Scythe and the City Christian Henriot, 2016-05-18 The issue of death has loomed large in Chinese cities in the modern era Throughout the Republican period Shanghai swallowed up lives by the thousands Exposed bodies strewn around in public spaces were a threat to social order as well as to public health In a place where every group had its own beliefs and set of death and funeral practices how did they adapt to a modern urbanized environment How did the interactions of social organizations and state authorities manage these new ways of thinking and acting Recent historiography has almost completely ignored the ways in which death created such immense social change in China Now Scythe and the City corrects this problem Christian Henriot's pioneering and original study of Shanghai between 1865 and 1965 offers new insights into this crucial aspect of modern society in a global commercial hub and guides readers through this tumultuous era that radically redefined the Chinese relationship with death

Citizens without Nations Maarten Prak, 2018-08-16 Citizenship is at the heart of our contemporary world but it is a particular vision of national citizenship forged in the French Revolution In *Citizens without Nations* Maarten Prak recovers the much longer tradition of urban citizenship across the medieval and early modern world Ranging from Europe and the American colonies to China and the Middle East he reveals how the role of ordinary people in urban politics has been systematically underestimated and how civic institutions such as neighbourhood associations craft guilds confraternities and civic militias helped shape local and state politics By destroying this local form of citizenship the French Revolution initially made Europe less rather than more democratic Understanding citizenship s longer term history allows us to change the way we conceive of its future rethink what it is that makes some societies more successful than others and whether there are fundamental differences between European and non European societies

Made in Hong Kong Peter E. Hamilton, 2021-01-05 Between 1949 and 1997 Hong Kong transformed from a struggling British colonial outpost into a global financial capital *Made in Hong Kong* delivers a new narrative of this metamorphosis revealing Hong Kong both as a critical engine in the expansion and remaking of postwar global capitalism and as the linchpin of Sino U S trade since the 1970s Peter E Hamilton explores the role of an overlooked transnational Chinese elite who fled to Hong Kong amid war and revolution Despite losing material possessions these industrialists bankers academics and other professionals retained crucial connections to the United States They used these relationships to enmesh themselves and Hong Kong with the U S through commercial ties and higher education By the 1960s Hong Kong had become a manufacturing powerhouse supplying American consumers and by the 1970s it was the world s largest sender of foreign students to American colleges and universities Hong Kong s reorientation toward U S international leadership enabled its transplanted Chinese elites to benefit from expanding American influence in Asia and positioned them to act as shepherds to

China's reengagement with global capitalism After China's reforms accelerated under Deng Xiaoping Hong Kong became a crucial node for China's export driven development connecting Chinese labor with the U S market Analyzing untapped archival sources from around the world this book demonstrates why we cannot understand postwar globalization China's economic rise or today's Sino U S trade relationship without centering Hong Kong **Strangers in the City** Li Zhang, 2002-11-01 With rapid commercialization a booming urban economy and the relaxation of state migration policies over 100 million peasants known as China's floating population have streamed into large cities seeking employment and a better life This massive flow of rural migrants directly challenges Chinese socialist modes of state control This book traces the profound transformations of space power relations and social networks within a mobile population that has broken through the constraints of the government's household registration system The author explores this important social change through a detailed ethnographic account of the construction destruction and eventual reconstruction of the largest migrant community in Beijing She focuses on the informal privatization of space and power in this community through analyzing the ways migrant leaders build their power base by controlling housing and market spaces and mobilizing social networks The author argues that to gain a deeper understanding of recent Chinese social and political transformations one must examine not only to what extent state power still dominates everyday social life but also how the aims and methods of late socialist governance change under new social and economic conditions In revealing the complexities and uncertainties of the shifting power and social relations in post Mao China this book challenges the common notion that sees recent changes as an inevitable move toward liberal capitalism and democracy **The Making of Global City Regions** Klaus Segbers, Simon Raiser, Krister Volkmann, 2007 Publisher description *Mediasphere Shanghai* Alexander Des Forges, 2007-07-31 For many in the west Shanghai is the quintessence of East Asian modernity whether imagined as glamorous and exciting corrupt and impoverishing or a complex synthesis of the good the bad and the ugly How did Shanghai acquire this power How did people across China and around the world decide that Shanghai was the place to be Mediasphere Shanghai shows that partial answers to these questions can be found in the products of Shanghai's media industry particularly the Shanghai novel a distinctive genre of installment fiction that flourished from the 1890s to the 1930s Shanghai fiction supplies not only the imagery that we now consider typical of the city but more significantly the very forms simultaneity interruption mediation and excess through which the city could be experienced as a business and entertainment center and envisioned as the focal point of a mediasphere with a national and transnational reach Existing paradigms of Shanghai culture tend to explain the city's distinctive literary and visual aesthetics as merely the predictable result of economic conditions and social processes but Alexander Des Forges maintains that literary texts and other cultural products themselves constitute a conceptual foundation for the city and construct the frame through which it is perceived Working from a wide range of sources including installment fiction photographs lithographic illustrations maps guidebooks newspapers and film Des Forges demonstrates the

significant social effects of aesthetic forms and practices Mediasphere Shanghai offers a new perspective on the cultural history of the city and on the literature and culture of modern China in general **Beyond Citizenship: Literacy and Personhood in Everyday China, 1900-1945** Di Luo,2022-09-19 Beyond Citizenship focuses on the role of literacy in building a modern nation state by examining the government provision of adult literacy training in early twentieth century China Based on untapped archives and diaries Di Luo uncovers people s strategic use of literacy and illiteracy in social interactions and explores the impact of daily experiences on the expansion of state power Highlighting interpersonal and intergroup relations Beyond Citizenship suggests a new methodology of studying literacy which foregrounds the agentive role of historical actors and so moves away from a more traditional approach that treats literacy itself as the key factor enabling social change *Chineseness across Borders* Andrea Louie,2004-03-22 Transnational ethnic identity issues studied through an ethnography of Chinese American visits to Chinese villages organized under a program set up by the Chinese government **Fuzhou Protestants and the Making of a Modern China, 1857-1927** Ryan Dunch,2001-01-01 He shows how Chinese Protestants with a distinctive vision for constituting China as a modern nation state contributed to the dissolution of the imperial regime enjoyed unprecedented popularity following the 1911 revolution and then saw their dreams for social and political change dashed
