Nationality Color And Economic Opportunity In The City Of Buffalo:

Nationality, Color, and Economic Opportunity in the City of Buffalo Niles Carpenter, 1927 **Nationality, Color, and Economic Opportunity in the City of Buffalo** Niles Carpenter, 1927 *Poverty, Ethnicity and the American City, 1840-1925* David Ward, 1989-02-24 David Ward examines the geographical relationship between migrants and the inner city and the creation of slums and ghettos *University of Buffalo Studies*, 1926 **Beyond the Typewriter** Sharon Hartman Strom, 1992 By World War I managers wanted young women with some high school education for new light manufacturing jobs in the office Women could be paid significantly less than men with equivalent educations and the marriage bar the practice of not hiring or retaining married women ensured that most of them would leave the workplace before the issue of higher salaries arose Encouraged by free training gained in high schools and by working conditions better than those available in factories young working class women sought out office jobs Facing sexual discrimination in most of the professions and higher level office jobs middle class women often found themselves falling into clerical positions Sharon Hartman Strom details office working conditions and practices drawing upon archival and anecdotal data She analyzes women office workers ambitions and explores how the influences of scientific management personnel management and secondary vocational education affected office workplaces and hierarchies Strom illustrates how businessmen manipulated concepts of scientific management to maintain male dominance and professional status and to confine women to supportive positions She finds that women s responses to the reorganized workplace were varied although they were able to advance professionally in only limited ways they used their jobs as a means of pursuing friendships education and independence

Desegregation in Boston and Buffalo Steven J. L. Taylor, 1998-09-03 Desegregation in Boston and Buffalo examines how the citizens and the political leadership of the two cities dealt with controversial court orders to end the segregation of public schools Although the cities shared many similarities they witnessed very dissimilar outcomes Taylor covers key factors such as inter ethnic relations and the struggle of various ethnic groups for political empowerment and focuses on the political development of African American communities in urban environments and the role of Black elected leadership in helping to diffuse potentially volatile situations THE NEGRO IN THE INDUSTRIES OF DETROIT, Glen Everett Carlson, 1929 For Jobs and Freedom Robert H. Zieger, 2014-04-23 Whether as slaves or freedmen the political and social status of African Americans has always been tied to their ability to participate in the nation s economy Freedom in the post Civil War years did not guarantee equality and African Americans from emancipation to the present have faced the seemingly insurmountable task of erasing pervasive public belief in the inferiority of their race For Jobs and Freedom Race and Labor in America since 1865 describes the African American struggle to obtain equal rights in the workplace and organized labor s response to their demands Award winning historian Robert H Zieger asserts that the promise of jobs was similar to the forty acres and a mule restitution pledged to African Americans during the Reconstruction era The inconsistencies between rhetoric and action

encouraged workers both men and women to organize themselves into unions to fight against unfair hiring practices and workplace discrimination. Though the path proved difficult, unions gradually obtained rights for African American workers with prominent leaders at their fore. In 1925, A. Philip Randolph formed the first black union, the Brotherhood of Sleeping Car Porters, to fight against injustices committed by the Pullman Company, an employer of significant numbers of African Americans. The Congress of Industrial Organizations (CIO) emerged in 1935 and its population quickly swelled to include over 500,000 African American workers. The most dramatic success came in the 1960s with the establishment of affirmative action programs, passage of the Civil Rights Act of 1964, and Title VII enforcement measures prohibiting employer discrimination based on race. Though racism and unfair hiring practices still exist today, motivated individuals and leaders of the labor movement in the nineteenth and twentieth centuries laid the groundwork for better conditions and greater opportunities. Unions with some sixteen million members currently in their ranks continue to protect workers against discrimination in the expanding economy. *For Jobs and Freedom* is the first authoritative treatment in more than two decades of the race and labor movement, and Zieger's comprehensive and authoritative book will be standard reading on the subject for years to come.

The Publishers Weekly, 1918 **Municipal Index**, 1928 *Boots of Leather, Slippers of Gold* Elizabeth Lapovsky Kennedy, Madeline D. Davis, 2014-05-09 *Boots of Leather, Slippers of Gold* traces the evolution of the lesbian community in Buffalo, New York, from the mid 1930s up to the early 1960s. Drawing upon the oral histories of 45 women, it is the first comprehensive history of a working-class lesbian community. These poignant and complex stories show how black and white working-class lesbians, although living under oppressive circumstances, nevertheless became powerful agents of historical change. Kennedy and Davis provide a unique insider's perspective on butch/fem culture and argue that the roots of gay and lesbian liberation are found specifically in the determined resistance of working-class lesbians. This 20th anniversary edition republishes the book for a new generation of readers. It includes a new preface in which the authors reflect on where the last 20 years have taken them. For anyone interested in lesbian life during the 1940s and 1950s or in the dynamics of butch/fem culture, this study remains the one that set the highest standard for all oral histories and ethnographies of lesbian communities anywhere.

Working Toward Whiteness David R. Roediger, 2006-08-08 How did immigrants to the United States come to see themselves as white? David R. Roediger has been in the vanguard of the study of race and labor in American history for decades. He first came to prominence as the author of *The Wages of Whiteness*, a classic study of racism in the development of a white working class in nineteenth-century America. In *Working Toward Whiteness*, Roediger continues that history into the twentieth century. He recounts how ethnic groups considered white today, including Jewish, Italian, and Polish Americans, were once viewed as undesirables by the WASP establishment in the United States. They eventually became part of white America through the nascent labor movement, New Deal reforms, and a rise in home buying. Once assimilated as fully white, many of them adopted the racism of those whites who formerly looked down on them as inferior. From ethnic slurs

to racially restrictive covenants the real estate agreements that ensured all white neighborhoods Roediger explores the mechanisms by which immigrants came to enjoy the privileges of being white in America A disturbing necessary masterful history Working Toward Whiteness uses the past to illuminate the present In an Introduction to the 2018 edition Roediger considers the resonance of the book in the age of Trump showing how Working Toward Whiteness remains as relevant as ever even though most migrants today are not from Europe *The Marcus Garvey and Universal Negro Improvement Association Papers, Vol. X* Marcus Garvey,1983 Volume 10 in The Marcus Garvey and Universal Negro Improvement Association Papers *Cleaning Up* Alana Erickson Coble,2020-11-25 Over the course of the 20th century American domestic service changed from an occupation with a hierarchical top down structure to one in which relationships were more negotiated Many forces shaped this transformation shifts in women s role in society both at home and in the work force changes in immigration laws and immigrant populations and the politicization of the occupation Moreover domestic workers themselves took advantage of the resulting circumstances to demand better treatment and a say in their working conditions
