**The Library as an Agency of Culture** Thomas Augst, Wayne A. Wiegand, 2001 This is a special issue of the journal American Studies Ten papers examine the role of libraries in the communities they serve and in the lives of readers They specifically discuss the library s relationship to noise elitism democracy health and gender Particular attention is given to the library s position in different parts of the United States and during different historical periods Contributors include scholars of American studies library science English history and communication There is no index There s a small discrepancy in the title shown on the cover and the one on the title page which reads The Library as an Agency of Culture Annotation c 2003 Book News Inc Portland OR booknews com      **National Magazine** ,1909      **Towards a General Theory of Classifications** Daniel Parrochia, Pierre Neuville, 2013-05-14 This book is an essay on the epistemology of classifications Its main purpose is not to provide an exposition of an actual mathematical theory of classifications that is a general theory which would be available to any kind of them hierarchical or non hierarchical ordinary or fuzzy overlapping or non overlapping finite or infinite and so on establishing a basis for all possible divisions of the real world For the moment such a theory remains nothing but a dream Instead the authors essentially put forward a number of key questions Their aim is rather to reveal the state of art of this dynamic field and the philosophy one may eventually adopt to go further To this end they present some advances made in the course of the last century discuss a few tricky problems that remain to be solved and show the avenues open to those who no longer wish to stay on the wrong track Researchers and professionals interested in the epistemology and philosophy of science library science logic and set theory order theory or cluster analysis will find this book a comprehensive original and progressive introduction to the main questions in this field      **Library of Congress Information Bulletin** ,1996      The National Magazine ,1899      *The Library of Congress* Jane Aikin, 2025 This is the first comprehensive history of the Library of Congress that is not merely about one aspect or another e g buildings ornamentation collections timeline highlights Jane Aikin engages deeply with a wealth of primary and secondary sources to weave a narrative of the individuals events and controversies that have shaped this venerable institution Drawing millions of visitors a year the Library serves as the research arm of Congress the home of the U S Copyright Office and as a public forum for artistic and literary culture Never designated by law as the national library of the United States it nonetheless occupies that place in the national imagination This history of 13 male Librarians culminates in 2016 with the swearing in of Carla Hayden the first woman and first African American Librarian of Congress The narrative is punctuated by stories of key donors and pivotal performances by poets authors and celebrities      The Nation ,1895      **Life of Henry David Thoreau** Henry S. Salt, 1993 Henry Salt abandoned his mastership at Eton in the 1880s to devote himself to causes including vegetarianism socialism animals rights conservation and prison reform He remained a literary critic of distinction publishing in 1890 the initial version of Thoreau s Life With the help of American friends he revised the book and published it anew in 1896 This

third version never before published gives us Salt's final reading of Thoreau based on important works published up to 1908 including Thoreau's complete Journal. Combining a concise narrative of Thoreau's life with a perceptive treatment of his ideas and writings, it stands as a penetrating study of Thoreau stressing his distinctive individuality. Through analysis of the text and a concise biography, the editors illustrate Salt's growth as a scholar and his changing views on Thoreau and Thoreau's philosophy. The introduction details Salt's significant stylistic improvements to the 1908 edition as well as the inclusion of anecdotes and facts gathered from Samuel Arthur Jones, F. B. Sanborn, Ernest W. Vickers, Raymond Adams, Fred Hosmer, and Gandhi. This volume is made complete with Salt's updated bibliography and an index by the editors. It will appeal to scholars of Thoreau and to readers interested in Thoreau, American Transcendentalism, or American literature.

The Development Of The Chinese Collection In The Library Of Congress Shu Chao Hu, 2019-07-11 This is the first comprehensive and in-depth study of the Chinese collection in the Library of Congress, the largest collection of its kind in the Western world. Started in 1869 with some 950 books received in the first exchange of publications between the United States and China, the collection has grown so steadily that in 1977 it numbered more than 430,000 volumes, including 2,000 rare Chinese items, some of which were printed in A.D. 975. In this primarily historical study, Professor Hu examines the social, cultural, and political forces that led to the development and growth of the collection, the acquisitions policies followed, and the sources of personal and financial support found within and outside the Library of Congress. He also explores the methods by which the library has built up several strong areas in the collection, particularly those of Chinese gazetteers or local histories, ts'ung shu, or collections of reprints and rare works.

**The International Year Book**, 1902 *Personal Versus Private* Peter H. Sezzi, 2005 *Personal vs Private* is the first comprehensive bibliography of works written about the records, documents, and papers of our nation's chief executive.

**Librarianship in Gilded Age America** Leonard Schlup, Stephen H. Paschen, 2009-10-21 The gilded age was a formative period in the development and extension of American libraries. Between 1868 and 1901, the field of librarianship saw many notable changes, including the founding of the American Library Association, the introduction of the Dewey decimal classification system, and the establishment of the pioneer library school at Columbia University, among other key developments. This book brings together the writings of foundational figures in Gilded Age librarianship, including Charles Ammi Cutter, Melvil Dewey, Andrew Carnegie, and Richard Rogers Bowker. Featuring seminal works of library scholarship alongside previously unpublished letters and reprints of long-forgotten journal articles, the book places each selection in chronological order and includes an introductory narrative for each entry.
