Nato Communiques And Statements 1998:

NATO and the Former Yugoslavia Joyce P. Kaufman, 2002 Focusing on NATO's continued crisis of identity Joyce P. Kaufman argues that the conflicts in Croatia, Bosnia Herzegovina and Kosovo have proven to be critical to an alliance that has not been able to define its roles and missions in the post Cold War world. While on the one hand NATO was enlarging by inviting former adversaries in Central and Eastern Europe and the former Soviet Union to join, on the other hand it has been woefully unprepared to deal with the ethnic conflicts that erupted on its borders and that could undermine the peace and stability of Europe. The author contends that the conflicts in the former Yugoslavia have potentially threatened the essence of NATO by forcing the alliance to take on the new role of peacekeeper without adequately allowing the members to examine the role the alliance wants to or should play in a largely postcommunist world. Despite ongoing discussion in NATO ministerial summits, the alliance has made little progress to date and public questions about the role and even the viability of NATO after the Cold War continue to grow. The inability to address these issues leaves NATO facing a number of pressing questions that this book tries to answer: What role can and should the alliance play in the future? And why have the ongoing conflicts in the Balkans proven to be a challenge that the alliance has been unwilling or unable to resolve.

NATO and Peace Support Operations, 1991-1999 Henning Frantzen, 2004-12-17 This new book addresses the key question of how NATO and three of its member states are configuring their policies and military doctrines in order to handle the new strategic environment. This environment is increasingly dominated by new wars, more precisely civil wars within states and peacekeeping as the strategy devised by outside actors for dealing with them. The book seeks to explain how this new strategic environment has been interpreted and how the new conflicts and peacekeeping have been fitted into defence and war key concepts in the field of security studies.

Contemporary problems such as weapons of mass destruction, refugees and internally displaced persons, ethnic conflict and the environment are all explored in this timely volume. Sovereignty and the Global Community will prove an excellent resource for all interested in issues of sovereignty, sustainable development, resource management and the peaceful resolution of conflicts.

Violence against Kosovar Albanians, NATO's intervention 1998-1999 Laurence Binet, 2016-05-18 The Violence against Kosovar Albanians NATO's intervention 1998-1999 case study describes the constraints and dilemmas facing Médecins Sans Frontières teams that witnessed a process of terror and expulsion which they described as the deportation of Kosovar Albanians by Serb forces. It also described MSF's reaction to NATO aerial bombings and the control exercised over the refugee camps by this

party to the conflict Should MSF denounce the violence being committed against Kosovars at the risk of being excluded from access to these people and of encouraging the NATO intervention Should MSF take a stance on the NATO intervention What sort of relationship should be established with countries that were committed either militarily such as NATO members or politically Greece in the conflict and their civil societies Should MSF raise the alarm about the absence of the UNHCR in the management of the refugee camps at the risk of reinforcing this marginalization Is it justifiable to carry out an assessment mission that sacrifices the principle of operational independence by invoking an interpretation of the principle of impartiality that implies a responsibility to assist victims on both sides of a conflict

Plattner, Aleksander Smolar, 2004-01-28 Essays exploring a world dramatically transformed by the collapse of communism and the prospects for democracy in that realigned reality The breakup of the Soviet Union's external empire in Eastern Europe soon followed by the demise of the USSR itself destroyed the bipolar structure that had characterized world politics for almost half a century But while the dramatic collapse of communism left no room for doubt that the era of the Cold War had come to an end there was very little agreement about the nature of the new international order being born This book explores the emerging post Cold War international system and its implications for the future expansion and consolidation of democracy Bringing together both experts on international relations and scholars of democracy from Europe North America and Asia it examines the link between these two subjects in a way that is rarely done While a large literature has emerged in recent years on the effects of democracy on international relations the debate over what is often called the theory of democratic peace the authors of this volume instead examine the other side of this relationship the impact of the international system on the prospects for democracy Contributors Zbigniew Brzezinski Center for Strategic and International Studies Robert Cooper Defence and Overseas Secretariat in the Cabinet Office London Jean Marie Guhenno Institut des Hautes Etudes de Defense Nationale Paris Samuel P Huntington Harvard University Robert Kagan Carnegie Endowment for International Peace Ethan B Kapstein University of Minnesota Kyung Won Kim Institute of Social Sciences Jacques Rupnik Fondation Nationale des Sciences Politiques Paris Dimitri Landa University of Minnesota Adam Daniel Rotfeld Stockholm International Peace Research Institute Stockholm Philippe C Schmitter European University Institute Florence The Kosovo crisis and the evolution of a post-Cold War European security Martin A Smith, Paul Latawski, 2013-07-19 This electronic version has been made available under a Creative Commons BY NC ND open access license Analyses the international response to the crisis in Kosovo and its broader implications by examining its diplomatic military and humanitarian features Unravelling these implications can be challenging as it remains an event replete with paradoxes the originality of this book's approach lies in its exploration of these paradoxes The crisis in Kosovo has been a headline grabbing event a serious study of the implications of the conflict on wider European security issues and institutions is urgently required **Democracy, Ethnic Diversity, and Security in Post-Communist Europe** Anita I. Singh, 2001-06-30 Inder Singh examines why international organizations including the UN OSCE and Council of Europe advocated democratic governance based on the rule of law and respect for human and minority rights as the method by which states should try to accommodate their ethnically mixed populations She discusses how realistic this advice has been given the tension between the principle of the sovereignty of states and their international obligations and the extent to

which democratization had made for ethnic and political stability in post communist Europe Inder Singh demonstrates that this advocacy of democracy to handle ethnic diversity questions the perception of nationalism as a cause of war and disorder This pathbreaking study will be of appeal to academics and policy makers interested in how the management of ethnic diversity through democracy can enhance domestic and international security

The Role of Biotechnology in Countering BTW Agents Alexander Kelle,Malcolm Dando,Kathryn Nixdorff,2001 Biotechnology is vital to counter biological and toxin weapons Without biotechnology the detection identification and diagnoses of and medical countermeasures to such weapons would be virtually impossible As biological and toxin agents occur in natural outbreaks of disease or intoxications there are both civil and military benefits to be had from the use of biotechnology in providing effective countermeasures to such agents In this book the role of biotechnology in countering biological and toxin weapons is addressed under seven major headings The wider political and economic contexts enabling technologies for BTW agent detection the applicability of biotechnological methods for BTW agent detection on the battlefield in a terrorist incident and in an inspection environment pre exposure medical countermeasures diagnosis and identification and post exposure treatment and decontamination

Endgame in NATO's Enlargement Yaroslav Bilinsky,1999-02-28 After briefly dealing with arguments for and against NATO s enlargement as far as Poland the Czech Republic and Hungary the author shows why the enlargement process must be carried forward to include in the near future the three Baltic States Estonia Latvia Lithuania and Ukraine Inclusion of the Baltic States and of Ukraine in NATO would stabilize the region by helping the Russian democrats to concentrate on building a genuinely democratic market oriented Russian national state instead of succumbing to the temptation to restore the Soviet Union Ukraine could also contribute to NATO a sizable conventional military force and a prime strategic area the Baltic States offer a prime location and an indomitable spirit The Balts and Ukraine will help NATO when finally admitted as full members Using polling data printed material and interviews with Lithuanian and Ukrainian diplomats the book convincingly shows the soundness of the Baltic and Ukrainian security goals without glossing over some difficulties both internal and external **Hague Yearbook of International Law / Annuaire de La Haye de Droit International, Vol. 12 (1999)** Johan G.
