Native Place:

Writing Home: Representations of the Native Place in Modern Japanese Literature Stephen Dodd, 2020-03-17 This book examines the development of Japanese literature depicting the native place furusato from the mid Meiji period through the late 1930s as a way of articulating the uprootedness and sense of loss many experienced as Japan modernized The 1890s witnessed the appearance of fictional works describing a city dweller who returns to his native place where he reflects on the evils of urban life and the idyllic past of his childhood home The book concentrates on four authors who typify this trend Kunikida Doppo Shimazaki T son Sat Haruo and Shiga Naoya All four writers may be understood as trying to make sense of contemporary Japan Their works reflect their engagement with the social intellectual economic and technological discourses that created a network of shared experience among people of a similar age This common experience allows the author to chart how these writers works contributed to the general debate over Japanese national identity in this period By exploring the links between furusato literature and the theme of national identity he shows that the debate over a common language that might transparently express the modern experience helped shape a variety of literary forms used to present the native place as a distinctly Japanese experience *Alaska Native Land Claims* United States. Congress. Senate. Committee on Interior and Insular Affairs, 1968 Revolution and Its Past R. Keith Schoppa, 2019-07-10 *Revolution and Its Past* is a comprehensive study of China from the last quarter of the eighteenth century through to 2018 A fascinating and dramatic narrative the book compels interest both as a history of an ancient civilization developing into a modern nation state and as an account of how the Chinese as a people have struggled and continue to work to find their identity in the modern world Beginning in the last two decades of the reign of the Qianlong emperor 1736 1795 the book provides a baseline that allows readers to understand China's rapid decline in the nineteenth and part of the twentieth century and extends into the present day a time when China has the second largest economy in the world and aims to become a leading global power by 2050 The vast changes that have swept over China between these times are probed through the lens of the broad and important theme of identities This fourth edition has been updated throughout providing a more thorough examination of recent history since 1960 and increasing coverage of such topics as new Qing history frontier and ethnicity women and their roles environmental concerns and issues and globalization Supported by maps images tables online eResources and suggestions for further reading and written in an engaging concise and authoritative style *Revolution and Its Past* is the ideal textbook for all students of the history of modern China **Native Land Talk** Yael Ben-zvi, 2018-01-02 Histories of rights have too often marginalized Native Americans and African Americans Addressing this lacuna *Native Land Talk* expands our understanding of freedom by examining rights theories that Indigenous and African descended peoples articulated in the eighteenth and nineteenth centuries As settlers began to distrust the entitlements that the English used to justify their rule the colonized and the enslaved formulated coherent logics of freedom and belonging By anchoring rights in nativity they countered settlers

attempts to dispossess and disenfranchise them Drawing on a plethora of texts including petitions letters newspapers and official records Yael Ben zvi analyzes nativity s unsettling potentials and its discursive and geopolitical implications She shows how rights were constructed in relation to American African and English spaces and explains the obstacles to historic solidarity between Native American and African American struggles
