Native America and the Evolution of Democracy Bruce E. Johansen, 1999-03-30 During the late years of the 20th century the issue of Native American influence on the formation of the U S government has become a hotly debated topic as well as a central point of difference in trenchant arguments over multiculturalism and political correctness While conservative political commentators dismiss the idea out of hand debate over the subject is prominent in many academic fields including law American history women s studies political science and anthropology as well as Native American studies Johansen s earlier bibliography cited roughly 500 titles on this debate This volume adds another 500 titles with annotations including books articles from scholarly journals newspapers trade magazines and World Wide Web sites In addition to new titles published since the first bibliography this volume also includes older works omitted from the first book some of them dating back to the 1850s An increasing number of the citations stem from the work of Sally Roesch Wagner whose research connects Iroquois political structures to the development of 19th century feminist thought by such women as Elizabeth Cady Stanton Prepared by a scholar who has written five books on the issue this bibliography together with the earlier volume provides a useful guide to sources on the debate *Native American Political Systems and the Evolution of Democracy* Bruce E.

Johansen, 1996-05-14 For more than a decade scholars have debated the question of whether American Indian confederacies primarily the Iroquois helped influence the formation of U S basic law The idea has sparked lively debate in the public arena as well with Canadian diplomat Durling Voyce Jones contending it shows a paradigm shift in our thinking Patrick Buchanan calling it idiocy and George Will saying it s fiction For the first time this bibliography brings together some 450 citations on the debate The work describes the debate in the words of one of its major participants Bruce E Johansen author of three other books on the subject The bibliography also takes the reader back to suggestions of the idea long before the contemporary debate Lakota author Charles Eastman brought up the subject in 1919 Mohawk teacher Ray Fadden developed it in the 1940s and John F Kennedy touched on it in 1960 Bringing the debate to its full flower in the present day the bibliography illustrates both fervent support and equally emphatic denial in the academy and the public press The book is both a scholarly tool and a lively exploration of issues bearing on the study of history and multiculturalism **Encyclopedia**
