Native Peoples Of New Guinea:

Native Peoples of the World Steven L. Danver, 2015-03-10 This work examines the world's indigenous peoples, their cultures, the countries in which they reside and the issues that impact these groups **The Native Peoples of New Guinea; No. 9** Matthew Williams 1896-1975 Stirling, 2021-09-09 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant **The Native Peoples of New Guinea** Matthew Williams Stirling, 1948 **Human Rights of Indigenous Peoples** Cynthia Cohen, 2023-09-20 Human Rights of Indigenous Peoples approaches this complex subject from two directions: first, the existing framework of international law, both actual and potential, as embodied in the relevant provisions of international conventions and the case law of international tribunals; and second, specific issues that arise between indigenous peoples in the United States, Canada, Latin America, Scandinavia, India, and Australia, and the states which exercise jurisdiction in their homelands. This book, by a leading authority on children's rights, is a major contribution to an area of international law that attracts more attention each year and that many human rights advocates see as a critical testing ground for the genuineness of states' humanitarian rhetoric. Published under the Transnational Publishers imprint *Indigenous Peoples* Victoria R. Williams, 2020-02-24 The book is an essential resource for those interested in investigating the lives, histories, and futures of indigenous peoples around the world. Perfect for readers looking to learn more about cultural groups around the world, this four-volume work examines approximately 400 indigenous groups globally. The encyclopedia investigates the history, social structure, and culture of peoples from all corners of the world, including their role in the world, their politics, and their customs and traditions. Alphabetically arranged entries focus on groups living in all world regions, some of which are well known with large populations and others that are lesser known with only a handful of surviving members. Each entry includes sections on the group's geography and environment, history and politics, society, culture, and tradition, access to health care and education, and threats to survival. Each entry concludes with See Also, cross references, and a list of Further Reading resources to guide readers in their research. Also included in the encyclopedia are Native Voices inset boxes allowing readers a glimpse into the daily lives of members of these indigenous groups, as well as an appendix featuring the United Nations Declaration on the Rights of Indigenous Peoples **Fossil Fuels, Oil Companies, and Indigenous Peoples** Tobias Haller, 2007 Fossil Fuels, Oil Companies, and Indigenous Peoples is

a study of oil production that focuses on the places from which oil is extracted and on the problems both environmental and human created in those places Global public awareness of the devastating impact of oil extraction on local communities has grown considerably in recent years due in large part to Ken Saro Wiwa's work on behalf of the Ogoni in south eastern Nigeria and his death in 1995 at the hands of Nigeria's military dictatorship This volume consists of eight case studies all of them examining these questions What can indigenous people do when faced with the destruction of their natural and social habitats And how do oil companies respond to the various forms of local and indigenous resistance to their activities The eight case studies deal with oil producing regions in Alaska Ecuador Venezuela Peru Colombia Nigeria Papua New Guinea and West Siberia and encompass 18 indigenous population groups
