Cohen, 2000-04-21 An increased awareness of the importance of minority and subjugated voices to the histories and narratives which have previously excluded them has led to a wide spread interest in the effects of colonization and displacement This collection of essays is the first to apply post colonial theory to the Middle Ages and to critique that theory through the excavation of a distant past The essays examine the establishment of colony empire and nationalism in order to expose the mechanisms of oppression through which aboriginal native or simply pre existent cultures are displaced eradicated or transformed *Nationalism in the Middle Ages* Leon Comp Tipton, 1972 **Germans and Poles in the Middle Ages**, 2021-08-16 This volume examines mutual ethnic and national perceptions and stereotypes in the Middle Ages by analysing a range of narrative historical sources such as chronicles hagiography and literary material with a particular focus on the mutual history of Germany and Poland What sorts of stereotypes and prejudices existed in the Middle Ages and how widespread were they Or what other types of differentiating features were considered and why The majority of the contributions clearly shows that medieval authors in general displayed only limited interest in the activities of neighbouring lands and only then when it concerned their own interests such as matters of conflict diplomacy or marriage while criticism usually focused on individuals rather than being generalised to bordering regions as a whole Contributors are Isabelle Chwalka Jarochna D browska Burkhardt Stephan Flemmig S awomir Gawlas Georg Jostkleigrew David Kalhous Norbert Kersken Paul Martin Langner Roman Micha owski Wojciech Mrozowicz Piotr Okni ski Andrzej Pleszczy ski Volker Scior Florian M Schmid Marcin Starzy ski Adam Szweda Kristin Skottki Grischa Vercamer and Thomas W nsch Reconstructing the Middle Ages Carolina Armenteros, 2009-05-27 Reconstructing the Middle Ages looks at nineteenth century medievalism in France using as a case study Gaston Paris philologist literary critic and professor of medieval studies Gaston Paris s method traditionally seen as a combination of romanticism and positivism exemplifies several elements of nineteenth century

medievalism in the Parisian academia in late nineteenth century France The text investigates Gaston Paris's theories about three medieval literary genres epic fabliaux and Arthurian tales to understand how Paris's view of medieval literature and history cross related with nationalism at a time when France was particularly vulnerable and at which French academics were especially eager to make a long lasting contribution Examining the work of Gaston Paris and his interaction with other scholars in the Parisian milieu *Reconstructing the Middle Ages* offers a look at academic medievalism and the history philology linguistics and literary and textual criticism in late nineteenth century France In particular the book shows that when it comes to the self image of France medievalism was a topic that reached far beyond the walls of academia as it was related to national pride memory and identity *Origins of Modern Europe; Medieval National Consciousness* Abida Shakoork,2004 This Book Covers Various Topics Concerning Modern European History In Spite Of The Author's Artistically Simple Writing Style The Treatment Given To Various Topics Is Indepth And Scholarly Besides The Incidents And Episodes Addressing To Important Historical Figures Movements Struggles Dreams And Aspirations Of Common Man Are Also Highlighted In This Book All The Events Dealt With Are In Fact Forming A Sequence Targeting Towards Contemporary Socio Political Scenario The Present Book Would Be Of Great Use To Research Scholars Students And Teachers Interested In European History It Would Definitely Fill The Gap In The Literature Concerning Modern Europe The Middle Ages without Feudalism Susan Reynolds,2018-02-06 This volume brings together articles including two hitherto unpublished pieces that Susan Reynolds has written since the publication of her *Fiefs and Vassals* 1994 There she argued that the concepts of the fief and of vassalage as generally understood by historians of medieval Europe were constructed by post medieval historians from the works of medieval academic lawyers and the writers of medieval epics and romances Six of the essays reprinted here continue her argument that feudalism is unhelpful to understanding medieval society while eight more discuss other aspects of medieval society law and politics which she argues provide a better insight into the history of western Europe in the Middle Ages Three range outside the Middle Ages and western Europe in considering the idea of the nation the idea of empire and the problem of finding a consistent and comprehensible vocabulary for comparative and interdisciplinary history *'The Slippery Memory of Men'* Paul Milliman,2013-01-11 The Slippery Memory of Men analyzes how during the early fourteenth century a discourse of eternal enmity was created between the Teutonic Knights and the rulers of Poland as these former allies contended over the disputed region of Pomerania **Studies in Medieval Legal Thought** Gaines Post,2015-12-08 This volume brings together eleven articles by a distinguished medieval scholar The major emphasis is on legal thought that resulted from the revival of Roman law at Bologna and on the influence this thought had on medieval constitutionalism Includes such important studies as *A Romano Canonical Maxim Quod Omnes Tangit* in Bracton and *Status Regis* and *Lestat du Roi* in the Statute of York Originally published in 1964 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton

