Nationalism In Sri Lanka Genesis And Evolution:

Nationalism in Sri Lanka Krishan Gopal, 2000 This Study Examines In Depth The Process Of Transformation Of Sri Lanka S Composite Nationalism Into Divisive Nationalism Focuses On The Factors And Forces Responsible For This Transformation And Analyses The Contemporary Crisis In Sri Lanka Against This Back Ground *Peaceful Intervention in Intra-State Conflicts* Chanaka Talpahewa, 2016-03-03 Have we reached an end to the era of peaceful third party intervention in conflict management and resolution In the 1990s with the ending of the Cold War the intervention of third parties as a non violent means of negotiating settlements of intra state conflicts gained prominence but the emphasis in the twenty first century has been increasingly on military responses Peaceful Intervention in Intra State Conflicts Norwegian Involvement in the Sri Lankan Peace Process is an in depth impartial discussion on the background decision making processes and procedures and related actions in the Norwegian facilitated peace process in Sri Lanka that gradually shifted towards a military solution It provides the reader with evidence based comprehensive analysis on the attempts of peaceful third party intervention in a complex ethno separatist intra state conflict *Disaggregating Diasporas as a Force in Role Contestation* Matthew K. Godwin, 2022-09-15 Using a Role Theory lens this book investigates Tamil diaspora mass movements and interest groups as marginalised forces of domestic foreign policy influence Until now Role Theory has not considered diaspora mass movements as collective action actors nor looked at how marginalised diasporas influence elite foreign policy decision making Matthew K Godwin employs a comparative micro level decision making narrative that looks incisively at decisions faced by the British and Canadian governments in 2009 and 2013 towards the Sri Lankan civil war and its aftermath Through qualitative elite level interviews and content analysis of other primary source data Godwin convincingly argues that when diaspora interest group elites are leveraging the power of mass movements in concert with credible partisan advocates they can influence role contestation However international institutional constraints on role behaviour may stymie their preferred role performance especially if states are indispensable to the institutions their behaviour may unravel Ultimately Godwin concludes that some states can t behave badly even when they want to This book will be of interest to students and researchers of International Relations Foreign Policy Analysis Comparative Politics Migration Studies and to non government organisations who seek to influence governments *Electoral Politics in Sri Lanka* S. Keethaponcalan, 2022-07-21 This volume examines and analyses electoral politics in Sri Lanka through the theoretical framework of manipulation The following questions guided the study how do political actors manipulate elections and what are the salient features of electoral politics in Sri Lanka Primary and secondary data formed the basis of the analysis examining eight presidential elections The research findings indicated that Sri Lankan governments political parties and political leaders have taken advantage of six types of electoral manipulation including constitutional tinkering field fixing time fixing vote suppression process manipulation and resource manipulation Through a close examination of eight presidential elections research carried

out for the volume found that elections are often associated with violence presidential elections are mainly a majoritarian affair in which minority communities play only a marginal role there is a significant gender imbalance as women's participation in the electoral process is very limited despite the presence of a large number of candidates contesting the election it always remains a two way race and amid extensive manipulation and other problems voter participation tends to be high This volume will be a valuable resource for students academics and researchers who focus on democracy good governance electoral studies and South Asian politics and history and will enhance the conceptual foundation of democracy advocates and activists

The Genesis of Baloch Nationalism Salman Rafi Sheikh, 2018-04-27 This book explores the ideological political and military interventions of the state of Pakistan in Balochistan and traces the genesis of today's secessionist movement It delves into the historical question of Balochistan's integration into Pakistan in 1947 and brings out the true political and militant character of the movement during the first three decades 1947-77 of Pakistan's existence as a nation state It shows how the Baloch as well as other minority groups were denied the right to identify themselves as a sub national ethnic group in the new nation state compounded by a systematic exclusion from decision making circles and structures of political and economic power The volume also traces political resistance from within Balochistan and its subsequent suppression by military operations leading to a widespread militant insurgency in the present day Drawing on hitherto unexplored sources this book will be indispensable to scholars and researchers of South Asian history politics international relations and area studies

Das, 2016-10-27 Linguistic Rivalries weaves together anthropological accounts of diaspora nation and empire to explore and analyze the multi faceted processes of globalization characterizing the migration and social integration experiences of Tamil speaking immigrants and refugees from India and Sri Lanka to Montr al Qu bec in the late twentieth and early twenty first centuries In Montr al a city with more trilingual speakers than in any other North American city Tamil migrants draw on their multilingual repertoires to navigate longstanding linguistic rivalries between anglophone and francophone and Indian and Sri Lankan nationalist leaders by arguing that Indians speak Spoken Tamil and Sri Lankans speak Written Tamil as their respective heritage languages Drawing on ethnographic archival and linguistic methods to compare and contrast the communicative practices and language ideologies of Tamil heritage language learning in Hindu temples Catholic churches public schools and community centers this book demonstrates how processes of sociolinguistic differentiation are mediated by ethnonational religious class racial and caste hierarchies Indian Tamils showcase their use of the cosmopolitan sounds and scripts of colloquial varieties of Tamil to enhance their geographic and social mobilities whereas Sri Lankan Tamils dispossessed of their homes by civil war instead emphasize the primordialist sounds and scripts of a pure literary Tamil to rebuild their homeland and launch a global critique of racism and environmental destruction from the diaspora This book uses the ethnographic and archival study of Tamil mobility and immobility to expose the mutual constitution of elite and non elite global modernities defined as language

Ilāṅkai Tēciya Nūrpattiyal ,2000 **Legends of People, Myths of State** Bruce Kapferer,2011-12-01 The civil war in Sri Lanka and the part that nationalism seemed to play in it inspired the writing of this book some twenty three years ago The argument was developed through a comparative analysis of nationalism in Sri Lanka with the author s native Australia At the time this constituted an innovative approach to comparison in anthropology as well as to nationalism and its possibilities It was not based on differences but on the way in which perspectives from within the two nationalisms when seen side by side could present an understanding of their implication in producing the violence of war racism and social exclusion The book has lost none of its importance and

urgency as proven by the chapters in the Appendix written by top scholars working in Sri Lanka and in Australia These contributions bring together new material and critically explore the book s themes and their continued relevance to the various trajectories in nationalist processes since the first publication of the book *States, Nations, Sovereignty* Sumantra Bose,1994-09-06 This volume not only gives a clear account of the development of the Tamil nationalist movement in Sri Lanka but uses the account to explore the relationship between state power and national consciousness The comparative focus incisive analysis and adroit blending of the theoretical and the practical illuminate the worldwide confrontation of state and nation and movements for autonomy and self determination Bose provides a key to the study of modern nationalism comparative politics and international relations around the world
