colonial period until the late twentieth century. They shed light on the relationship of contemporary Islamic militancy with traditions of religious modernism and leftism in both Lebanon and Iraq. Analyzing the interaction between sacred and secular features of modern Shi'ite society, the authors clearly follow the group's turn toward religious revolution and away from secular activism. This book transforms our understanding of twentieth century Lebanese history and demonstrates how the rise of Hizbullah was conditioned by Shi'ites' consistent marginalization and neglect by the Lebanese state.
