Native African Races and Culture James Weldon Johnson, 2015-06-12 Excerpt from *Native African Races and Culture* We are glad to add to the Occasional Papers published by the Trustees of the John F Slater Fund this brief treatment of a large and difficult subject It seems to me that Dr Johnson has handled the matter not only clearly and concisely but very interestingly In spite of the increasing number of publications the general ignorance of most of us in America in regard to Africa is as dense and dark as the great Continent was once supposed to be I know how great was my ignorance of the history and present conditions of the Negro Peoples of Africa until a visit and consequent readings brought me some knowledge and many surprises This publication is issued in the hope that it will help to increase or correct our knowledge and widen our view of a story which may be said to branch over to America About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *Native African Races and Culture (Classic Reprint)* James Weldon Johnson, 2017-12 Excerpt from *Native African Races and Culture* But it is in the most rudimentary adjustments to climate and geographic peculiarities that the genius of the native races is shown Dowd tells how the Bushmen living in the waterless Kalahari desert and having often to go without water for several days made even this environment yield them liquid When they came to the dried bed of a river or pond in pursuit of game they would take a long reed and make a primitive filter by tying long grass around one end of this tube They would then push the filter end as deep as possible into the muddy soil allowing the water to slowly penetrate the filter The water would then be drawn up by suction and discharged into an egg shell About the Publisher Forgotten Books publishes hundreds of
