understanding among a divided people and facilitating the construction of South Africa's new democracy. Other books on the TRC and deliberative rhetoric in contemporary South Africa emphasize the achievement of reconciliation during and in the immediate aftermath of the transition from apartheid. *From Apartheid to Democracy* in contrast considers the varied complex and enduring effects of the Commission's rhetorical wager. It is the first book-length study to analyze the TRC through such a lens. Katherine Elizabeth Mack focuses on the dissension and negotiations over difference provoked by the Commission's process especially its public airing of victims and perpetrators' truths. She tracks agonistic deliberation evidenced in the TRC's public hearings into works of fiction and photography that extend and challenge the Commission's assumptions about truth, healing, and reconciliation. Ultimately Mack demonstrates that while the TRC may not have achieved all of its political goals, its very existence generated valuable deliberation within and beyond its official process.
