

Nationalism vs. Internationalism

- “Foreign policy is how a nation best expresses itself to the world. Our policies as a government, reflecting our beliefs as Canadians, are articulated through the words we speak, the decisions we make and the actions we implement in the name of Canada.”
 - Prime Minister Stephen Harper <http://geo.international.gc.ca/cip-pic/ips/ips-overview2-en.aspx>
- Internationalism promotes belief in the importance of cooperation among countries in order to promote the common good for all countries in both social and economic terms.

Nationalism and Internationalism in the Post-Cold War Era Kjell Goldmann, Ulf Hannerz, Charles Westin, 2012-12-06

The tension between nationalism and internationalism has been a major feature of world politics since the end of the Cold War. Based on a Nobel symposium, this collection brings together an international selection of acclaimed authors from a wide variety of academic disciplines. The book combines focused case studies and more theoretically based material to examine critically the post-Cold War political landscape. Subjects covered include changing interpretation of the nation state and nationalism, the growing prominence of transnational organisations, technological changes in information communication and transport, multiculturalism and citizenship, ethnicity and religious identity in African, Indian, Bosnian and Polish nationalism, the growing global significance of Islam.

Nationalism and Internationalism in Imperial Japan

Dick Stegewerns, 2005-07-27 Throughout the history of modern Japan there has been a continuous struggle to create an integrated conception of how a politically and/or culturally autonomous Japan might relate to a pluralistic and interactive world. The aim of this study is to scrutinise nationalist and internationalist rhetoric by means of comparatively constant factors such as personal views of humanity, civilisation, progress, the nation and the outside world, and thus to develop new approaches towards the question of the relationship between Japanese nationalism and internationalism. This project brings together a group of comparatively young scholars who analyse how different generations of opinion leaders in the Japanese pre-war modern era tried to solve what they perceived as the dilemma of nationalism and internationalism.

Nationalism and Internationalism Intertwined Pasi Ihalainen, Antero Holmila, 2022-03-11 It is commonplace that the modern world is more international than at any point in human history. Yet the sheer profusion of terms for describing politics beyond the nation state, including international, European, global, transnational and cosmopolitan among others, is but one indication of how conceptually complex this field actually is. Taking a wide view of internationalism in Europe since the eighteenth century, *Nationalism and Internationalism Intertwined* explores discourses and practices to challenge nation-centered histories and trace the entanglements that arise from international cooperation. A multidisciplinary group of scholars in history, discourse studies and digital humanities asks how internationalism has been experienced, understood, constructed, debated and redefined across different European political cultures as well as related to the wider world.

Nationalism and Internationalism in the Young Ecumenical Movement, 1895-1920s Judith Becker, Dana L. Robert, 2025-03-18 This book explores how and why global Protestant movements have been foundational for studies of internationalism. During the

early twentieth century hopes for the peaceful coexistence of nations animated emerging international Protestant cooperation Despite national hostilities including world war commitment to global Christian fellowship became an urgent public agenda In this volume essays by European Asian and North American scholars locate the essence of the young ecumenical movement in the dynamic tension between nationalism and internationalism during the early twentieth century Political crises crushing disappointments and imperialist ambitions notwithstanding transnational Protestant leaders networks and movements envisioned Christianity as a contemporary multi cultural worldwide community *Nationalism in Internationalism* Michael Holmes, Kathryn Simpson, 2023-01-01 This book interprets the relationship between Ireland and the European Union EU We are coming up to 50 years since Ireland acceded to the EU 2023 and the links between the two are unique and distinctive The volume presents an original interpretation of Irish EU relations and this in turn has implications for a wider understanding of the EU Its aim is to analyse the Irish EU relationship from the idea of two apparently contradictory political ideas internationalism as represented by European integration in this particular instance and nationalism long the dominant value in Irish politics The authors argue that to date the contradictions have been managed with considerable ease leading us to characterise the Irish EU relationship as nationalism within internationalism

between two trends loyalty to the nation state and to the wider loyalty of the ummah The cold war is over and yet thanks to the clash of ideas and the conflict of ethnic and national loyalties the world might be heading for a major re shaping of its political map This study seeks to come into grips with the dilemma of nationalism versus internationalism in three major traditions of the world liberalism Marxism and Islam The work underscores the necessity of a genuine international understanding and dialogue as a necessary step towards building a more peaceful world order

Internationalism in the Age of Nationalism Glenda Sluga, 2013-03-16 The twentieth century a time of profound disillusionment with nationalism was also the great age of internationalism To the twenty first century historian the period from the late nineteenth century until the end of the Cold War is distinctive for its nationalist preoccupations while internationalism is often construed as the purview of ideologues and idealists a remnant of Enlightenment era narratives of the progress of humanity into a global community Glenda Sluga argues to the contrary that the concepts of nationalism and internationalism were very much entwined throughout the twentieth century and mutually shaped the attitudes toward interdependence and transnationalism that influence global politics in the present day

Internationalism in the Age of Nationalism traces the arc of internationalism through its rise before World War I its apogee at the end of World War II its reprise in the global seventies and the post Cold War nineties and its decline after 9 11 Drawing on original archival material and contemporary accounts Sluga focuses on specific moments when visions of global community occupied the liberal political mainstream often through the maneuvers of iconic organizations such as the League of Nations and the United Nations which stood for the sovereignty of nation states while creating the conditions under which marginalized colonial subjects and women could make their voices heard in an international arena In this retelling of the history of the twentieth century conceptions of sovereignty community and identity were the objects of trade and reinvention among diverse intellectual and social communities and internationalism was imagined as the means of national independence and national rights as well as the antidote to nationalism This innovative history highlights the role of internationalism in the

evolution of political economic social and cultural modernity and maps out a new way of thinking about the twentieth century