Transnationalism(s) ,2018-10-16 Goethe in 1827 famously claimed that national literatures did not mean very much anymore and that the epoch of world literature was at hand Since the turn of the twenty first century in the so called transnational turn in literary studies interest in world literature and in how texts move beyond national or linguistic boundaries has peaked The authors of the 18 articles making up *Literary Transnationalism* s reflect on how literary texts move between cultures via translation adaptation and intertextual referencing thus entering the field of world literature The texts and subjects treated range from Caribbean American and Latin American literature to European migrant literatures from the uses of pseudo translations to the organizing principles of world histories of literature from the dissemination of knowledge in the middle ages to circulation of literary journals and series in the nineteenth and twentieth centuries Contributors include amongst others Jean Bessière Johan Callens Reindert Dhondt César Domínguez Erica Durante Ottmar Ette Kathleen Gyssels Reine Meylaerts and Djelal Kadir Authors discussed comprise amongst others Carlos Fuentes Ernest Hemingway Edouard Glissant **Shakespeare and the Middle Ages** Curtis Perry,John Watkins,2009-05-07 *Shakespeare and the Middle Ages* brings together a distinguished multidisciplinary group of scholars to rethink the medieval origins of modernity Shakespeare provides them with the perfect focus since his works turn back to the Middle Ages as decisively as they anticipate the modern world almost all of the histories depict events during the Hundred Years War and King John glances even further back to the thirteenth century Angevins several of the comedies tragedies and romances rest on medieval sources and there are important medieval antecedents for some of the poetic modes in which he worked as well Several of the essays reread Shakespeare by recovering aspects of his works that are derived from medieval traditions and whose significance has been obscured by the desire to read Shakespeare as the origin of the modern These essays taken cumulatively challenge the idea of any decisive break between the medieval period and early modernity by demonstrating continuities of form and imagination that clearly bridge the gap Other essays explore the ways in which Shakespeare and his contemporaries constructed or imagined relationships between past and present Attending to the way these writers thought about their relationship to the past makes it possible in turn to read against the grain of our own teleological investment in the idea of early modernity A third group of essays reads texts by Shakespeare and his contemporaries as documents participating in social cultural transformation from within This means attending to the way they themselves grapple with the problem of change attempting to respond to new conditions and pressures while holding onto customary habits of thought and imagination Taken together the essays in this volume revisit the very idea of transition in a refreshingly non teleological way Chaucer's Cultural Geography Kathryn L. Lynch,2013-10-15 This compilation of new essays and essays published

over the past fifty years explores Chaucer's experiences with the cultural other especially Chaucer's relationship to Far Eastern Islamic and African sources While studies of Chaucer's orientalism have heretofore focused on the Squire's Tale Chaucer's Cultural Geography considers many different Chaucerian works in the context of sexual geographies and colonizing and postcolonizing discourses It comes at a time when critical methodology is being debated and a variety of approaches to Chaucer studies using modes of analyses normally reserved for later periods including Said's orientalism theories Dollimore's transgressive proximity and new French feminism Moreover the book fits well into the new emphasis in the Chaucer curriculum on globalism and multiculturalism **Scotland and Its Neighbours in the Middle Ages** G. W. S. Barrow, 1992-01-01 A detailed study of Scottish diplomacy and foreign affairs during the turbulent medieval centuries
